Career Nights

If you're thinking about changing careers, here's an opportunity to explore several possibilities, absolutely free!

Each career night gives you an inside look into the careers possible in that field. Pertinent, up-to-date information is provided on job opportunities, present trends and areas of specialization in each field.

The speakers, professionals in the field, will share their insiders' knowledge of how to get started. Time will be available for them to answer your individual questions.

For additional information and pre-registration call 947-9914. Take this first step toward choosing your new career.

After extensive consultation with members of Toronto's deaf community — which numbers more than 15,000 — George Brown has developed a series of courses that are specifically designed to meet the needs of the deaf.

These courses, which are found on pages 3, 5 and 10 of this directory, are taught in sign language by instructors who, in most cases, are deaf themselves. The vast majority of deaf people are most comfortable communicating in sign language — a form of communication that is distinct from English, or any other spoken language, in its concepts, phrasing and culture.

The courses deal with some of the basic day-to-day concerns of the deaf — understanding deaf culture and the place of the deaf in our society, increasing fluency in English and personal financial planning.

George Brown is committed to providing appropriate educational programs and courses for all segments of our community. Our courses for the deaf, which are unique in Canada, help to enrich the lives of a group of special people in our society.

Personal Development

Gain Confidence/ Overcome Shyness

Learn to relax and enjoy meeting new people. You can overcome shyness by understanding the 10 keys to self-confidence. The course also shows you how and where to meet people and how to start a conversation and keep it going.
Instructor: Howard Jones has worked extensively in the human relations field. He has presented seminars and workshops in confidence building, problem-solving and relationships to a wide variety of audiences.
Tues. 6:30 to 9:30 p.m. Kensington Campus
9 hours Fee: $43.00
September 20 to October 4 • **CE 876**

Assertiveness Training I

Shows you how to express yourself with confidence, tact and sensitivity. In an informal group setting where everyone's comments are welcome, you learn to relax and be yourself, get and keep the respect of others and refuse unwelcome requests.
Instructor: Margaret Code is president of the consulting firm Margaret Code Associates. With many years of experience in human resources management and a Master's degree from Harvard University, Margaret is an expert in enhancing individual and organizational effectiveness.
Mon. 6:30 to 9:30 p.m. Casa Loma Campus
24 hours Fee: $81.00 Materials: $3.00
September 19 to November 14 • **CES 809**

Assertiveness II

The concepts learned in Assertiveness I are applied to more complex situations, such as handling intense disagreements, manipulation, and angry outbursts from yourself or others. Video recordings of several classes help you learn to cope with troublesome situations.
Instructor: Margaret Code.
Thurs. 6:30 to 9:30 p.m. Casa Loma Campus
24 hours Fee: $81.00 Materials: $3.00
October 6 to November 24 • **CES 824**

Stress Management

Learn to identify the conditions and habits at work and home that lead to stress and how you can reduce their negative effects with a personal stress management plan. In this participatory course, you learn to recognize your physiological, emotional, cognitive and behavioural responses to stress and through this awareness, to make stress work for you as a positive, creative resource.
Instructor: Dr. Lucille C. Peszat is a director of the Canadian Centre for Stress and Well-Being. She was a colleague of the late Dr. Hans Selye, world-renowned authority on human stress.
Mon. 7 to 9:30 p.m. Casa Loma Campus
10 hours Fee: $49.00
September 26 to October 24 • **CES 840**

Courses in Adult Education for the Deaf Community

The Deaf and Hearing Worlds

An opportunity for deaf people to learn about themselves and explore the relationship between the deaf and hearing worlds. This course will look at the development of the deaf community and identify social influences and attitudes towards deafness. The instructor, Gary Malkowski, is deaf and will teach the course entirely in sign language.
Mr. Malkowski is a graduate of Gallaudet University in Washington D.C.
Tues. 7 to 9 p.m. Casa Loma Campus
28 hours Fee: $42.00
September 13 to December 13 • **CES 902**

Politics for the Deaf

NEW

This course is designed to provide deaf individuals with the opportunity to learn about the municipal, provincial, and federal levels of government. Topics covered include advocacy and accessing legal rights, lobbying, and identification of the level of government or organization responsible for such services as health, education, and employment. Instructor: Gary Malkowski.
Thurs. 7 to 9 p.m. Casa Loma Campus
28 hours Fee: $42.00
September 15 to December 15 • **CES 891**

Automotive

Know Your Car (Part I)

This course discusses the major maintenance requirements of any car, easy to perform spot checks and tasks like changing a flat, starting a stubborn engine and dealing with the garage mechanic if repairs are really needed. Learn when to replace tires, batteries and brakes and get dozens of tips that help save money and lengthen the life of your car.
Instructor: Don McQueen has had a class "A" licence with an interprovincial seal for more than 10 years. He has also studied disc brakes, diesel engines, and electronic ignitions.
Thurs. 6:30 to 9:30 p.m. Casa Loma Campus
12 hours Fee: $48.00
October 6 to October 22 • **CAR 800**

Know Your Car (Part II)

Prerequisite: Know Your Car (Part I) or equivalent.
A more advanced study of your car's different systems. Specific topics include: the lubrication system, types and grades of oil, how to change the oil and oil filter, winter starting aids and accessories, the braking system, selecting tires, changing a tire, the exhaust system and how to check for leaks, how to check and adjust the clutch, the suspension system, replacing shock absorbers, rust proofing, and replacing headlights and bulbs.
Instructor: Don McQueen.
Thurs. 6:30 to 9:30 p.m. Casa Loma Campus
12 hours Fee: $48.00
November 3 to November 24 • **CAR 801**

Aviation

Private Pilots Groundschool

This course acts as partial groundschool preparation for writing the Ministry of Transport licensing examination, and can be a supplement to a private pilots groundschool or a refresher course. Topics covered include: the theory of flight, aircraft, meteorology, navigation and air regulations. Please note: A minimum of ten hours of flight time are required for eligibility to write the MOT pilot licensing examination.
Tues. 6:30 to 9:30 p.m. Kensington Campus
42 hours Fee: $108.00
September 13 to December 13 • **CES 852**

Sailing

Practical Coastal Navigation

A practical course on coastal navigation for sailors. Topics covered include: compass use and corrections, chart work, bearings, buoyage, signals and signalling, dock and anchor procedures, coping with darkness, fog and heavy weather, and planning a passage. Anecdotes, films and literature are used to present material.
Mon. 7 to 10 p.m. St. James Campus
30 hours Fee: $95.00
October 3 to December 12 • **CE 816**

Antiques

How to Buy Antiques

Whether you are interested in collecting antiques for investment or pleasure, this course helps you learn more about the booming antique market. You are taught to recognize different styles and periods of furniture, china, glass and silver, and how to discern quality and craftsmanship.
Instructor: Marion Heller holds a diploma in fine and decorative arts from the New Academy of Art Studies in London, England and has completed a decorative arts course at the study centre of the Victoria and Albert Museum.
Tues. 7 to 9 p.m. Casa Loma Campus
12 hours Fee: $43.00
October 4 to November 8 • **CE 817**

Canadiana Furniture and Collectibles

Learn to identify and evaluate the many forms of Canadian furniture from the 18th through the 19th century. Students are introduced to antique furniture from Upper Canada, Lower Canada and the Maritimes. Tools, woodenware, kitchen utensils and quilts are also presented. Examples are brought to class to study and a field trip is planned for the last week.
Tues. 7 to 9 p.m. St. James Campus
16 hours Fee: $64.00
September 27 to November 15 • **CES 860**

Homes

Buying Your First Home

This course is designed for both first-time buyers and current home owners, whether buying a new or resale home. Topics examined include: what you can afford to buy; determining needs and wants; mortgage financing; choosing a real estate agent, home inspector and lawyer; offers to puchase; and hidden closing costs.
Instructor: Alan Silverstein is a Barrister and Solicitor as well as author of two best selling books: "Hidden Profits in Your Mortgage" and "Home Buying Strategies".
Sat. 10 a.m. to 4 p.m. or Mon. 7 to 9:30 p.m. St. James Campus
5 hours Fee: $24.00 Materials: $15.00
September 24 or October 17 to 24 • **RE 801**

Condominiums

Before you buy, let this course show you the advantages and disadvantages of owning a condominium in comparison to buying a single family dwelling. Topics covered include: various styles of condominiums, how to choose a good building, legalities of buying, renting your condominium, financing, price ranges, cooperatives, and trends in the Metro area.
Instructor: Marilyn Rothman is a real estate broker with her own company, which specializes in residential sales and leasing in the Metro area.
Sat. 10 a.m. to 3 p.m. St. James Campus
5 hours Fee: $23.00 Materials: $3.00
October 15 • **CE 869**

How to Buy an Investment Property

This course covers two important areas which every investor or potential investor should consider before deciding to buy a residential investment property. Part one covers the responsibilities of the landlord and tenant; leasing different types of residential properties, including condominiums, duplexes and houses; making your apartment marketable; and a discussion of case studies. The second part deals with financial benefits and risks, and the income tax implications of buying an investment property.
Sat. 10 a.m. to 3 p.m. St. James Campus
5 hours Fee: $53.00 Materials: $5.00
November 19 • **RE 807**

Hidden Profits in Your Mortgage

Save thousands of dollars with your mortgage as Canada's "Mortgage Magician," Alan Silverstein, brings his bestselling book to the classroom. Discover the different mortgage features available, and the best type of loan to arrange. Learn how the POPS principle – Paying Off Your Principal Sooner – will make you mortgage-free years faster. A must for every home buyer and home owner.
Sat. 10 a.m. to 4 p.m. St. James Campus
5 hours Fee: $36.00 Materials: $15.00
October 29 • **CES 867**

Basic Home Repairs

Learn to keep living spaces in good working order. Subjects covered include: keeping water in and out, furnace maintenance, repair of electrical plugs and switches, repair of plaster and drywall, hanging of objects, painting, wallpapering, installation of tiles, and caulking bathtubs and showers. Question and answer time is an important part of the course. Recognized experts speak on their specialties as schedules permit.
Thurs. 7 to 9 p.m. Casa Loma Campus
12 hours Fee: $44.00
September 29 to November 3 • **CES 825**

Cycling

Bicycle Techniques

A course for the absolute beginner and the slightly more experienced cyclist, covering the types of bikes available, the selection of the right bike and its perfect adjustment. The mechanical aspects of your bike are discussed in non-technical language and you get hands-on experience in rudimentary bike maintenance and repair. Other topics include: basic tools, clothing, equipment selection, fitness and riding techniques.
Tues. 7 to 9 p.m. St. James Campus
8 hours Fee: $32.00
October 25 to November 15 • **CES 857**

Fitness and Sports

Tennis

Enrolment in tennis courses is limited so students are encouraged to register early.

Tennis (Beginners)

An introduction to the art of playing tennis. Develop skill with the four basic strokes: forehand, backhand, volley and serve, as well as learning the proper footwork.
Fri. 6 to 8 p.m. or 8 to 10 p.m.
Kensington Campus
16 hours Fee: $47.00
October 7 to November 25 • **TENN 800**

Tennis (Intermediate)

Further develop skills in volleying, different hits, footwork and learn to analyze the game.
Mon. 6 to 8 p.m. or 8 to 10 p.m.
or Wed. 6 to 8 p.m. Kensington Campus
16 hours Fee: $47.00
September 26 or 28 to November 14 or 16 • **TENN 802**

Tennis (Advanced)

Advanced skills and knowledge of tennis strategy are taught with special attention given to forehand, backhand and serving.
Wed. 8 to 10 p.m. Kensington Campus
16 hours Fee: $47.00
September 28 to November 16 • **TENN 804**

Yoga

This ancient technique concentrates on individual self-development for perfect physical and mental well-being. It is strictly individual and teaches methods for independent use. Areas covered include: physical culture Asana, Pranayama or breathing techniques, meditation and mind-training.
Wed. 7 to 9 p.m. Casa Loma Campus
24 hours Fee: $50.00
September 21 to December 7 • **YOGA 800**

Coaching

National Coaching Certification Program Level I: Coaching Theory

This course is offered in cooperation with the Sports and Fitness Branch, Ministry of Tourism and Recreation. It is designed to train and educate amateur coaches by improving their knowledge and skills in the theory of coaching. Topics studied include: the role of the coach, sport psychology, how the body works and grows, skill analysis, sport safety, teaching skills, and practice planning. While a Level I Theory Certificate is awarded upon successful completion of this course, participants are encouraged to contact the Ontario Sports Administrative Centre at 495-4000 for additional information on how the "Theory", "Technical" and "Practical" components can be combined for certification.
Sat. and Sun. 9 a.m. to 5 p.m.

NEW

Making Music: An Introduction to Musicianship

In this introductory class for musicians, students will tap, clap, count, sing, speak, and hear their way to a deeper understanding of rhythm, pitch, and harmony. Sessions include basic reading and theory, metre, dynamics, ensemble rhythms, and major/minor tonality. All work is done in groups–no one is singled out to perform.
Instructor: Reid Robins is a professional composer and guitarist whose training includes private studies with Pierre Boulez and Ph.D work at Harvard University.
Wed. 7 to 9:30 p.m. Kensington Campus
30 hours Fee: $45.00
September 21 to December 7 • **CES 903**

Composition Workshop for Instrumentalists

Composition is best learned by doing. Each facet of the art discussed in class will be put into practice to facilitate a working understanding of the underlying compositional principles. Topics include the creation of form, time, the functions of harmony, counterpoint, and the endless array of potential processes. Course will include project work that will be critiqued by the instructor.
Instructor: Reid Robins.
Tues. 7 to 9:30 p.m. Kensington Campus
30 hours Fee: $120.00
September 20 to December 6 • **CES 873**

The Synthesizer and Electronic Sound Creation

A look at the theory and practical use of the synthesizer in contemporary music and sound creation. Specific subjects discussed are: the history and evolution of the synthesizer, how sounds are created and emulated, additive and subtractive synthesis, FM sound creation, differences between analog and digital systems, PCM digital sound re-creation, digital sampling, and the newest development in synthesizer technology, MIDI interfacing.
Mon. 7 to 9 p.m. St. James Campus
20 hours Fee: $71.00
September 26 to December 5 • **CES 841**

Toronto Classical Music Landscapes

Expand your musical horizons in this survey of the history of music. Through lectures, discussions, recordings and live concerts you learn about musical forms, instruments, vocabulary and the works of the great masters from the middle ages to the 20th century. Also discussed are: the history of the modern orchestra, how it works and the role of the conductor. In addition to regular classes, this course includes attendance at four concerts by the world-class Toronto Symphony Orchestra in Roy Thomson Hall.
Thurs. 7 to 9 p.m. class nights
8 to 10 p.m. concert nights
St. James Campus
22 hours Fee: $71.00 Symphony tickets: $80.00
September 15 to November 24 • **CES 843**

George Brown College in collaboration with The Elmwood Club presents

Post-Diploma Fitness Certificate in Specialty Leadership

The purpose of this program is to provide fitness leaders with the knowledge and skills necessary to design, develop, implement and refine the sort of theory-based programs demanded by state-of-the-art programs.

Overview: The specialty leadership certificate is comprised of four courses including:
i) low impact specialty – 15 hours
ii) stretch and strength specialty – 15 hours
iii) innovative choreography specialty – 15 hours
iv) stretch and relaxation techniques specialty – 15 hours

The program runs from mid-September until April with a Christmas break. Classes are normally scheduled to run Tuesday afternoons, but additional projects and/or visits may be planned. These visits will be arranged in collaboration with students in order to minimize disruption of personal work schedules.

Admission requirements: Applicants must be graduates of university or college fitness programs, with a minimum of 100 hours of exercise class leadership, or must have received permission from the instructor. While students may apply for individual courses, preference is given to those people enrolling in the full program.

Method of Application: Please telephone 967-1212, ext. 2500, to arrange an interview.

Location: Classes are held at:
The Elmwood Club
18 Elm St.
Toronto, Ontario

Low Impact Specialty

Prerequisite: Fitness graduate or permission from the instructor.
This course covers current theory and techniques in low impact exercise. It focuses on the application of theory to practice, and is designed to facilitate the development of routines utilizing current research on low impact techniques.
Tues. 2 to 4:30 p.m. Elmwood Club
15 hours Fee: $100.00
September 13 to October 25 • **FIT 811**

Stretch and Strength Specialty

Prerequisite: Fitness graduate or permission from the instructor.
The Stretch and Strength Specialty incorporates theory and principles related to the use of rubber bands, ankle and wrist weights.
Students are required to develop routines that demonstrate both a sound knowledge of theory and a skill in applying theory to practice.
Tues. 2 to 4:30 p.m. Elmwood Club
15 hours Fee: $100.00
November 1 to December 6 • **FIT 812**

The Roots of Rock 'n' Roll

A chronological examination of the progression of music from the early 1950s to the early 1980s. Special attention is given to: the birth of rock and roll; rock's first era, 1955-1959, the "British Invasion" of the mid 60s, the mixed bag of the 70s, as well as changing technology and social attitudes.
Instructor: Roger Ashby — morning announcer on 104 CHUM-FM. As well, he is host of the Sunday Morning Oldies Show, 9 to noon on CHUM-FM and has produced two CHUM films, including the History of Rock.

Tues. 6:30 to 8:30 p.m. Casa Loma Campus
16 hours Fee: $54.00
September 20 to November 8 • **CES 839**

Sounds Of The City: The History of Rhythm and Blues

This course explores the myriad styles of Afro-American music which, since World War II, have collectively been known as rhythm and blues. Through lectures, discussions, recordings and live concerts you'll learn the roots, stylistic characteristics, and sociological and historical context of such genres as blues, doo wop, black rock and roll, Motown and soul.
Instructor: Rob Bowman is working on a book about Stax Records, the home of Southern soul music.
Thurs. 7 to 9 p.m. Casa Loma Campus
24 hours Fee $85.00
September 22 to December 8 • **CES 883**

Video

Introduction to Video Production Techniques

A hands-on course designed for anyone interested in video, whether for use at home or on the job. Topics include: basic technical knowledge of television, operating the camera and VCR, equipment comparisons, hands-on production workshops, basic composition and lighting, scripting, and an introduction to editing. Material is presented through lectures, class discussions, a video teaching package and manual, hands-on sessions, viewing and discussion of student work and guest speakers. While a camera and VCR are available for your use during class time, it is advantageous to have your own equipment for assignments and projects.
Playback and editing facilities are limited to 1/2" VHS format.
Mon. 7 to 10 p.m. Casa Loma Campus
15 hours Fee: $47.00 Materials: $10.00
September 12 to October 17
October 24 to November 21 • **ELS 828**

Video Production Techniques and Editing

Prerequisite: Introduction to Video Production Techniques.
This course is designed for students interested in scripted video production using an editing suite to assemble finished tapes for an audience other than themselves.
Students should have their own camera/recorder and be prepared to shoot material for use in class.
Editing suite is limited to VHS format.
Mon. 7 to 10 p.m. Casa Loma Campus
15 hours Fee: $47.00 Materials: $10.00
November 28 to January 2 • **ELS 829**
For more information, please call Bill Insley, 967-1212, ext. 2483.

Et Cetera

Herbs and Herbal Remedies

Learn about hundreds of herbs, their history and how they are used as preventative and curative agents. Other topics discussed include: modern medicine's reliance on herbal cures, the effects of herbal groups on the body, legislation pertaining to herbs, healers, aphrodisiacs, poisons, toxins, and the recognition and discriminination of adulterated herbs. Ample opportunity is given for group discussion of all subjects.
Instructor: Allan Bortnick is a chiropractor and naturopath currently practicing in the Toronto area.
Thurs. 7:30 to 9:30 p.m. Casa Loma Campus
20 hours Fee: $59.00
October 6 to December 8 • **CE 865**

Stained Glass I

Gain an appreciation of this unique art form in this introduction to the copper foil and lead techniques of stained glass. The course is designed for both the complete beginner and anyone who wants to improve their skills in this craft. Most aspects of stained glass are covered so each student becomes familiar with all the tools and materials needed in the completion of a stained glass window.
Mon. and Wed. 7:30 to10 p.m.
Casa Loma Campus
60 hours Fee: $145.00. Students must purchase their own material as required.
September 19 to November 28 • **ART 805A**

Astronomy

Introduction to Astronomy

Familiarize yourself with the night sky as you observe many objects in the solar system, including: the moon, sun, planets, stars and planispheres. The use of observing tools such as telescopes and cameras and the past, present and future of space exploration are also discussed.
Weather permitting, classes are held outside where actual observing takes place with a telescope, binoculars and the naked eye. Visits to a local planetarium and the Dunlap Observatory in Richmond Hill are planned.
Mon. 7 to 9:30 p.m. Casa Loma Campus
20 hours Fee: $71.00
September 12 to November 7 • **CES 832**

Make-Up

The Art of Make-Up

Develop a personalized basic beauty routine and learn the secrets of proper skin care. Topics include: types of products, textures, the effect of the products on different skin types, and special treatment methods for individual skin needs. Also learn the basics of colour theory and make-up techniques to help you choose and apply the correct background and accent make-up.
Students should bring face cleansers, hand mirror and a pair of tweezers to class.
Instructor: Aurelia Fennema is an experienced consultant and demonstrator of new make-up lines for cosmetic companies.
Sat. 1 to 4 p.m. St. James Campus
18 hours Fee: $60.00 Materials: $5.00
October 15 to November 19 • **CE 868**

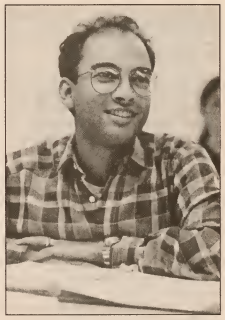
Sign Language

For Sign Language, Level I and II, see page 23.

The Great Outdoors

Birds of Southern Ontario: A Field Study

This field-oriented course is an introduction to some of the 250 species of birds that pass through southern Ontario each fall. An indoor session is followed by weekly field trips including: Toronto Island — passerines; Scarborough Bluffs — hawks; Whitby area — shore birds and ducks; Clairville Conservation Area — land birds, Presqu'ile — shorebirds, and a visit to the Niagara River to observe gulls.Participants must supply their own binoculars and the suggested field guide. Carpools will be arranged.
Instructor: George M. Fairfield is past chairman of the Toronto Bird Observatory and a member of the Toronto Ornithological Club.
One classroom session only: Thurs. 7 to 10 p.m.
St. James Campus
September 8
Field trips: Sat. 10 a.m. to 2 p.m
September 10 to November 5
35 hours Fee: $81.00 • **CES 826**



NEW

Hike the Canadian Shield

The Canadian Shield is the largest and most diverse geographical feature in Canada. This unique hiking trip takes participants through a wilderness landscape full of rivers, lakes, and primaeval forests. Activities include: hiking, swimming, nature interpretation, photography, camping, and map and compass work.
Sat. and Sun.
24 hours Fee: $110.00
September 24 to 25 or October 1 to 2
Transportation is provided.
Departure Saturday 9 a.m. from the Harbourfront Nautical Centre, 283 Queens Quay West (just west of the Admiral Hotel).
Participants should bring a backpack and sleeping bag. A detailed equipment list will be sent to all participants.
For further information, please call Harbourfront Canoe School – 861-1233. • **CE 811**

Ontario Hunter Safety Course

A preparatory course to writing the hunting licence examination of the Ontario Ministry of Natural Resources. The course is mandatory for all applicants without proof of a hunting licence. After an introduction to hunter safety and ethics, topics covered include: gun parts, safety and control when carrying a gun, game laws and regulations, game identification, methods of hunting, and ammunition identification. The course concludes with a mock examination similar in style and content to the government examination. Purchase of a text is required.
Instructor: Doria Ciallella.
Mon. and Wed. 7 to 9:30 p.m.
Casa Loma Campus
20 hours Fee: $57.00 and purchase of text.
September 19 to October 17
November 7 to November 30 • **CES 811**

College Preparation

Academic Upgrading

These courses are designed to upgrade a student's academic standing for self-development, career improvement or entry into apprenticeship, vocational training and two-year diploma programs offered at colleges of applied arts and technology.

English

Pre-Upgrading

A preparatory class for students who do not meet the requirements of ENG 906. The emphasis is on developing reading and writing skills. Instruction is individualized although group instruction is also offered.
Tues. 6 to 9 p.m. Casa Loma Campus
50 hours Fee: $40.00
September 6 to January 3 • **ENG 930**

English Upgrading 8

Prerequisite: Grade 7 English or equivalent.
A basic course emphasizing grammar, usage, spelling, vocabulary, reading and compositional skills. For students who have been out of school for a number of years, this course is an excellent means of refreshing basic language skills and preparing for more advanced courses in English upgrading. Instruction is individualized although group instruction is also offered.
Tues. 6 to 9 p.m. Casa Loma Campus
50 hours Fee: $40.00
September 6 to January 3 • **ENG 906**

English Upgrading 9

Prerequisite: ENG 906 or equivalent.
Detailed study of grammar and usage with practical writing assignments each class. Topics include: punctuation, spelling, reading and vocabulary development. Both group and individual instruction are used.
Tues. 6 to 9 p.m. Casa Loma Campus
50 hours Fee: $40.00
September 6 to January 3 • **ENG 907**

English Upgrading 10

Prerequisite: ENG 907 or equivalent.
A brief review of grammar and punctuation as required. Emphasis is on developing vocabulary and reading and writing skills. Students learn descriptive, expository and narrative writing and prepare short reports and introductory business letters.
Tues. 6 to 9 p.m. Casa Loma Campus
50 hours Fee: $40.00
September 6 to January 3 • **ENG 908**

English Upgrading 11

Prerequisite: Grade 10 English or ENG 908.
Students improve their reading rate, comprehension and vocabulary. Topics include: principles of discussion and debate; detailed analysis of short stories, poetry and short plays from twentieth century literature, origin of the English language, factors that cause a language to change and standards of usage.
Mon. and Wed. 6 to 9 p.m. Casa Loma Campus
75 hours Fee: $40.00
September 12 to December 7 • **ENG 909**

English Upgrading 12

Prerequisite: Grade 11 English or ENG 909.
Students learn to assess their own work using the techniques of various writers as guidelines. Listening and oral skills are developed through debates, presentations and simulated meetings. A detailed analysis of representative twentieth century writers focuses on drama and novels.
Mon. and Wed. 6 to 9 p.m. Casa Loma Campus
75 hours Fee: $40.00
September 12 to December 7 • **ENG 910**

Mathematics and Science

Mathematics Upgrading 8

Prerequisite: Grade 7 mathematics or equivalent.
A placement test is given to determine exact starting point.
An introduction to basic mathematics. Topics include: whole numbers, fractions, decimals, per cent, ratio and proportion. Individualized instruction with some group teaching.
Note: This class may be combined with MATH 907 and MATH 908.
Thurs. 6 to 9 p.m. Casa Loma Campus
50 hours Fee: $40.00
September 8 to January 5 • **MATH 906**

Mathematics Upgrading 9

Prerequisite: Grade 8 mathematics or equivalent.
A placement test is given.
Review of mathematics fundamentals and an introduction to basic algebra. Topics include: linear equations, formulae, inequalities and the solution of word problems using algebraic equations. Individualized instruction with some group teaching.
Note: This class may be combined with MATH 906 and MATH 908.
Thurs. 6 to 9 p.m. Casa Loma Campus
50 hours Fee: $40.00
September 8 to January 5 • **MATH 907**

Mathematics Upgrading 10

Prerequisite: MATH 907 or equivalent.
A placement test is given.
After a brief review of MATH 907, students are introduced to products and factoring, solving equations with two variables, graphing, equations involving algebraic fractions and some work with quadratic equations.
Note: This class may be combined with MATH 906 and MATH 907.
Thurs. 6 to 9 p.m. Casa Loma Campus
50 hours Fee: $40.00
September 8 to January 5 • **MATH 908**

Mathematics Upgrading 11

Prerequisite: Grade 10 mathematics or MATH 908.
Begin with a brief review of basic arithmetical skills and grade 10 algebra then learn to solve different types of equations. Topics include: problem solving, graphing linear and quadratic functions, solving right triangles and developing calculator skills.
Note: This class may be combined with MATH 910.
Tues. and Thurs. 6 to 9 p.m. Casa Loma Campus
75 hours Fee: $40.00
September 13 to December 6 • **MATH 909**

Mathematics Upgrading 12

Prerequisite: Grade 11 mathematics or MATH 909.
Expand on skills developed in MATH 909 and learn to solve additional types of equations and inequalities. Topics include: solving linear and non-linear equations; quadratic, radical, exponential and logarithmic equations; relations and functions and how to graph them; sequences and series; solving oblique triangles; basic trigonometry and advanced calculator skills.
Note: This class may be combined with MATH 909.
Tues. and Thurs. 6 to 9 p.m. Casa Loma Campus
75 hours Fee: $40.00
September 13 to December 6 • **MATH 910**

Physics

Prerequisite: Grade 10 science and grade 11 mathematics.
Study mechanics, heat and electricity at the grade 11 or 12 level.
Tues. and Thurs. 6 to 9 p.m. Casa Loma Campus
75 hours Fee: $40.00
September 13 to December 6 • **PHY 900**

Biology

Prerequisite: Grade 10 science.
Covers the structure and function of the various body systems, human anatomy and physiology at the grade 11 or 12 level. Laboratory work is involved.
Mon. and Wed. 6 to 9 p.m. Casa Loma Campus
75 hours Fee: $40.00
September 12 to December 7 • **BIO 900**

Chemistry

Prerequisite: Grade 10 science.
Introductory college chemistry at the grade 11 or 12 level. Includes work in the laboratory.
Tues. and Thurs. 6 to 9 p.m. Casa Loma Campus
75 hours Fee: $40.00
September 13 to December 6 • **CHEM 900**

Statistical & Research Methods — Part I

An introduction to descriptive statistics and techniques in data management. Topics include: Data collection-preparing questionnaires etc. data arrangement-tables and graphs, computation of measures of central tendency and measures of variability, use of normal distribution and other distributions such as Binomial and Poisson distributions, techniques in handling large quantities of data, reporting on data (using descriptive statistical methods only).
Note: This course is equivalent to Math 214 and may be used as a prerequisite for Epidemiology.
Wed. 5:30 to 8:30 p.m. St. James Campus
48 hours Fee: $60.00
September 7 to December 21 • **MATH 121X**

A new upgrading opportunity at no cost to you

George Brown College, in conjunction with the Ministry of Skills Development, offers a new approach to upgrading for skills training courses or successful employment. Personal assessment, diagnostic testing, and counselling will assist us in developing an individual, realistic upgrading program in mathematics, English, science, computer literacy, and hands-on skills to enable you to progress to your goals. A personal profile of competencies achieved will be provided to each student at the end of the program.

This progam is designed primarily for adults 25 or older. All levels of upgrading are offered from basic literacy and numeracy through equivalent grade 12 subjects.

Some assistance for disadvantaged persons may be available to assist with daycare support, transportation, and accommodation when it is indicated by a needs assessment.

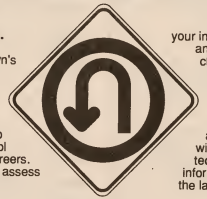
Courses start each Monday at no cost to you.

To book your appointment, call 967-1212, ext. 2460, 2461 or 2462.

Changing Directions?

We can help.

George Brown's Vocational Testing Service can help you decide whether to go back to school or change careers. The tests will assess your interests, skills and personality characteristics to match you to a career. The Test Centre's staff can also help you with job search techniques and information about the labour market.



For more information call:
967-1212,
and ask for the Test Centre

Pre-Technology

For mature students who do not have the prerequisites to enrol in a technology program, the general education received in these courses provides them with a reasonable expectation of success in their chosen program. Classes are held during the day and the courses are 32 weeks long. Students wishing to enrol in individual classes must enquire about the scheduled times and fees by phoning 967-1212, ext. 2481.
Mon. to Fri. 8 a.m. to 3 p.m. Casa Loma Campus
2 Semesters
September 5 to December 22 (Semester I)
January 2 to April 28 (Semester II) • **PT 700**

Courses: 14 Courses over 2 Semesters
– 768 Total Hours

Semester I – 16 weeks

CHEM 714	Introductory Chemistry	48 hr
DR 704	Drafting	48 hr
EL 714	Introductory Electricity	48 hr
ENG 720	English A Language Development	80 hr
MACH 707	Workshop Technology	48 hr
MATH 740	Pre-Technology Mathematics	64 hr
PRGM 720	Computer Studies	48 hr

Semester II – 16 weeks

DR 705	Drafting	48 hr
ELTC 722	Introductory Electronics	48 hr
ENG 721	English B Applied Communications	80 hr
MATH 750	Pre-Technology Mathematics	64 hr
PHY 711	Introductory Physics	48 hr
PRGM 730	Computer Studies	48 hr
SC 700	Introduction to Engineering Science	48 hr

Pre-Health Science Program

For people who want to enter a post-secondary health program but lack the prerequisites, this program helps prepare them for admission. Specially designed courses provide a background in basic sciences, English, mathematics and social sciences. This course runs for 16 weeks, 24 hours per week from 0800 hours-1600 hours with intakes in September and January. Classes are held at St. James Campus and are available for both part-time and full-time study. Selected courses are offered in the evening (see BIO 700X, CHEM 700X, MATH 700X). Evening courses are also available which are equivalent to Pre-Health English. For additional information, please call 967-1212, ext. 3379.

Courses:
Biology 700, 48 hours, human biology
Chemistry 700, 48 hours, chemistry as applied to biology
Physics 700, 48 hours, physics for health sciences
Mathematics 700, 64 hours, basic and applied skills
English 700, 80 hours, basic English skills
Sociology 700, 64 hours, introduction to social science

ADULT EDUCATION FOR THE DEAF

George Brown College is offering a series of part-time courses for deaf adults. The courses are taught by deaf instructors in sign language or by a hearing instructor with a sign language interpreter.

Come to the opening night information and registration session to meet the teachers and find out more about the classes. Students may register early for The Deaf and Hearing Worlds, Politics for the Deaf and Personal Financial Planning (see How to Register, page 84). Those wanting to register for Upgrading courses should attend the information and registration night.

Information Night

Tuesday, September 13, 1988 – 7 p.m. Casa Loma Campus

Upgrading for Adults

Improve your English reading and writing skills with the help of a qualified deaf instructor. George Brown College, in conjunction with the Ministry of Skills Development, is offering a new approach to Upgrading for the Deaf Community. These individualized programs for Deaf Adults will be taught in sign language *at no cost to the student.*

English Upgrading 930H
Mon. and Wed. 7 to 9 p.m.
Casa Loma Campus – 50 hours
September 19 to December 14
Tues. and Wed. 7 to 9 p.m.
Casa Loma Campus – 50 hours
September 20 to December 13

English Reading Comprehension 931H
Mon. and Wed. 7 to 9 p.m.
Casa Loma Campus – 50 hours
September 19 to December 14
Sat. 10 a.m. to noon
Casa Loma Campus – 40 hours
September 17 to December 17

Personal Development

The Deaf and Hearing Worlds
An opportunity for deaf people to learn about themselves and explore the relationship between the deaf and hearing worlds.
See page 3.

Politics for the Deaf
This course is designed to provide deaf individuals with the opportunity to learn about the municipal, provincial and federal levels of government.
See page 3.

Personal Financial Planning
Learn how to develop a personal budget that will help you to better manage your money. The course will also look at income tax, insurance, investing, banking, interest rates, and how to buy a house.
This course is for the deaf and will be taught by a money management expert with a sign language interpreter.
See page 5.

FOR MORE INFORMATION PLEASE CALL:
TDD: 967-0966 or VOICE: 947-9914

Fees (subject to change):

Full-time:
Tuition fee: $310.00
Confirmation fee: $50.00 (non-refundable) (deducted from $310.00)

Part-time:
The program may be taken on a part-time basis. Fees will depend on the hours of instruction.

Textbooks: Approx. $120.00

Graduates:
Graduates of Pre-Health who wish to enter full-time programs in the Health Sciences Division must apply through the normal selection process.

Biology for Health Sciences
Introduction to human biology and physiology in preparation for entrance into Nursing and Dental programs. This course is the equivalent of BIO 700 (see Pre-Health Science program).
Mon. and Wed. 7 to 10 p.m. St. James Campus
80 hours Fee: $120.00
September 19 to December 21 • **BIO 700X**

Chemistry for Health Sciences
Basic chemical principles required for life sciences with applications to biology. This course is the equivalent of CHEM 700 (see Pre-Health Science program).
Tues. 7 to 10 p.m. St. James Campus
45 hours Fee: $67.50
September 13 to December 20 • **CHEM 700X**

Mathematics of Finance
This course covers the following topics: compound interest; ordinary simple annuities; other simple annuities; general annuities; sinking funds; bonds; and depreciation depletion and capitalization.
Tues. and Thurs. 7 to 9 p.m. St. James Campus
45 hours Fee: $67.50
September 20 to December 6 • **MATH 115X**

Pre-Health Mathematics
This course is a review of basic mathematics leading to competence in the type of calculations used in post-secondary, health-related programs.
Tues. and Thurs. 7 to 9 p.m. St. James Campus
64 hours Fee: $90.00
September 13 to December 22 • **MATH 700X**

English Resource Centre — English 930R
NEW
Through the Ministry of Skills Development, the Ontario Basic Skills (OBS) program allows you to participate in academic upgrading one or two nights a week and/or Saturday mornings. Proceed at your own pace until you achieve the academic level (1-12) you require.

Mon. and/or Wed. 6 to 9 p.m. and/or
Sat. 9 a.m. to noon Casa Loma Campus
75 hours Fee: $40.00
September 19 to November 14

Introduction to Computer Programming
An overview of business data processing and a base for further study of programming and system analysis. Topics include: hardware and software features, programming languages, flowcharts and practical programming experience.
Mon. and Wed. or Tues. and Thurs.
6 to 8:30 p.m. St. James Campus
50 hours Fee: $75.00
Materials: $5.00 and purchase of text.
September 19 or 20 to November 28 or 24
• **EDP 100X**

Basic Keyboarding I
Designed for those with minimal or no knowledge of typing. After the keyboard is covered thoroughly, students do drills to increase their speed and accuracy with the goal of achieving 20 to 25 words per minute.
Text: Typing Power Drills.
Mon. and Wed. or Tues. and Thurs. 6 to 9 p.m. or Sat. 10 a.m. to 1 p.m. St. James Campus
60 hours Fee: $90.00
Materials: $5.00 plus purchase of text.
September 19 or 20 to November 28 or 24
September 17 to February 18 • **KB 100X**

Microcomputers

Computer Literacy (An Introduction to Microcomputers)
An introduction to the computer age, covering how computers work, computer terminology, what the computer can and cannot do and the types of machines available. Material is presented with helpful audio-visual aids and hands-on computer experience.
Tues. 6 to 9 p.m. or Sat. 9 a.m. to noon
St. James Campus
21 hours Fee: $84.00 Materials: $5.00
September 20 or 10 to
November 1 or October 29 or
November 8 or 5 to December 20 or 17
Tues. 6:15 to 9:15 p.m.
Harbourfront Microcomputer Centre
235 Queen's Quay West
(Register at St. James Campus)
November 8 to December 20 • **PRGM 993**
For information about this course, please call 967-1212, ext. 3292.

Introduction to Electronic Data Processing
Prerequisite: Grade 12 mathematics at the general level.
In this hands-on course, students cover a variety of topics, including: a brief history of computers, computer logic through simulation, the impact of computers on society, elements of computer systems and microcomputers in particular, and using software for word processing, data bases and spread sheets.
Tues. & Thurs. 5 to 7 p.m. St. James Campus
30 hours Fee: $45.00
September 27 to November 15 • **PRGM 970**
For information about this course, please call 967-1212, ext. 3380.

Introductory Microcomputer Programming
This course covers the following topics: Introduction to the microcomputer, hardware, software, terminology and the language BASIC; writing, running, saving and printing programs; program development including documentation, editing, input and output techniques, decision-making and branching; arrays and READ/DATA statements.
Casa Loma Campus
30 hours Fee: $45.00
Mon. and Wed. 5 to 7 p.m.
September 26 to November 16
Tues., Wed. or Thurs. 7 to 10 p.m.
September 27, 28, or 29 to
November 29, 30 or December 1
Sat. 1 to 4 p.m.
October 1 to December 3 • **PRGM 925**
For information about this course, please call 967-1212, ext. 2481.

Microcomputer Programming Techniques
Prerequisite: PRGM 925 or equivalent.
Review BASIC programming techniques and learn more advanced BASIC statements and concepts. Topics include: advanced looping and branching techniques, subscribed variables, arrays, algorithms and problem solving methods, the use of flowcharting and/or pseudo-code, program documentation, sorting techniques including Bubblesort and Shellsort, handling cassette and disk files; creating, maintaining, updating, sorting and merging files. Students also select and develop a project.
Casa Loma Campus
30 hours Fee: $45.00
Mon. 7 to 10 p.m.
September 26 to December 5
Sat. 9 a.m. to noon
October 1 to December 3 • **PRGM 935**
For information about this course, please call 967-1212, ext. 2481.

MS-DOS and the Personal Computer
Learn the physical components of MS-DOS, DOS commands and the different versions available. Other topics include: floppy and hard disk drives, volume labels, files and file names, control and editing keys, file handling, redirection, pipes and filters, hierarchical directories, line editor, batch file commands, configuring DOS with config. sys., keyboard reassignment, organizing a disk, hard disk backup and restoring.
Casa Loma Campus
30 hours Fee: $189.00
Tues. and Thurs. 5 to 7 p.m.
September 27 to November 15
Tues. 7 to 10 p.m.
September 27 to November 29
Sat 9 a.m. to noon or 1 to 4 p.m.
October 1 to December 3 • **PRGM 908**
For more information about this course, please call 967-1212, ext. 2481.

Advanced MS-DOS
NEW
Prerequisite: PRGM 909 - MS-DOS and the Personal Computer or suitable experience.
This course covers the following topics: advanced commands (attrib, set, etc), hard disk features and partitions, organizing hard disks, backup media, backup procedures and strategy, keyboard and screen reassignment, virtual disk drive (RAM disk), extended and expanded memory board to increase RAM, advanced batch files: calling a batch file from another batch file and returning to the point of call and continue, advanced batch subcommands, edlin versus full screen editing, embedding extended ASCII in a text file, edlin subcommands in maintaining a data base, DOS editing keys, creating menu driven programs, application of redirection, piping and filters, structure of MS-DOS.
Wed. 7 to 10 p.m. Casa Loma Campus
30 hours Fee $190.00
September 28 to November 30 • **PRGM 918**

Microcomputers in Business
Prerequisite: Basic knowledge of microcomputer operations.
An introduction to the various types of commercially available productivity software for those acquainted with the general procedures for processing business information. Subjects include: BASIC, electronic spreadsheet, word processor, data manager, graphics and integrated packages. Hands-on experience is offered in most of these areas.
Text: Lotus 1-2-3 — A Ready Reference Manual and dBASE III — A Ready Reference Manual.
Sat. 9 a.m. to 1 p.m. St. James Campus
44 hours Fee $182.00
Materials: $8.00 plus purchase of text.
See equivalency for CCUI page 28.
September 24 to December 10 • **EDP 800**

Introduction to UNIX
Prerequisite: Programming experience in one of the following: 'C', Fortran, Cobol, Pascal or FORTH.
For programmers who want to learn about the functioning and the abilities of the UNIX operating system in sufficient detail. Shell programming and UNIX utilities are covered in depth. 'C' language programming is not dealt with.
Thurs. 7 to 10 p.m. Casa Loma Campus
30 hours Fee: $250.00
September 29 to December 1 • **PRGM 942**
For more information about this course, please call 967-1212, ext. 2481.

How to reach us:

Microcomputer Training at Harbourfront

George Brown College - Harbourfront Microcomputer Centre
Courses are designed to provide hands-on microcomputer training using IBM compatible personal computers using the latest software products.

The Facility
The George Brown College - Harbourfront Microcomputer Centre is equipped with 20 IBM compatible microcomputers and four printers.

Location
Harbourfront, 235 Queen's Quay West

Courses

Computer Literacy – An introduction to Microcomputers
(See page 11 for course description and dates.)

Introduction to Lotus 1-2-3
(See page 12 for course description and dates.)

Introduction to dBASE III
(See page 12 for course description and dates.)

Intermediate dBASE III
(See page 12 for course description and dates.)

Introduction to ACCPACC General Ledger
(See page 13 for course description and dates.)

IBM is a trademark of International Business Machines Corp. Lotus 1-2-3 is a trademark of Lotus Development Corp, dBASE III is a trademark of Ashton-Tate.

Languages

'C' Programming Language (Part I)

Prerequisite: Programming experience in at least one other language.
This hands-on course provides an introduction to 'C' language programming. Specific topics include: program structure, strings, variables and pointers, control flow, functions, arrays, input/output and debugging. The cost of the text and materials is not included.
Mon. and Wed. or Tues. and Thurs. 6:30 to 9:30 p.m. Casa Loma Campus
60 hours Fee $250.00
September 26 or 27 to December 5 or 1
• **PRGM 933**
For more information about this course, please call 967-1212, ext. 2481.

'C' Programming Language (Part II)

Prerequisite: PRGM 933 — 'C' Programming Language (Part I).
A hands-on course to improve the programming skills of PRGM 933 graduates in a UNIX-like environment. Further discussion of the theory in the following topics: structures, function pointers, buffered and unbuffered I/O, file handling and applications.
Mon. 7 to 10 p.m. Casa Loma Campus
30 hours Fee: $156.00
September 26 to December 5 • **PRGM 943**
For more information about this course, please call 967-1212, ext. 2481.

COBOL I

Prerequisite: EDP 100X or equivalent.
The mechanics of the COBOL language are introduced and students gain practical experience writing programs to solve business problems. The documentation of programs is emphasized.
Text: Cobol for the '80s, IBM vs JCL & Utilities, and CMS Primer – Release 5.
Tues. and Thurs. 6 to 8:30 p.m.
St. James Campus
50 hours Fee: $75.00
Materials: $10.00 and purchase of text.
September 20 to November 24 • **EDP 101X**
For more information about this course, please call 967-1212, ext. 3290.

COBOL II

Prerequisite: A grade of "C" in COBOL I or the equivalent.
Programming assignments cover accounts receivable and payroll applications and students are taught techniques for sorting, summarizing and updating a master file.
Text: Cobol for the '80s, IBM vs JCL & Utilities, and CMS Primer – Release 5.
Tues. and Thurs. 6 to 8:30 p.m.
St. James Campus
50 hours Fee: $75.00
Materials: $10.00 and purchase of texts.
September 20 to November 24 • **EDP 200X**
For more information about this course, please call 967-1212, ext. 3292.

Application Software

Introduction to dBASE III

dBASE III and dBASE III Plus are the latest versions of dBASE. They are the most popular data base management software packages around for microcomputers. Learn the steps for creating, editing and displaying data records. You are introduced to sorting, indexing and preparing reports and elementary dBase programming.
Fri. 6 to 9 p.m. St. James Campus
18 hours Fee: $113.00 Material Fee: $7.00
September 16 to October 28
November 4 to December 9
Harbourfront Microcomputer Centre
235 Queen's Quay West
(Register at St. James Campus)
Mon. 6:15 to 9:15 p.m.
September 19 to October 31
November 7 to December 12 • **PRGM 997**
For more information about this course, please call 967-1212, ext. 3289/3290.

Intermediate dBASE III

NEW

Prerequisite: Introduction to dBASE III.
To further expand the students basic knowledge of the power and flexibility of dBASE III Plus. Topics covered included: changing dBase systems default setting; setting up dBase working environment; working with multiple files simultaneously; exchanging data files with other programs and other advanced commands.
Tues. 6:15 to 9:15 p.m.
Harbourfront Microcomputer Centre
235 Queen's Quay West
(Register at St. James Campus)
21 hours Fee: $135.00 Material Fee: $5.00
September 20 to November 1 • **PRGM 989**

Advanced dBASE III

NEW

Prerequisite: Intermediate dBASE III.
This course is designed for those who want to use dBASE III and dBASE III Plus beyond just the interactive mode and become involved in its built-in programming language. The student starts by creating small business-related programs and learns how to build these step-by-step into powerful, integrated programs. These integrated programs relate to most business systems and provide a practical tool for the work place.
Wed. 6 to 9 p.m. St. James Campus
21 hours Fee: $135.00 Material Fee: $5.00
September 14 to October 26
November 2 to December 14 • **PRGM 998**

Introduction to Lotus 1-2-3

Prerequisite: Basic knowledge of microcomputers.
A clear, concise and practical approach to the popular electronic spreadsheet which combines power and flexibility with ease of use. Both the novice and those with some knowledge of 1-2-3 will benefit from the course.
Tues. or Thurs. 6 to 9 p.m.
St. James Campus
18 hours Fee: $211.00 Material Fee: $7.00
September 13 or 15 to October 18 or 20
November 1 or 3 to December 6 or 8
Harbourfront Microcomputer Centre
235 Queen's Quay West
(Register at St. James Campus)
Wed. 6:15 to 9:15 p.m.
September 14 to October 19
November 2 to December 7 • **BUS 813**
For more information about this course, please call 967-1212, ext. 3292.

Advanced Lotus 1-2-3

Prerequisite: BUS 813 — Introduction to Lotus 1-2-3 plus practical business experience with Lotus 1-2-3.
Explore the potential of 1-2-3 and move on to more advanced applications, especially the use of macros. Learn how to design the worksheet and create macros for a variety of business applications as well as data sharing between 1-2-3, dBASE II and Wordstar.
Mon. 6 to 9 p.m. St. James Campus
18 hours Fee: $203.00 Material Fee: $10.00
September 12 to October 24 • **BUS 815**
For more information about this course, please call 967-1212, ext. 3292.

Lotus 1-2-3 (General Applications)

An examination of the attributes of Lotus 1-2-3 Release 2 program and an introduction to 1-2-3 templates and other aspects of the program. Other subjects include: border cells, pointer, mode indicators, error corrections, function keys, commands, formats and functions, file handling, print reports, business graphs, macros and the creation and manipulation of the database.
No previous experience necessary.
Mon. 7 to 9:30 p.m. Kensington Campus
25 hours Fee: $158.00
September 26 to December 5 • **PRGM 907**
For more information about this course, please call 967-1212, ext. 2481.

WordPerfect 4.2

Prerequisite: Basic typewriter skills are recommended.
This course is designed to introduce the student to WordPerfect 4.2, a full function word processing software package. The course covers the following topics; basic typing features of WordPerfect, creating and saving documents, editing text, formatting options, page numbering, printing function, moving and copying text, search and replace, Help key, Speller, Thesaurus, text columns, math, macros, merge capabilities and the sort feature.
Kensington Campus
30 hours Fee: $203.00 .
Mon. 9 a.m. to noon
September 26 to December 5
Tues. and Thurs. 5 to 7 p.m.
September 27 to November 15
Thurs. 7 to 10 p.m.
September 29 to December 1
Saturday 9 a.m. to noon or 1 to 4 p.m.
October 1 to December 3 • **PRGM 909**
For more information about this course, please call 967-1212, ext. 2481.

MultiMate

Prerequisite: Basic typewriter skills are recommended.
A comprehensive examination of the features of MultiMate. Topics include: the main menu, help menu, creating a new document, editing an old document, cursor movement, tabs, margins, line spacing, inserting, deleting, moving and copying texts, enhancing documents, search and replace, document handling utilities, checking spelling in documents, libraries, merging documents, key procedures and system utilities.
Tues. 7 to 10 p.m. Kensington Campus
30 hours Fee: $189.00
September 27 to November 29 • **PRGM 906**
For more information about this course, please call 967-1212, ext. 2481.

Computer Courses at Dixon Hall

Dixon Hall, in cooperation with George Brown College and Canada Employment and Immigration, is offering free part-time microcomputer courses.

Computers in the Community is designed to meet the special needs of adults who have been unemployed 6 months or more.

Fourteen-week part-time courses and one-day workshops will be offered beginning September 12,1988.
Courses are offered in the afternoons, evenings and Saturdays in these areas:

Keyboarding
Word Processing
- Wordstar
- Word Perfect

Computerized Accounting
Computers in Business
Lotus 1-2-3
dBase III+
Understanding DOS
Resume writing

DIXON HALL

For more information on courses and how to register, call Dixon Hall, 58 Sumach Street, after noon, at **863-0498.**

Introduction to ACCPAC General Ledger

Prerequisite: Knowledge of basic accounting and basic computer experience.
The ACCPAC General Ledger & Financial Reporting System can be operated by persons with varying degrees of accounting knowledge. Students with an accounting background will, however, be in an advantageous position in appreciating the implications of the various teaching modules. This course aims at teaching the student how to create and maintain a general ledger, enter accounting transactions and produce all critical financial reports, including company profile, chart of accounts, general ledger listing, batch status report, transaction journal, trial balance worksheet, detailed general ledger account listing, and custom financial reports and specification files.
Sat. 1 to 4 p.m. St. James Campus
21 hours Fee: $250.00
September 10 to October 29
November 5 to December 17
Harbourfront Microcomputer Centre
235 Queen's Quay West
(Register at St. James Campus)
Thurs. 6:15 to 9:15 p.m.
September 8 to October 20
November 3 to December 15 • ACC **800**
For more information, please call 967-1212, ext 3292.

ENABLE 2.0

Prerequisite: General understanding of microcomputers and keyboards.
ENABLE is a complete productivity tool for users of IBM PC's or compatibles. It provides all five major applications: word processing, spread-sheets, graphics, database management and telecommunications. It also interacts with other packages such as Lotus and dBase III. This course will cover the following topics: installing ENABLE, fundamental word processing techniques, fundamental database management techniques, fundamental spreadsheet techniques, graphs, creating integrated reports and an overview of ENABLE's telecommunications applications.
Mon. and Wed. 5 to 7 p.m.
Kensington Campus
30 hours Fee: $203.00
September 26 to November 16 • **PRGM 936**
For more information about this course, please call 967-1212, ext 2481.

Framework II

Prerequisite: General understanding of microcomputers and keyboards.
This course will introduce the student to Framework II and the following: interaction with DOS, major elements of Framework II, graphing, creating a document, modifying a document, data processing, gathering/analyzing information, introduction to FRED programming, program designing, program writing and refinement.
Wed. 7 to 10 p.m. Kensington Campus
30 hours Fee: $195.00
September 28 to November 30 • **PRGM 937**
For more information about this course, please call 967-1212, ext 2481.

How to reach us:
947-9914

Call this number for general information about continuing education courses, unless otherwise indicated in this directory.

Certificate in Communications

Our Communications Certificate will help you win that paper war at the office with courses in written comunications that will make your letters, memos, and reports clearer, more concise – and hard to ignore. We also have courses that will put more punch in your oral presentations and public speaking, teach you to build your vocabulary or improve your reading speed and comprehension. Our approach is all business and our instructors are professional communicators. Students who have satisfactorily completed each course will receive a certificate of competence and, on completion of six courses, will receive a certificate in Communications. Courses selected from the Creative Writing Certificate program may be used as credits for this certificate. For more information, please phone 967-1212, ext. 3377.

Speaking with Confidence

When you are called on "to say a few words" to a social or a business group, do swarms of butterflies fill the pit of your stomach? And is that fluttering panic you feel holding you back in your private and business life?
Speaking with Confidence teaches you to make those swarms of butterflies fly in formation; to turn panic into poise.
You will learn to deliver reports and to give presentations with visual aids; to introduce guest speakers; to give a presentation and an acceptance speech.
Instructor: Hugh Thomson, writer, editor, public speaker.
Mon. 7 to 10 p.m. St. James Campus
36 hours Fee: $54.00
September 19 to December 12 • **ELS 809**

Bare Essentials

This course offers the "essentials" of writing skills for the student who is not quite ready for business, technical or creative writing courses. Basic rules of grammar, extensive practice in paragraph writing, punctuation, spelling and some speaking skills are included.
Mon. or Tues. 6 to 9 p.m. St. James Campus
42 hours Fee: $63.00
September 12 or 13 to December 19 or 13 • **ENG 933**

Wordplay: Enlarging Your Vocabulary

Are you often at a loss for words? This course teaches you how to improve your vocabulary and build your self-confidence in language use. Wordplay's workshop environment is supportive and non-intimidating. Words are explored through contemporary methods such as role-playing, visualization, and guided conversational exercises. Audio/visual aids are employed. Students work from a dictionary, Roget's Thesaurus and a text designed to increase vocabulary.
Instructor: Mike Kilpatrick
Thurs. 6:30 to 9:30 p.m. St. James Campus
36 hours Fee: $54.00
September 22 to December 8 • **ELS 823**

The Reading Workshop NEW

The Reading Workshop is a course for students who want to explore the exciting world of reading. It's a course for those who want to improve their reading skills. It's also for those who already read well but would like to learn to enjoy the activity more. It's practical. Speed and comprehension are taught through games, exercises and drills, some involving computer play. Students learn "gears" – techniques for skimming, skim reading, rapid reading or skimming. It's fun. Reading is experienced as an enjoyable activity. Reading matter includes magazines, newspapers, technical, business and industrial reports, essays, fiction and poetry.
Instructor: Mike Kilpatrick
Wed. 6:30 to 9:30 p.m. St. James Campus
36 hours Fee: $54.00
September 14 to November 30 • **ENG 931**

Reading English: For Fluent Readers of Other Languages NEW

Designed for students who wish to read all kinds of materials, this course guides students in improving reading speed and comprehension. Students follow individualized programmes of gradually increased difficulty. Reading materials are extremely varied and include computerized texts. Students are exposed to reference works. At the same time, they are encouraged to read freely, without mentally translating and constantly resorting to a dictionary.
Instructor: Justina Abenina
Wed. 6 to 9 p.m. St. James Campus
42 hours Fee: $52.50
September 14 to December 14 • **ENG 935**

Communications I

Prerequisite: Grade 12 or equivalent.
This course covers study skills, essential grammar and punctuation skills, spelling and vocabulary building, organizing ideas effectively in paragraph and short essay forms, proofreading techniques and critical thinking.
Instructor: Julie Joyce
Tues. 6 to 9 p.m. St. James Campus
42 hours Fee: $63.00
September 13 to December 13 • **COMM 901**

Communications II — Business & Technical Writing

This course presents students with the gamut of communication experiences they encounter in the business world. A significant portion of this course is devoted to oral presentation skills. Students do a minimum of two presentations. The course also offers students an opportunity to learn the formats and conventions of business letter, memo and report writing.
Instructor: Julie Joyce
Mon. 6 to 9 p.m. St. James Campus
42 hours Fee: $63.00
September 12 to December 19 • **COMM 902**

Written Business Communication

Prerequisite: Grade 12 or equivalent.
This course provides the student with a solid foundation in written business communication. Instruction is given on appropriate format and technique in writing memoranda, business letters, policy and procedure manuals, and informal and formal reports, including the financial report. Emphasis will be placed on planning, organizing and writing the message effectively.
Instructor: John Hamilton
Tues. 6 to 9 p.m. St. James Campus
42 hours Fee: $63.00
September 13 to December 13 • **ELS 903**

ELS 903 and ELS 909, if successfully completed, permit CGA candidates to meet the CGA Business Communications requirement. A diagnostic test is written the first evening of ELS 903. Students lacking the necessary language skills for formal report writing are advised to first complete ENG 933 — Bare Essentials.

Oral Business Communications

Oral Business Communications helps you to shape your ideas and communicate them clearly and persuasively. It adds strength, depth and colour to your speech. Your skill in talking determines whether your ideas produce results, your business flourishes and your career advances.
This course helps you to succeed in all speaking situations: in meetings, in interviews, on the phone, in small and in large groups.
Instructor: Hugh Thomson, writer, editor, public speaker.
Tues. 6:30 to 9:30 p.m. St. James Campus
42 hours Fee: $63.00
September 13 to December 13 • **ELS 909**

Writing that Works: Strengthen Your Skills for Work-Related Writing

Do you wish you could rewrite your memos and letters? Write them better? Write them with more impact? In this "before and after" workshop, you do guided rewriting exercises to convert ordinary memos into extraordinary communications. You also practise skills to strengthen your style, deliver clear messages and get the results you want from your readers.
Instructor: John Hamilton
Wed. 6:30 to 9:30 p.m. St. James Campus
36 hours Fee: $54.00
September 28 to December 14 • **ENG 912**

Other Communications Courses

Assertiveness Training

For course description, see page 3.

Gain Confidence, Overcome Shyness

For course description, see page 3.

Certificate in Creative Writing

Develop your romance (or mystery or feature story or poem). You can learn romance writing from a Harlequin editor, poetry from a prize-winning Canadian poet, and journalism from a former Globe and Mail newshound. If that's not enough, try writing children's literature or a screenplay — the choice is yours. You can develop your own style and learn some of the tips of the trade at the same time. After the satisfactory completion of each course, students will receive a certificate of competence and, on completion of six courses, will receive a certificate in Creative Writing. These courses may be used to fulfill elective requirements in the General Arts and Science Diploma Program. For more information, please phone 967-1212, ext. 3377.

Writing for Clarity and Impact

This is a course designed for the student who wishes to write clearly and precisely in any situation — business, social, academic, political and journalistic. This is a nuts and bolts course in which language usage and style are examined critically. Students are required to write and review their work.
Instructor: Arnie Achtman
Tues. or Thurs. 6 to 9 p.m. St. James Campus
36 hours Fee: $54.00
September 20 or 22 to December 6 or 8 • **ELS 901**

Journalism: Springboard to a Career

News is anything that interests people. Nevertheless, it can be recognized and written only by those with "a nose for news" and a knowledge of how to write it for each of the media — the press, TV and radio.
This course develops that news-sense and those writing styles for general reporting and for the specialized covering of sports, entertainment, business, politics, science, education, religion, etc. If you're not interested in a journalistic career, this course will sharpen your observation and enjoyment of the daily news, in print and on the air, because you'll be an insider, someone "in-the-know."
The instructor is Hugh Thomson, a former CBC radio interviewer, Toronto Star columnist and Globe and Mail editor.
Wed. 7 to 10 p.m. St. James Campus
36 hours Fee: $54.00
September 21 to December 7 • **ENG 934**

Writing for Fun and Profit

Today, with magazines laying off staff writers to cut costs, editors are seeking, as never before, contributions from freelance writers. So why not try writing feature articles or interview stories? Why not submit fillers, lyric poetry, light verse or travel articles? Or stories for children as well as stories for adults? Or humorous features or opinion pieces on lively current issues?
This course is for those eager to give freelance magazine writing a solid, educated try under the guidance of a professional writer and former editor of the Globe and Mail.
Instructor: Hugh Thomson
Thurs. 7 to 10 p.m. St. James Campus
36 hours Fee: $54.00
September 22 to December 8
Special section for Seniors: Tues. 1 to 4 p.m.
September 20 to December 6
Casa Loma Campus • **ENG 919**

Creating Short Stories

The short story is enjoying a revival. This class/workshop explores the fundamentals of short story technique and structure, plotting, dialogue, characterization, tone and setting and offers an introduction to experimental writing. Guided by published author Nancy Kilpatrick, students create a short story in class as well as present works-in-progress for support and constructive feedback.
Thurs. 6:30 to 9:30 p.m. St. James Campus
36 hours Fee: $54.00
September 22 to December 8 • **ENG 801**

Short Story Workshop — Advanced

Prerequisite: Solid understanding of short story writing techniques and/or Creating Short Stories – ENG 801 or equivalent.
This intensive workshop is devoted to in-depth analysis of short stories written by participants. Each student provides the class with photocopies of his or her short fiction to be critiqued between sessions and then discussed in class. Guided by instructor Nancy Kilpatrick, focus is on line-by-line and overall feedback — both technique and gut reaction. As well, marketing suggestions and strategies are discussed. The number of participants is limited to ensure maximum concentration on each story.
Wed. 6:30 to 9:30 p.m. St. James Campus
36 hours Fee: $54.00
September 21 to December 7 • **ENG 918**

Writing Mysteries

Are you dying to write a mystery? This course explores the theory and structure of mystery writing and develops stylistic techniques in a workshop situation. Each student writes either a short story or two chapters and an outline of a novel during the course and receives editing advice from the instructor (a published mystery writer) and from other students.
Instructor: Peter Robinson.
Thurs. 6:30 to 9:30 p.m. St. James Campus
36 hours Fee: $54.00
September 22 to December 8 • **ELS 827**

Poetry Workshop

This course provides an ongoing workshop approach to creative writing, emphasizing a collective critique by peers of submitted material. The instructor provides direction and focus during the session, as well as an overall strategy of development. The course facilitates in-class improvement of writing skills.
Students in this course bring established habits or patterns of writing and a commitment to developing their own material. The emphasis is on poetry, with particular attention to modern forms.
Instructor: Christopher Dewdney.
Mon. 6:30 to 9:30 p.m. St. James Campus
36 hours Fee: $54.00
September 19 to December 12 • **ELS 902**

Writing for the Theatre

A well-known Toronto playwright provides an opportunity for students to learn the basics of writing performable plays. In the process of reading and analyzing the text of a contemporary full-length play, students will learn and practise how to make characters come alive, write believable dialogue, and structure their own scenes for maximum dramatic impact. The course includes the viewing and analysis of a live theatrical production. Instructor: Nika Rylski
Tues. 6:30 to 9:30 p.m. St. James Campus
36 hours Fee: $54.00
September 20 to December 6 • **ELS 822**

Write Your Own Screenplay

You have a great idea for a screenplay, but you don't know where to start?
There are definite structural stages a writer works through in fleshing out and dramatizing an idea — and this course leads the student step-by-step through those stages. Each student writes an outline of a full-length screenplay and the first 30 pages of a script based on that outline. In addition, marketing information and advice will be provided by the instructor, Nika Rylski, a scriptwriter with over 30 TV, film and radio credits to her name.
Thurs. 6:30 to 9:30 p.m. St. James Campus
36 hours Fee: $54.00
September 15 to December 1 • **ENG 913**

Screenwriters' Workshop — Advanced NEW

Prerequisite: ENG 913 or equivalent.
You've written the first 20 to 30 pages of your screenplay and need professional guidance (someone to hold your hand!) as you tackle the next 60 to 90 pages. Screenwriters' Workshop guides participants in the preparing and completing of Acts 2 and 3 of a full-length screenplay. In addition to script editing advice, the instructor provides information on a variety of screenwriting techniques and topics such as Adaptation From Other Media, The Fine Art of Pitching and Writing Scripts for other Media and Genres.
Instructor: Nika Rylski
Wed. 6:30 to 9:30 p.m. St. James Campus
36 hours Fee: $54.00
September 21 to December 7 • **ENG 922**

Women Writing NEW

Participants in this course read and discuss recent writing by women and at the same time work on their own creative writing projects. The course includes poetry, fiction, nonfiction and their combinations. Students read the work of women writers who are exploring new ways to approach content and/or form. The focus is on writers who are broaching themes like sexuality from a female viewpoint as well as on traditional themes infused with a female sensibility.
Instructor: Libby Sheier
Mon. 6:30 to 9:30 p.m. St. James Campus
36 hours Fee: $45.00
September 19 to December 12 • **ENG 923**

The Complete Travel Writer NEW

In this course potential travel writers learn to construct travel stories in both newspaper and magazine styles. They learn to illustrate their stories using a 35 mm camera which they must provide. Story proposals and approaches to editors, developing contacts, marketing finished stories, the ethics and responsibilities of travel writers, and business aspects of travel writing are all covered. This course includes one Saturday field trip. Instructor: Bruce Kemp
Tues. 6:30 to 9:30 p.m. St. James Campus
36 hours Fee: $54.00
September 20 to December 6 • **ENG 929**

Writing for Children

Children's books are *magical*.
Increasing numbers of people want to be part of the surge in children's literature in this country, to create that special book which young readers will always remember. In this course, presented by one of the staff of the Children's Book Centre, students meet established writers, illustrators, editors and publishers. They learn about the children's literary marketplace and publishing industry, and receive practical suggestions about how to approach a publisher. In addition, they have an opportunity to explore their motivation in writing for children and, through extensive workshop experience, to hone their writing skills. At the first class meeting, materials will be available for which the fee is $10.00.
Students register at St. James Campus. Classes meet at the Children's Book Centre, 229 College Street. Instructor: Peter Carver
Tues. 6:30 to 9:30 p.m.
Children's Book Centre, 229 College Street
30 hours Fee: $45.00
September 20 to November 22 • **ENG 804**

Writing for Children Workshop (Advanced)

This workshop is designed for those who have successfully completed the initial Writing for Children course – and who now find themselves hopelessly addicted to the writing habit. Students taking the course are those who realize that writing for children is as demanding and risky as any other creative activity. They develop major writing projects, with the aim of bringing them nearer to a publishable state. Opportunities are provided for meeting established writers, editors and publishers. Students also learn more about the practical implications of embarking on a career as a writer.
Instructor: Peter Carver
Thurs. 6:30 to 9:30 p.m.
Students register at St. James Campus.
Classes meet at the Children's Book Centre, 229 College Street.
30 hours Fee: $45.00
September 22 to November 24 • **ENG 916**

Introduction to Book Publishing

What do publishers want? How can an author dramatically improve his/her chances of getting published? Book Publishing answers these and many other questions frequently asked about publishing. Topics include: the writer's market; author grants and awards; vanity presses; desktop publishing; self-publishing; typesetters, printers, and book manufacturers; the small press; copyright; contract negotiation; advances and royalties; subsidiary rights (films, book clubs, foreign editions); editing and editors; book design and illustration; production; marketing; advertising and publicity; the bestseller.
Instructor: Glen Ellis has edited numerous bestselling and critically acclaimed books.
Tues. 6:30 to 9:30 p.m. St. James Campus
36 hours Fee: $54.00
September 20 to December 6 • **ELS 910**

Saturday Writing Seminars

Travel Writing

Everybody is travelling far and wide these days; travel publications are flourishing and their editors are eager to receive freelance stories. Most they get in the mail are, however, rejected because the style and the content are useless.
The instructor, Hugh Thomson, a veteran travel writer, shows you how to write in a fresh, imaginative style (free of "travelese") and to slant each piece to suit the travel editor.
Sat. 10 a.m. to 4 p.m. St. James Campus
6 hours Fee: $37.50
September 17 • **ELS 825**

Writing Technical and Trade Articles

NEW

Technical and Trade Articles range from simple stories of successful business practice to accurate but readable features on medical research, engineering, electronics or chemistry. No specialist degree or background is demanded. You must, however, love to write, especially for a select group of readers, and for the general public. Trade and Technical writing is in enormous demand in this day of science and technology.
Sat. 10 a.m. to 4 p.m. St. James Campus
6 hours Fee: $37.50
October 1, 1988 • **ENG 807**

The "New" Biography

NEW

Today, books of the most intimate biography and tell-all magazine profiles on persons in the public eye keep tumbling from the presses to meet the rage for "psycho-biography". To write and sell such candid life stories you must take over the Sherlock Holmes magnifying glass and the Sigmund Freud couch; lay bare the most personal facts and motives that shaped your subject's life.
Free-swinging discussions will follow talks on the leading psycho-biographer, Leon Edel, and on the no-holds-barred life-stories of Leonard Bernstein and Frank Sinatra. Dainty, tiptoe-through-the-tulips biography is dead, so go with the flow!
Saturday 10 a.m. to 4 p.m. St. James Campus
6 hours Fee: $37.50
October 15 • **ENG 808**

Be a Freelance Critic

Toronto is one of North America's leading centres for the performing and visual arts, and magazines and newspapers welcome qualified freelance reviewers to help cover the bustling arts scene. For such assignments you are paid to sit in the best seats and review the art form you know and love best.
For 20 years, the instructor, Hugh Thomson, was music-drama-art critic with The Toronto Star and, subsequently, was Entertainment Editor of The Globe and Mail. The seminar could launch you on a career as critic, part-time or full-time.
Sat. 10 a.m. to 4 p.m. St. James Campus
6 hours Fee: $37.50
October 29 • **ELS 821**

Facts Cast in Fiction Form

Today, the most marketable non-fiction is the unforgettable experience in your life, or an experience that taught you the lesson of your life. In the writing business, these are called Drama-in-Real-Life and Art-of-Living Feature, respectively. If you have such dramatic experiences in your life and want to write and sell them, you must cast them in the mold of the short-short (fiction) story. This seminar shows you how to compose, set up and market such sure-fire pieces.
Instructor: Hugh Thomson
Sat. 10 a.m. to 4 p.m. St. James Campus
6 hours Fee: $37.50
November 12 • **ELS 826**

Make The News Media Work for You

Editors of newspapers, TV, radio, general magazines, trade and profesional journals toss out most of the publicity releases they receive from the public relations writers with businesses, industries, professions, governments and associations. Yes, even those with viable news buried in huckster-style writing. For publicity writing must be news writing, yet seldom is. A veteran promotion director, news writer and editor with the Toronto Star and Globe and Mail shows in this course those in public relations and those eager to break into it, how to make the print and broadcast media their oyster.
Instructor: Hugh Thomson.
Sat. 10 a.m. to 4 p.m. St. James Campus
6 hours Fee: $37.50
October 22 • **ENG 806**

Better Business Writing

Almost everyone is expected to write on the job — memos, letters, reports, proposals, etc. This seminar helps participants work through basic techniques to strengthen all types of work-related writing.
Note: Please bring five typical samples of your writing for use in before and after exercises.
Instructor: Eugene Stickland.
Sat. 10 a.m. to 4 p.m. St. James Campus
6 hours Fee: $37.50
November 19 • **ENG 803**

Romance Writers' Workshop

Prerequisite: Ability to write creatively.
Every month, more than 140 romance novels hit the stands. Publishers are eager to find reliable new talent to meet their publishing requirements. Despite the opportunities for romance writers, rejects are high because aspiring writers are unaware of what the publishers want. Let Nancy Roher, editor of Harlequin books, help you to break into the romance fiction market. She helps you to understand the market, and identifies your style and gets you started on your next romance.
Mon. 6:30 to 9:30 p.m. St. James Campus
24 hours Fee: $36.00
September 19 to November 14 • **ELS 812**

Advanced Romance Writing

Prerequisite: Romance Writers Workshop
This course is designed for the serious romance writer who has already written introductory chapters of a romance novel. The course guides the student to successful completion of a novel. Advanced Romance Writing gives intensive editorial assistance for in-process work. The class is restricted to 12 to 15 students to ensure maximum contact between instructor/editor and student. Individuals learn through interaction with other writers to overcome problems that all writers share.
Instructor: Claire Gerus
Tues. 6:30 to 9:30 p.m. St. James Campus
30 hours Fee: $45.00
September 20 to November 22 • **ELS 818**

Certificate Program in Teaching and Training Adults

This program is designed for teachers or those intending to teach on a full-time or part-time basis in community colleges, business colleges or institutes, and trainers in business, industry, government, non-profit organizations and health care facilities. It will offer appropriate theoretical instruction, but the primary program emphasis will be on practical application.
The program consists of two core courses covering essentials that are relevant to all participants and short intensive elective workshops geared towards the particular needs of participants, eg., health care professionals, business trainers, college instructors. As well, some electives offer a more in-depth examination of core units with topics selected to satisfy participant's own interest, eg., Independent Self-Directed Learning, Training Volunteers and Organizing Workshops and Seminars. Students must complete a total of 90 hours in order to graduate.
The program is taught by a team of skilled practitioners from colleges, business and industry. For general information call 967-1212, ext. 3239 or 3241.

Compulsory:
- Introduction to Teaching and Training Adults: Planning and Preparation Skills
- Instructional Techniques

Electives:
- Learning Styles and Teaching Strategies
- Blocks to the Learning Process
- Advanced Audio-Visual Aids
- Interpersonal Communication
- "Exceptional" Students
- Learning and Studying Skills
- Independent Self-Directed Learning
- Training in Business and Industry
- Action Training Techniques
- Advanced Microteaching
- Clinical Supervision for Health Science Instructors
- Multiculturalism
- Organizing Workshops and Seminars
- Training Volunteers

Compulsory

Introduction to Teaching and Training Adults

An intensive introductory course focusing on planning and preparation skills. This interactive course is conducted by a team of teaching and training professionals and includes an opportunity for all students to participate in a practice teaching session. Topics covered include: characteristics of adult learners, characteristics of good instructors, course planning (assessing needs, sequence of learning, evaluation), lesson preparation, objective setting and evaluation of learning.
Wed. 7 to 9:30 p.m. St. James Campus
37.5 hours Fee: $185.00
September 14 to December 21 • **CES 880**

Instructional Techniques

Prerequisite: Introduction to Teaching and Training Adults.
An overview and comparison of different teaching methods including: lecture format, demonstrations, self-directed independent learning, seminars, projects, field-work/clinical experience and interactive group techniques. Topics covered include: managing the learning experience, motivating students, questioning techniques, positive reinforcement, task analysis, teaching concepts/theory and audio-visual instructional aids. Students plan, prepare and conduct a skill or theory session using other participants as students.
Tues. 7 to 9:30 p.m. St. James Campus
37.5 hours Fee: $185.00
September 13 to December 20 • **CES 877**

Electives

Organizing Workshops & Seminars

NEW

This short intensive course is designed for those in government, industry, business, and non-profit or volunteer organizations who plan and organize workshops or seminars. Participants learn to set objectives, plan sessions, utilize staff and volunteers and set up support functions. The course also examines marketing, cost effectiveness, and troubleshooting.
Wed. 7 to 9 p.m. St. James Campus
6 hours Fee: $48.00
October 12 to October 26 • **CE 802**

Training in Business & Industry

NEW

A short intensive introduction to training techniques used in business and industry. The course examines a variety of methods used by companies to train and develop their staff. Topics covered include: conducting a needs analysis, assessing resources, managing the delivery, on-site and field training, and follow-up assessment.
Thurs. 7 to 9 p.m. St. James Campus
6 hours Fee: $48.00
September 22 to October 6 • **CE 805**

Client Services

George Brown College offers a variety of programs and services which are available to the Business and Industry Community. We can assist your company in implementing training: on the job, in your plant, at our college or any other suitable location. Existing programs may be utilized, altered to meet your needs or, if required, a new training program will be designed to meet your specifications.
For further information, please call the Client Services Unit at 967-1212, ext. 3219.

Training to Improve Communications in Multicultural Workplaces

George Brown College can offer courses that will improve communications and job effectiveness in multicultural workplaces.

Management Personnel

This 16-hour course is designed to increase the awareness and skills needed by management to effectively communicate with and supervise a multicultural work force. The course includes the impact of culture on communication and behaviour and how to prevent and deal with intercultural miscommunication at the workplace. It also looks at how to convey information and instructions to second-language speakers. Race relations issues and strategies for dealing with these issues are dealt with.

Staff

A course of appropriate duration will be set up at any workplace for staff whose first language is not English. The course is aimed at improving participants' communication with supervisors, co-workers and clients. It may include how to give instructions, how to ask for an explanation, how to relay problems to supervisors, etc. The policies and practices of the organization will also be introduced and, in order to improve communications between the different cultural groups, intercultural communication will be covered.

For more information about these courses, please call 967-1212, ext. 3219.

Certificate in Liberal Studies

Grasp the long arm of the law, the inner-workings of the human mind, or the riddles and answers of philosophy with our Certificate in Liberal Studies. Choose from courses in psychology, sociology, philosophy, law, ethics and women's studies. Discuss with academics and lawyers the perplexing issues that face us as individuals and as a society. After the satisfactory completion of each course, students will receive a certificate of competence, and on completion of six courses will receive a certificate in Liberal Studies. Courses chosen among those offered in Communications, Creative Writing or French may be substituted for some of the Liberal Studies courses. These courses may be used to fulfill elective requirements in the General Arts and Science Diploma Program. For more information, please phone 967-1212, ext. 3377.

Psychology

Psychology — An Introduction

This course looks at the "why" of human behaviour. It offers the student an introduction to personality theories and therapies. Human experience in terms of sensation, perception and states of consciousness is covered. Other dimensions of behaviour included are motivation and emotion, learning and thinking, sex roles, and attitudes.
Instructor: Neil McGrenaghan.
Thurs. 6 to 9 p.m. St. James Campus
42 hours Fee: $63.00
September 15 to December 15 • **PSY 907**

Interpersonal Relations

NEW

Prerequisite: PSY 907 or equivalent.
The focus of this course is on increased self-knowledge and understanding of selected practical issues in interpersonal psychology. Topics to be covered include assertiveness, aloneness/loneliness, sexuality, anxiety, death and dying, pairing, lifestyle, and parenting.
Instructor: Tom Malcomson
Thurs. 6 to 9 p.m. St. James Campus
42 hours Fee: $63.00
September 15 to December 15 • **PSY 162X**

Psychology in the Workplace

NEW

In this course, basic principles of psychology are applied to the work setting. Topics discussed include personality and work, the motivation to work, working in groups, social skills and work, working in organizations, work in different cultures and job satisfaction.
Instructor: Ralston Walters
Thurs. 6 to 9 p.m. St. James Campus
42 hours Fee: $63.00
September 15 to December 15 • **PSY 908**

Human Resources Management

NEW

Prerequisite: PSY 908 or equivalent.
The course focuses on the managerial functions of planning, organizing, motivating, and evaluation of human resources in various organizations. Topics include corporate culture, leadership, performance, career development, group dynamics, and planning and implementing change.
Instructor: Ralston Walters
Tues. 6 to 9 p.m. St. James Campus
42 hours Fee: $63.00
September 13 to December 13 • **PSY 211X**

Philosophy

Introductory Philosophy

This course serves as an introduction to philosophy. Its main focus is on theories of human nature. The ideas of Plato, Sartre, Marx, Locke, Mill, Dewey, Freud, and others are analyzed, discussed, and evaluated. Also covered in this course are social philosophy, ethics, aesthetics, epistemology, and the philosophy of religion.
Instructor: Gerald Filson
Thurs. 6:30 to 9:30 p.m. St. James Campus
42 hours Fee: $63.00
September 15 to December 15
Special Section for Seniors:
Mon. 2 to 5 p.m. Casa Loma Campus
September 19 to November 28 • **ELS 922**

Ethics and the Modern Mind

An introduction to moral philosophy, this course examines how philosophy helps us understand and deal with disagreement and conflict in moral and social issues. Contemporary moral positions will be outlined and discussed. Such issues as medical ethics, business ethics, disputes between environmentalists and industry, genetic engineering, the morality of different life styles, and relevant questions about human nature will be considered according to the interests of course participants.
Instructor: Gerald Filson
Tues. 6:30 to 9:30 p.m. St. James Campus
42 hours Fee: $63.00
September 20 to December 20 • **ELS 911**

History

Native Peoples and Canadian Society

The history of Native peoples in their relations with Europeans has been largely neglected by traditional Canadian history courses. This course offers new insights into that relationship and hence into Canadian history. Through lectures, readings and class discussions, the course focuses on the social, economic and political interactions, both past and present, that have shaped the relationships between native people and the predominant Canadian society.
Instructor: Jean Manore
Mon. and Wed. 6:30 to 9:30 p.m.
St. James Campus
42 hours Fee: $63.00
October 3 to November 21 • **ENG 917**

Law

Law in Society

This course provides the student with a better understanding of how the law works in the context of modern society, reviews societal structures, groups and institutions that shape modern life, and examines practical issues relating to Canadian law. It includes an overview of the Canadian legal system with some reference to controversial issues; for example, matrimonial law. Given the growing complexity of society, and the resultant need to understand and cope with social change, this course offers students a valuable legal and sociological perspective.
Instructor: Bill Halkiw, Toronto lawyer and sociologist.
Thurs. 6:30 to 9: 30 p.m. St. James Campus
42 hours Fee: $63.00
September 15 to December 15 • **ENG 911**

Of Interest to Women

Personal Money Management for Women

This course is for anyone who wishes to take charge of her own finances but is confused about how to start.
Students are given tools to analyze their present financial situation and a step-by-step approach for building a secure future — even if they have only a little money with which to begin. Students gain hands-on experience with record keeping and planning. Investment tools such as real estate, mutual funds, stocks and bonds, as well as myths about money, are discussed.
Instructor: Deborah Read
Thurs. 6 to 9 p.m. St. James Campus
42 hours Fee: $63.00
September 15 to December 15 • **ENG 914**

Women Writing

For course description see page 15.
• **ENG 923**

A Workshop for Women: Your Business Matters

More and more women are starting up their own businesses with great success. In this course students are guided through the intricacies of starting a small business with emphasis on avoiding the pitfalls. Various aspects of starting up a business on a budget are discussed, including reasons for considering self-employment, types of business structures, sources of funding, approaching a bank, marketing the business, choosing a location, leases and bylaws, finding supplies, hiring personnel, advertising, bookkeeping and income tax. Students receive an invaluable package to assist them in making decisions about their future business.
Instructor: Lynn McGuigan,
Toronto businesswoman
Sat. 10 a.m. to 4 p.m. St. James Campus
6 hours Fee: $25.00
November 5 • **ENG 800**

Mathematics and Science

For more information about Mathematics and Science courses, please call 967-1212, ext. 2481.

Mathematics I

The fundamental concepts and operations of arithmetic and algebra are introduced. Further topics covered include: functions and graphs, trigonometric functions, linear equations, algebraic factoring, fractions, quadratic equations, oblique triangles, systems of linear equations, exponents and radicals.
Tues. 7 to 10 p.m. Casa Loma Campus
90 hours Fee: $135.00
September 27 to April 25 • **MATH 100X**

Mathematics II

Prerequisite: MATH 100X — Mathematics I or equivalent.
Subjects include: binomial theorem, trigonometry, analytic geometry, differential calculus and integral calculus.
Wed. 7 to 10 p.m. Casa Loma Campus
90 hours Fee: $135.00
September 28 to April 26 • **MATH 200X**

Trade Calculations

A study of whole numbers, fractions, decimals and percentages as applied to trade problems. Other subjects include: square root calculations, the Pythagorean theorem, solutions of triangles; calculations involving circles, triangles, compound areas and volumes, manipulation of trade formulae, plane geometry applied to trade problems, mensuration, graphs, charts and trade estimating, ratio, proportion and variation.
Mon. and Thurs. 7 to 10 p.m.
Casa Loma Campus
90 hours Fee: $135.00
September 26 to January 16 • **MATH 605**

Medical Terminology

An introduction to the terminology of the normal structure and functions of the various body systems as well as that of disease states. Students are also given an overview of hospital charting practices including pertinent abbreviations.
Tues. 6 to 9 p.m. Casa Loma Campus
30 hours Fee $45.00
September 27 to November 29 • **ANAT 100X**

Mechanics

Mechanics I

Prerequisite: MATH 100X — Mathematics I or equivalent (prior to or concurrent with Mechanics I).
The basic principles of both statics and dynamics are covered along with the following topics: Statics – co-planar, parallel and concurrent force systems, friction, centroids and centres of gravity and second moments of areas. Dynamics — rectilinear motion, work, energy and power, impulse, momentum and impact.
Wed. 7 to 10 p.m. Casa Loma Campus
60 hours Fee: $90.00
September 28 to February 15 • **MECH 100X**

Mechanics of Materials

Prerequisites: MECH 100X — Mechanics I (prior to MECH 110X); MATH 200X — Mathematics II (prior to or concurrent with MECH 110X).
A discussion of mechanical properties and testing, including: unit stress and strain; beam type members — statically determinate, thin cylinders and joints, resilience, torsion and combined stresses.
Tues. 7 to 10 p.m. Casa Loma Campus
60 hours Fee: $90.00
September 27 to February 14 • **MECH 110X**

Physics

Physics I

Prerequisite: MATH 100X — Mathematics I (prior to or concurrent with Physics I).
This course covers the following topics: S.I. units, accuracy and error, properties of matter, work, energy and power, hydrostatic pressure, hydrostatic forces, Pascal's Law, Archimedes' Principle, earth pressures, viscosity, fluid flow, Bernoulli's Equation, heat and temperature, expansion of solids, liquids and gases, calorimetry, heat transfer, optics, illumination, wave motion, sound and acoustics.
Thurs. 7 to 10 p.m. Casa Loma Campus
60 hours Fee: $90.00
September 29 to February 16 • **PHY 100X**

English as a Second Language

Learning to Read and Write in English

A course in basic English designed for non-native speakers with a limited knowledge of the language. This course prepares students for the basic English courses by teaching them required reading and writing skills, including alphabet work and spelling.
Mon. and Wed. 7 to 9 p.m.
Kensington Campus
50 hours Fee: $75.00
Registration: September 6 to 9, 5 to 6:30 p.m.
Dates: September 19 to December 14 • **LT 921**

Pre-Intermediate English

A course for English as a second language students who have a limited ability in English. The focus is on grammar but includes listening comprehension, pronunciation and possibly some work in our language laboratory. Successful completion of the course allows the student to proceed to more advanced courses.
Mon. and Wed. or Tues. and Thurs. 7 to 9 p.m.
Kensington Campus
50 hours Fee: $89.00
Registration: September 6 to 9, 5 to 6:30 p.m.
Dates: September 19 or 20 to December 14 or 13
• **LT 813**

Intermediate English

For students who already know some English, this course emphasizes grammar but also deals with speaking, writing and listening comprehension. There may be some work in the language laboratory to improve pronunciation. Successful completion of this course qualifies the student for Advanced English.
Mon. and Wed. or Tues. and Thurs. 7 to 9 p.m.
Kensington Campus
50 hours Fee: $89.00
Registration: September 6 to 9, 5 to 6:30 p.m.
Dates: September 19 or 20 to December 14 or 13
• **LT 812**

Advanced English for E.S.L.

For students who have learned to speak and write basic English, this course further develops conversational skills, grammar and reading comprehension.
Mon. and Wed. or Tues. and Thurs. 7 to 9 p.m.
Kensington Campus
50 hours Fee: $89.00
Registration: September 6 to 9, 5 to 6:30 p.m.
Dates: September 19 or 20 to December 14 or 13
• **LT 803**

Conversational English for New Canadians

Designed for high intermediate and advanced students, this course develops fluency in conversational English. Since there is no formal instruction in grammar, students with grammar problems should register in Pre-Intermediate ESL (LT 813) or Intermediate ESL (LT 812).
Some conversation activities may be video-taped to help students assess their performance.
Mon. and Wed. 7 to 9 p.m.
Kensington Campus
40 hours Fee: $78.00
Registration: September 6 to 9, 5 to 6:30 p.m.
Dates: September 19 to November 28 • **LT 818**

Writing for Advanced Students of English as a Second Language

For the high intermediate or advanced student who wants to learn to write more clearly. Instruction focuses on helping students with their individual writing problems.
Mon. 7 to 9:30 p.m. Kensington Campus
25 hours Fee: $53.00
Registration: September 6 to 9, 5 to 6:30 p.m.
Dates: September 19 to November 28 • **LT 819**

Language Test Preparation

This course helps prepare intermediate and advanced ESL students to write tests of language proficiency such as the Michigan Test or the TOEFL (Test of English as a Foreign Language). Topics studied in-depth include: listening, reading comprehension, writing, grammar and vocabulary.
Mon. and Wed. 7 to 9 p.m.
Kensington Campus
50 hours Fee: $75.00
Registration: September 6 to 9, 5 to 6:30 p.m.
Dates: September 19 to December 14 • **LT 916**

English Pronunciation Part I

A short course on developing speech production for intermediate or advanced ESL students. Students use the language laboratory and there will be no formal instruction in grammar.
Tues. 7 to 9 p.m. Kensington Campus
20 hours Fee: $30.00
Registration: September 8 to 10, 5 to 6:30 p.m.
Dates: September 20 to November 22 • **LT 917**

English Pronunciation Part II

Prerequisite: LT 917 or previous study in phonology.
Emphasis is on refining English speech production for students who have completed LT 917 or studied some phonology in another course. The course also offers further study in transcription, sounds, stress and intonation.
Tues. 7 to 9 p.m. Kensington Campus
20 hours Fee: $30.00
Registration: September 6 to 9, 5 to 6:30 p.m.
Dates: September 20 to November 22 • **LT 919**

REGISTRATION CENTRES

For courses offered at Nightingale and Casa Loma Campus register at Casa Loma Admissions Office.

For courses offered at Kensington Campus register at Kensington Admissions Office.

For courses offered at St. James Campus register at St. James Admissions Office.

French

George Brown offers a comprehensive selection of French courses to suit everyone from beginners learning their first few phrases to fluent speakers who want to perfect their professional vocabularies.
The core of George Brown's French offerings is made up of second-language conversation courses. In these courses, students learn to speak and understand French in a relaxed and lively atmosphere. The Centre uses up-to-date teaching methods that emphasize authenticity, students' participation, pronunciation, listening skills and role playing.
For more advanced students or Toronto francophones, the Centre offers a variety of French courses ranging from business French and microcomputer programming to cooking and drawing.
Some courses can be combined by intermediate and advanced students to earn a Certificate of Proficiency in French which is particularly useful to people who use French at work.

Certificate of Proficiency in French

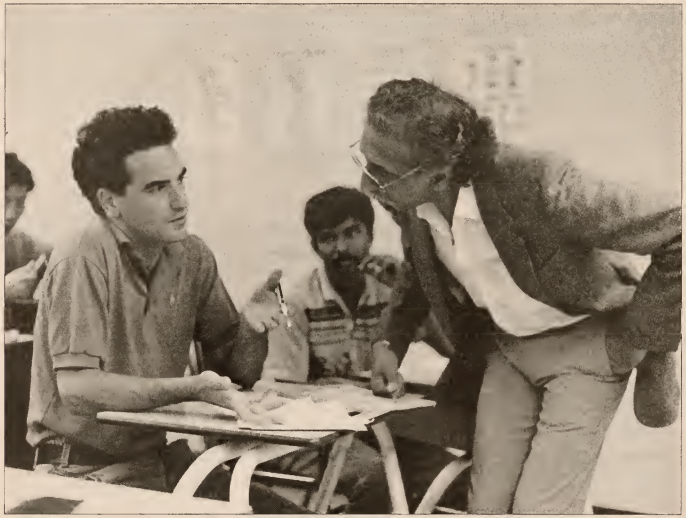
Students must complete Speaking French Level 6 as well as four courses in French in order to graduate. Students exempted from all Speaking French courses must complete five courses in French.

Compulsory Courses:
Speaking French — LT 804, LT 805, LT 828, LT 835 levels 3,4,5 and 6, or LT 932 levels 2A and 3A. Students placed at levels higher than 3 are granted equivalence status for the lower levels.
Grammaire française — LT 927
Culture et société franco-canadiennes — LT 824

Electives
(two or three courses from this section):
Correction phonétique — LT 929
Le français langue des affaires — LT 928
Communication écrite I — LT 822
Communication écrite II — LT 926
Introduction à la traduction — LT 823
La programmation sur micro-ordinateur I — PRGM 925A
Micro-ordinateur pour gestionnaires — PRGM 801
Introduction au LOTUS 1-2-3 — PRGM 802

Note: Students enrolled in the certificate program must attend 80% of the classes and obtain a "B" standing in order to proceed.

Interviews:
New students of French as a second language must have a short placement interview during registration week, two weeks before the start of classes. Times and places for interviews are indicated after each course listed below. Returning students should register at least two weeks before the start of the courses.



Basic Level Courses
Levels 1A — 1B and 2A — 2B
Students develop conversational skills that enable them to express themselves simply in various daily situations. Attention is also given to the structures of the language and pronunciation. In level 2, students are encouraged to express opinions, relate events and tell simple stories. Rudiments of the past and future tenses are also studied.

Intermediate Level Courses
Levels 3 and 4
Students learn to express themselves more correctly and precisely. A lot of class work is based on the interests and occupations of the students. They are urged to discuss topics of personal interest, happenings in their lives and current events.

Advanced Level Courses
Levels 5 and 6
At this level, students can convey their message in almost every situation as they refine their skills in expressing doubt, insistence, feelings, necessity, etc. Idiomatic usage and the finer points of grammar are dealt with and students are challenged to defend opinions and ideas. They are encouraged to take advantage of francophone activities in Toronto.

Speaking French (all levels)

Tues. and Thurs. 7 to 9 p.m.
Kensington Campus
42 hours Fee: $63.00
September 20 to November 29
Placement interviews:
Kensington Campus, Room 1210

Cours en français

Pour vous inscrire aux cours suivants complétez la formule à la fin de ce répertoire et postez-la ou, allez directement au bureau d'inscription sur le campus où le cours a lieu. Inscrivez-vous le plus tôt possible pour être sûr(e) d'avoir une place. Veuillez téléphoner au département de français pour de plus amples renseignements: 967-1212, poste 4388.

Vivre en français à Toronto

Ce cours permet aux étudiants de pratiquer le français par des sorties culturelles, des entretiens avec des Francophones travaillant à Toronto et par l'exploitation des ressources francophones de Toronto. Les apprenants participent activement à la préparation du programme et des sorties.
mercredi 19h-22h Campus St-James
36 heures Coût: 60.00$
du 21 septembre au 7 décembre • **LT 925**

Culture et société franco-canadienne

Dans ce cours on trace l'historique du Canada français et l'évolution actuelle de la société franco-canadienne sur les plans sociologique, politique, économique et culturel. Dans le cadre de discussions animées par un professeur expert en la matière, les apprenants tentent de mettre en lumière certaines constantes et variables de cette société en pleine évolution.
lundi 18h15-21h15 Campus St-James
36 heures Coût: 60.00$
du 19 septembre au 5 décembre • **LT 824**

Grammaire française pour non-francophones

Prérequis: Niveau 5 ou équivalent.
Ce cours est destiné aux étudiants de niveau avancé désireux d'améliorer leur grammaire orale et écrite, afin de pouvoir mieux communiquer en français. Tout en présentant les principales règles de grammaire par le biais d'exercices structuraux traditionnels, le cours encourage l'étudiant à constamment réappliquer ces règles de façon personnelle en rédigeant des lettres, des compositions, etc. et en faisant divers types de présentations orales. Au besoin, on fait également appel à la grammaire comparée du français et de l'anglais et on étudie des textes en français bien écrit. Le cours se donne entièrement en français.
mercredi 18h15-21h15 Campus Kensington
42 heures Coût: 63.00$
du 14 septembre au 14 décembre • **LT 927**

Communication écrite I

Dans ce cours, l'étudiant sera amené à parfaire ses connaissances grammaticales et techniques de la langue en vue de la production écrite. La grammaire, les anglicismes, les abréviations, la ponctuation, l'orthographe et autres points de langue sont à l'étude.
mardi 18h15-21h15 Campus St-James
42 heures Coût: 66.00$
du 13 septembre au 13 décembre • **LT 822**

Correction phonétique

Prérequis: Niveau 4 du Cours "Speaking French" ou l'équivalent
Ce cours est conçu à l'intention des étudiants anglophones qui ont acquis un niveau intermédiaire de communicaton en français et qui désirent améliorer leur prononciation et leur expression orale. En classe et en laboratoire, les étudiants se familiarisent avec les caractéristiques phonétiques du français, apprennent à corriger leurs fautes de prononciation, sont entraînés à la compréhension et à la discrimination auditives, préparent des mises en situation et font des exercices permettant de parfaire leur prononciation, rythme, débit et intonation.
Ce cours est donné en français.
samedi 9h30-12h30 Campus Kensington
42 heures Coût: 63.00$
du 17 septembre au 17 décembre • **LT 929**

Le français langue des affaires

Prérequis: Avoir réussi le niveau 5 de "Speaking French."
Ce cours est conçu à l'intention du personnel de bureau et des gens d'affaires qui ont besoin du français dans le cadre de leur travail. En classe, les étudiants apprennent à communiquer au téléphone de façon claire, prendre rendez-vous et faire une réservation, discuter des clauses d'un contrat, lire des rapports et des journaux financiers, présider une réunion, rédiger de la correspondance et divers autres documents.
On encourage les étudiants à discuter de leur propre travail et à mettre en pratique immédiatement ce qu'ils ont appris en classe.
mardi 18h15-21h15 Campus St-James
42 heures Coût: 63.00$
du 13 septembre au 13 décembre • **LT 928**

Introduction à la traduction

Ce cours initie les apprenants bilingues aux techniques nouvelles de la traduction et leur donne l'occasion de développer une approche pratique dans différents domaines. En traduisant des textes tirés de domaines variés (littérature, sciences, publicité, finance, économie, etc.), les étudiants approfondissent leur connaissance pratique du vocabulaire, de la grammaire et de la stylistique. Il ne forme pas de traducteurs professionnels.
mercredi 18h15-21h15 Campus Kensington
42 heures Coût: 63.00$
du 14 septembre au 14 décembre • **LT 823**

Micro-ordinateur I

Introduction à la programmation sur micro-ordinateur – un cours pour ceux et celles qui ont peu ou aucune expérience du langage BASIC. Utilisation du logiciel dans l'industrie, dans l'éducation et dans les loisirs; utilisation du clavier, des graphiques; usage du print; genres d'input et d'output dans un programme: branchements (go to), boucles (for...next), dimensions et sous-routines. En classe, dans les deux cours, l'étudiant travaille sur son propre micro-ordinateur.
lundi 19h-22h Campus St-James
30 heures Coût: 45.00$
du 19 septembre au 28 novembre
• **PRGM 925A**

Introduction au LOTUS 1-2-3

Dans ce cours, les étudiant-e-s devront se familiariser à ce qu'est un chiffrier électronique, qui l'utilise et pourquoi il est utilisé. Ils-elles devront entrer, manipuler et organiser des données de façon logique et séquentielle afin de reproduire le plus efficacement possible des rapports comptables et administratifs tels que: comptes à payer, à recevoir, paie, inventaire, grand livre, états financiers, etc.
samedi 9h30-12h30 Campus Kensington
36 heures Coût: 150$
du 17 septembre au 3 décembre • **PRGM 802**

Dessin et peinture

Ce cours est offert à toute personne désirant apprendre le dessin et la peinture en français. La première moitié du cours, consacrée au dessin, familiarise les étudiants avec le crayon, le fusain et le pastel. L'autre moitié est consacrée à la peinture, à l'application et au mélange des couleurs.
Le cours comprend des visites de galeries qui aident les apprenants à apprécier et à critiquer leur propre expression artistique ainsi que celle des autres.
samedi 10h-13h Campus St-James
36 heures Coût: 60.00$
du 17 septembre au 3 décembre • **LT 826**

Certificat en Enseignement du Français Langue Seconde aux Adultes

Le Centre Français offre, à temps partiel, un Certificat en enseignement du français langue seconde aux adultes.
Ce certificat est conçu à l'intention des francophones qui désirent travailler dans ce domaine.
Les candidatures de non-francophones ayant un niveau très avancé en français pourront être considérées.
La première partie du Certificat débutera le 13 septembre 1988 pour se terminer le 1er décembre 1988. La deuxième partie commencera le 17 janvier 1989 et se terminera le 28 mars 1989.
Les cours offerts sont:
– Micro-enseignement
– Psychologie de l'apprenant adulte
– Didactique des méthodes d'enseignement en français langue seconde et création de matériel
– Didactique de la grammaire
– Didactique de la linguistique et de la prononciation en classe de français langue seconde
– test et évaluation en enseignement du français langue seconde
– 10 heures de stage (observation)
– 30 heures de stage (enseignement)

Entrevues
Tout candidat devra se soumettre à un examen oral avant d'être accepté au Certificat. Les entrevues auront lieu au Campus Kensington, local 1106.

Evaluation et Obtention du Certificat
Chaque étudiant devra remettre pour chacun des cours complétés, des travaux évaluant son apprentissage, participer à un minimum de 80% du cours et réussir les examens afin d'accéder au cours suivant. La note de passage pour chacun des cours est de 60%.
Un certificat en enseignement du français langue seconde aux adultes sera décerné aux candidats ayant rempli toutes les exigences énumérées ci-haut.

Micro-enseignement

Dans ce cours, l'étudiant pourra évaluer ses aptitudes à enseigner. Les mises en situation et les jeux de rôle lui feront prendre conscience des exigences de l'enseignement. L'étudiant sera filmé à plusieurs reprises. Il lui sera ainsi permis de visualiser ses points faibles et de les corriger.
mardi et jeudi 19h-22h, Campus Kensington
18 heures Coût: 27.00$
du 13 au 29 septembre • **LT 933**

Psychologie de l'apprenant adulte

Préalable: Micro-enseignement.
Dans ce cours, les étudiants pourront discerner les différences entre pédagogie et andragogie. L'accent sera surtout mis sur les principes andragogiques. On apprendra à évaluer les besoins des apprenants adultes et à cerner les objectifs à atteindre en salle de classe. Une partie du cours portera également sur l'évaluation de l'apprentissage auprès d'un apprenant adulte.
mardi et jeudi 19h-22h Campus Kensington
24 heures Coût: 36.00$
du 4 au 27 octobre • **LT 934**

Didactique des méthodes d'enseignement en français langue seconde et création de matériel

Préalable: Psychologie de l'apprenant adulte.
Dans ce cours, l'étudiant fait un tour d'horizon des différentes approches et méthodes d'enseignement du français langue seconde à utiliser en salle de classe. Il apprend à en évaluer le contenu et la pertinence. Il apprend à créer du nouveau matériel en fonction des besoins des apprenants et des objectifs à atteindre en salle de classe.
mardi et jeudi 19h-22h Campus Kensington
39 heures Coût: 58.50$
du 1 novembre au 13 décembre • **LT 935**

Stage d'observation

Les dix (10) heures d'observation se feront entre septembre et décembre 1988. L'étudiant devra observer une classe de français langue seconde au Collège George Brown. De cette façon, il sera apte à enseigner à la deuxième partie du certificat.
10 heures Coût: 15.00$ • **LT 939**

Stage d'enseignement

Préalable: Stage d'observation.
Dans ce stage, les étudiants devront préparer, structurer et donner un cours de français soit, au niveau débutant, intermédiaire ou avancé. Les trente (30) heures d'enseignement seront supervisées par un professeur qualifié dans l'enseignement du français langue seconde aux adultes. Les superviseurs devront produire un compte-rendu du travail effectué et noter chacun des stagiaires. De même que l'observation, l'enseignement devra se faire au Collège George Brown. Les stagiaires seront filmés à la fin de ce cours. Ils pourront ainsi noter le progrès fait depuis septembre 1988. Le stage d'enseignement devra avoir lieu entre janvier et juin 1989.
30 heures Coût: 45.00$ • **LT 940**

   - C.G.A. Designation

This program is a joint offering by the Department of Business, Accounting Program and the Business Continuing Education Department of the School of Business. For further information, contact the St. James Campus, Program Office, at 200 King Street East. Telephone 967-1212, ext. 3351.

Certificate Program in Accounting

This program gives students a thorough knowledge of the main aspects of accounting. It is of interest to someone already working in a junior position in the field or anyone interested in a general career in business administration.
Entrance requirement: Secondary School Graduation Diploma or equivalent standing. Applicants with a lower level of formal education are considered if they have related business experience.
Students are expected to complete the program within a maximum of three years.
Students may apply for credits for related subjects taken at other community colleges or similar institutions.

6 Courses: 4 compulsory, 2 electives

Compulsory:
ACC 100X – Accounting I
ACC 101X – Accounting II
ACC 202X – Cost Accounting I
EC 903 – Economics (Fall & Winter only)

Electives:
BUS 900A – Business Management I
BUS 900B – Business Management II
ENG 933 – Bare Essentials
OMDP 902A – Ontario Business Law I
OMDP 902B – Ontario Business Law II (Winter only)
EDP 100X – Introduction to Computer Programming

Certificate Program in Bookkeeping Systems

This is a new program designed to meet the needs of students and employers. Emphasis is placed on training bookkeepers who will become skilled in handling bookkeeping systems, both manual and computerized. Successful completion of the program will provide students with skills which will be readily marketable to a large number of firms in industry.

Compulsory:
Bookkeeping I – BOK 552XA
Bookkeeping II – BOK 552XB
Computer Applications for Bookkeepers (Jan.89) (Prerequisite KB100X or proof of 25 wpm typing)
Wordperfect Applications for Bookkeepers (Jan.89)
ENG933 – Bare Essentials is a required compulsory subject for students who have not attained a Grade 12 Certificate in English. A "B" standing must be achieved in this subject in order to qualify for the Certificate.

Certificate Program in Business Management

This program is designed to develop the managerial skills of potential managers and those currently working as junior managers. Entrance requirements: Secondary School Graduation Diploma or equivalent standing. Applicants with a lower level of formal education are considered if they have related business experience. Students are expected to complete the program within a maximum of three years.
Students may apply for credits for related subjects taken at other community colleges or similar institutions.

6 Courses: 4 compulsory, 2 electives

Compulsory:
BUS 900A – Business Management I
BUS 900B – Business Management II
MARK 100X – Marketing
ACC 100X – Accounting I

Electives:
EDP 100X – Introduction to Computer Programming
ACC 101X – Accounting II
ACC 202X – Cost Accounting I
ENG 933 – Bare Essentials
OMDP 902A – Ontario Business Law I
OMDP 902B – Ontario Business Law II (Winter only)
OMDP 907 – Effective Supervision – Human Relations
EC 903 – Economics (Fall & Winter only)

Certificate Program for the Office Administrator

This program is designed to meet the changing needs of today's office in business, the professions and government. Entrance requirements: Secondary School Graduation Diploma or equivalent standing. Applicants with a lower level of formal education are considered if they have related business experience.

BUS 175X – Medical Terminology II – Winter only

Electives:
WORD 201X – Word Processing I
* Students who have previously successfully completed the former Medical Office Practice prior to '87 will be granted exemption for Medical Office Practice "B" if taken at George Brown College.

George Brown College in Cooperation with The Institute of Law Clerks of Ontario

The Ministry of Skills Development in its Training Profile (1986) for the Law Clerk defines "law clerk" as:
"...a trained specialist, capable of doing independent legal work, which may include managerial duties, under the direction and guidance of a Barrister and Solicitor, of routine legal and administrative matters and to assist him in the more complex ones, and has a thorough knowledge of the practical conduct of a law office and of the procedural aspects of matters handled by the principal..."
The program is comprised of four courses offered over two years. In year one, you are exposed to the areas of real estate and estates. In year two you are exposed to litigation and corporate law. Students have the opportunity of writing a province-wide exam set and marked under the supervision of the Institute of Law Clerks of Ontario. Successful completion of the Institute's four exams is a necessary requirement for associate level membership within the Institute and such completion is a universally accepted standard of achievement within the legal profession, as is membership in the Institute.

4 Courses:
Real Estate – LAW 804 (Fall only)
Litigation – LAW 802 (Fall only)
Estates – LAW 803 (Winter only)
Corporate – LAW 801 (Winter only)

Institute of Law Clerks Examination Dates:
Real Estate – January 10, 1989
Litigation – March 7, 1989
Estates – April 18, 1989
Corporate – June 20, 1989

Certificate in Records Management

This program, offered in cooperation with the Toronto Chapter of the Association of Records Managers and Administrators, will be of interest to all people who are currently involved in the management of business communications, EDP records, files, forms and reports, records systems and procedures, retention, protection and disposal of vital records. Persons aspiring to management positions in these areas should find this program particularly helpful.

6 Courses: 4 compulsory, 2 electives

Compulsory:
RM 900 – Records and Information Management I RMI
RM 901 – Records and Information Management II RMII
RM 904 – Machine Readable Records and Archives
MICR 900 – Microfilm For Your Business

Electives:
Choose one subject each from *two* of the following groups:
Archives
BUS800 – Introduction to Archival Practices
BUS 801 – The Administration of Archives
Forms
RM 902 – Forms Management RM111
FORM 900 – Procedural Analysis
FORM 901 – Forms Design
Manuals
RM903 – Manuals Management

Certificate Program in Paperwork Simplification

The Forms and Manuals Management Association (FMMA), offers a certificate program in Paperwork Simplification.
This certificate program benefits organizations by providing their employees with the technical and administrative expertise required to:
– develop, implement and manage a comprehensive Forms Management program;
– plan and conduct simple analysis projects for the purpose of simplifying paperflow;
– design forms that are efficient to use, economical to produce, and that enhance the organization's image.

Certificate Program in Paperwork Simplification:
3 Courses:
FORM 900 – Procedural Analysis (Fall and Winter only)
FORM 901 – Forms Design (Fall and Winter only)
RM 902 – Forms Management (Fall and Winter only)

Certificate Program — Business Procedures Analyst

The Business Procedures Analyst Certificate program is a continuation of the basic Paperwork Simplification Certificate program offered by the Forms and Manuals Management Association (FMMA). This advanced program, reflecting constantly and rapidly changing activities in the forms management field, will provide participants with:
– forms design expertise in all varieties of business forms;
– a basic understanding of the newest technologies relative to forms;
– the techniques for carrying to a successful conclusion the procedural analysis projects they learned to initiate and conduct in the basic program;
– the background for interfacing with manual or automated systems analysis projects;
– the documentation requirements and techniques of procedural analysis projects.
This program, in combination with the basic program (which is a prerequisite), will give people involved in the management of forms, manuals, records and information flow in general some basic skills needed to carry out their activities more efficiently and cost effectively.

4 Courses:
FORM 903 – Advanced Procedural Analysis (Fall only)
FORM 902 – Advanced Forms Design (Winter only)
RM 903 –Manuals Management (Fall and Winter only)
EDP 100X – Introduction to Computer Programming

Students may be granted recognition for the successful completion of an equivalent course at a recognized Community College or University. Applications for such recognition must be submitted in writing together with a copy of transcript of marks to:
Director of Education
Forms and Manuals Management Association
P,O. Box 5338, Station A
Toronto, Ontario
M5W 1N6

NOTE: Students may enrol in courses in any order, provided that the required prerequisites are met.
Students must hold FMMA's Paperwork Simplification Certificate to be eligible to receive the Business Procedures Analyst Certificate.

Municipal Administration Program for Clerks, Treasurers and Municipal Administrative Staff

The fabric of our society is undergoing dramatic change. The youth culture, unemployment, the housing crisis, tax reform, urban sprawl, pollution, and population problems clamour for attention. To deal with these problems, local government needs to develop an ability to manage this change and plan for the future municipality.
The Municipal Administration Program consists of four units, which are required to obtain the certificate.

For further information, please contact:
Association of Municipal Clerks and Treasurers of Ontario
100 University Ave., Ste. 801
Toronto, Ontario
Tel: 593-1400

4 Courses:
Introduction to Local Government – MUN 900 (Fall only)
Municipal Administrative Structure – MUN 901 (Fall only)
Municipal Financial Management – MUN 902 (Winter only)
Management in the Municipality – MUN 903 (Spring only)

Certificate Program in Archival Practices

This program, sponsored by the Toronto Area Archivists Group, provides basic training in archival practices and administration for non-professional archival technicians. The course is of value to information and management professionals with archival responsibilities. Case studies and workshops are used to present practical examples of the theory taught in class. Local professionals lecture on their fields of expertise and give students valuable future contacts.
Credit courses from this program are of interest to students in the part-time certificate in Records Management.
A non-refundable materials fee covers the cost of texts and supplies.

4 compulsory, 2 electives

This six-course certificate program consists of the following:

Compulsory Courses:
BUS 800 – Introduction to Archival Practices (Fall only)
RM 900A – Records and Information Management I
BUS 801 – The Administration of Archives (Winter only)
BUS 833 – The Care of Records (Conservation Techniques) (Fall only)

The remaining two courses may be selected from courses listed from the following:

Elective Courses:
RM 904 – Machine Readable Archives and Records (Fall only)
RM 901A– Records and Information Management II
RM 902 – Forms Management
RM 903 – Manuals Management (Fall and Winter only)
MICR 900 – Microfilm For You Business (Fall and Winter only)
FORM 900 – Procedural Analysis (Fall and Winter only)
FORM 901 – Forms Design (Fall and Winter only)

30 hours Fee: $150.00 plus purchase of text.
September 12 or 17 to October 17 or 22
November 7 to December 7 • **WORD 201X**

Metro Labour — Education & Skills Training Centre

What is the Centre?

The Centre is a project of the Labour Council of Metropolitan Toronto. We run a variety of programs for union members and workers throughout the city, including Skills Training (special programs for unemployed workers); English at the Workplace/ESL; Adult Basic Education Literacy/Numeracy; Labour Studies.

Certificate in Labour Studies

One of our major activities is the setting up of 30-hour courses, run once a week for 10 weeks, or on four Saturdays or Sundays. We offer Fall, Winter and Spring programs.

Our courses cover a wide range of issues of concern to trade union members, including Collective Bargaining; Arbitration; Health & Safety; Work, Racism and Labour; Women in Labour History; Labour Economics; Working Class Literature; International Affairs; Human Rights.

Where are the courses held?

Our programs are run in easily accessible union halls throughout the city as well as at our new downtown location. We try to meet the needs of workers in every area of Toronto.

Who are our instructors?

We encourage active unionists to become instructors of our courses. In most cases they are union members/workers during the day and part-time instructors at night (or on weekends).

We also encourage a learner-centred approach with active involvement by participants. Course content and instructors are decided upon by the Centre's Advisory Committee.

Are these credit courses?

Yes. Participants receive a certificate in Labour Studies from George Brown College upon completion of 24 credits (each 30-hour course is worth three credits).

The Centre is also involved in:

- organizing conferences or seminars.
- designing special programs for immigrant workers and visible minorities.
- developing special educational programs for specific unions.

Whatever the educational needs of workers, we will try to serve them as best as we can.

Participate in our labour education programs!

Intermediate Word Processing

Prerequisite: WORD 201X — Word Processing I or proof from employer of practical experience required when registering.
Continue training on the Wang system and learn to create, manipulate and print documents.
Topics include: introduction to the glossary, merge, dual column and repagination.
Tues. and Thurs. 6 to 9 p.m. St. James Campus
30 hours Fee: $150.00 and purchase of text.
September 13 to October 13 • **WORD 800**

Advanced Word Processing

Prerequisite:
WORD 800 – Intermediate Word Processing
Further training on the Wang system, this course teaches students advanced glossary writing and basic spreadsheet set-up using the Math Support Software Package. Other topics include: advanced formatting and column edit.
Tues. and Thurs. 6 to 9 p.m. St. James Campus
30 hours Fee: $150.00 and purchase of text.
October 25 to November 24 • **WORD 801**

Shorthand

Forkner Shorthand

Prerequisite: Grade 12 English.
Learn a variety of speed forcing techniques with the emphasis on English and transcription skills.
Text: Forkner Shorthand for Colleges and Forkner Skill Builder
Mon. and Wed. 6 to 8:30 p.m.
St. James Campus
70 hours Fee: $105.00 plus purchase of texts.
September 12 to December 14 • **SH 104X**

Certificate Program in Medical Secretarial

Compulsory

Medical Office Procedures

Medical Office Practice I

Prerequisites: Grade 12 English and 45 w.p.m. typing. Proof required when registering.
Become familiar with the daily routine of working in a doctor's office through extensive simulations of an actual office environment.
Text: Office Practice for Canadian Medical Secretaries and Tabers Medical Dictionary.
Mon. and Wed. 6 to 9 p.m. St. James Campus
60 hours Fee: $90.00 Materials: $5.00 and purchase of text.
September 26 to December 5 • **BUS 176X**

Medical Terminology — Part I

Prerequisite: Grade 12 English and typing speed of 45 wpm.
Upon successful completion of this course, the student is able to recognize (written and verbal) and explain the meaning of medical terminology as it occurs in the medical environment. Literacy is accomplished through a thorough knowledge of the formation of medical terms including suffixes, prefixes and combining forms as well as abbreviations and surgical and diagnostic terms relating to the body systems studied.
Tues. and Thurs. 6 to 8:30 p.m.
St. James Campus
50 hours Fee: $75.00 plus purchase of text
September 27 to December 1 • **BUS 171X**

Machine Transcription — Part I (Medical)

Prerequisite: Grade 12 English and typing speed of 45 wpm.
This course is an introduction to machine transcription with an emphasis on applications in the medical environment. Upon successful completion of this course the student is able to exhibit proficiency in the operation of various transcription units. The development of listening skills and the ability to understand and follow dictated material as well as proofreading and editing skills is emphasized. The student also becomes familiar with common office correspondence and various medical documents.
Text: Medical Typing and Transcription and Tabers Medical Dictionary.
Tues. and Thurs. 6 to 8:30 p.m.
St. James Campus
50 hours Fee: $75.00 plus purchase of text
September 20 to November 24 • **BUS 166X**

Elective

Word Processing I

For course description, see page 37.
• **WORD 201X**

Legal Secretarial

Court Reporting — Stenograph Machine Shorthand Speed Development

Prerequisite: Minimum speed of 80 w.p.m. on stenographic machine.
Note: Students must provide their own machine.
This course is designed to increase machine speed. Methods used are drills, read-back and dictation. Technique and accuracy are emphasized.
Wed. 6 to 9 p.m. and Sat. 9 a.m. to 1 p.m.
St. James Campus
112 hours Fee: $168.00 plus purchase of text and supplies
September 14 to January 18 • **SHM 121X**

Legal Office Procedures — Part I

Prerequisites: Grade 12 English and 45 w.p.m. typing. Proof required when registering. To arrange for a typing test, please call 967-1212, ext. 3331 or 3332.
Learn the varied duties involved in running a legal office and further develop typing skills. Emphasis is placed on the understanding and accurate preparation of the correspondence and up-to-date documents involved in the various facets of law.
Text: Legal Office Procedures.
Mon. and Wed. 6 to 9 p.m. St. James Campus
60 hours Fee: $90.00 Materials: $10.00 and purchase of text
September 12 to November 21 • **OP 206X**

The Legal Secretary — Real Estate

Prerequisite: Experience as a secretary.
Become a more efficient assistant to a solicitor by learning to handle simple real estate transactions on your own, including purchase, sale and institutional mortgages. As you become more familiar with the procedures, you learn to recognize the next step in the process without prompting. Start and maintain a precedent binder and a checklist of transaction procedures. You are encouraged to use your firm's forms for precedents.
Wed. 6 to 9 p.m. St. James Campus
30 hours Fee: $114.00 Material Fee: $10.00
September 28 to November 30 • **BUS 816**

The Legal Secretary — Corporate

Prerequisite: Experience in a legal office or legal secretary course.
Shows you how to handle the administrative details of incorporating in Ontario and the subsequent organizing of the company. Topics include: documents required to incorporate, drafting articles of incorporation, initial banking documents, agreement between shareholders, how to remove directors, and how to register out-of-province companies.
Mon. 6 to 9 p.m. St. James Campus
12 hours Fee: $64.00 Material Fee: $20.00
October 24 to November 14 • **BUS 920**

Legal Secretary — Estates

Prerequisite: Experience in a legal office or legal secretary course.
Prepares you to act autonomously in dealing with the probate or administration of a straight-forward undisputed estate settlement. Topics include: terminology, the secretary's role in completing estates, completing and filing documents, definition of administration bond, liquidating or transferring estate assets, and winding up an estate.
Mon. 6 to 9 p.m. St. James Campus
12 hours Fee: $64.00 Materials: $20.00
September 19 to October 17 • **BUS 921**

Sales

Appliance Sales

NEW

This course provides training for those interested in a sales career. Good salespersons are made, not born. Topics include product knowledge; psychology of selling; selling styles and basic business issues related to selling.
Wed. 6 to 9 p.m. St. James Campus
30 hours Fee: $45.00 Materials: $20.00
September 14 to November 16 • **SEL 901**

NEW FALL COURSES

NEW

Ontario Management Development Program
designed for

Owners, Managers, Supervisors & Entrepreneurs

Registration is limited; enrol early.

Ontario Management Development Program (OMDP) courses:
- help you meet your career goals by providing you with management training you need to run your business successfully.
- assist you in starting your own small business.
- offer provincial OMDP Certificates, issued by the Ministry of Skills Development, to recognize your achievement on completion of basic programs.

Coordinated by the Ministry of Skills Development in cooperation with Ontario's community colleges, OMDP courses are designed by business and industry professionals, including the Federal Business Development Bank. Course leaders are practical, well-qualified business persons, educators or consultants who are familiar with the day-to-day problems faced as managers, supervisors and owners. Register in one or more courses in the same term and select the courses in the sequence outlined below. For more information, please call 967-1212, ext. 3292.

Note: Course credits may not be used for more than one certificate. There is an additional cost for study material required for each Ontario Management Development Course. For some courses, a text may be required. Most of these items can be purchased at the College bookstore and are required for your first class.

For the following courses, OMDP 900; OMDP 955; OMDP 956; OMDP 957; course kits are included in the materials fee and will be distributed in class. This portion of the materials fee is non-refundable. Where required, purchase course kit prior to first class.

Business Management Studies

Satisfactory completion of six courses, four of which are mandatory from two of the groups "A" to "E". The remaining two courses may be drawn from groups "A" to "F", or from non-OMDP, College-approved related courses.

Group A: Business Management/ General

OMDP 922 Management for Results (Winter only)
OMDP 930 Management by Objectives and Results (Fall only)
OMDP 931 Successful Small Business Management (Fall and Spring)

Group B: Financial Control

OMDP 902A Ontario Business Law I
OMDP 902B Ontario Business Law II (Winter only)
OMDP 925 Practical Financial Management (Spring only)

Group C: Marketing

OMDP 903 How to Develop Your Business
OMDP 923 The ABCs of Selling
OMDP 948 How to Operate a Successful Retail Store (Fall and Winter)
OMDP 933 Managing the Marketing Function (Fall only)
OMDP 934 Planning Profitable Advertising (Fall)
OMDP 935 Marketing Your Product (Winter and Spring)
OMDP 936 Marketing for Small Business

Group D: Production

OMDP 940 Effective Supervision — Production (Fall and Spring only)
OMDP 908 Effective Supervision — Administration (Fall and Winter only)
OMDP 938 Job Enrichment for Administration (Spring only)

Group E: Personnel Management and Labour Relations

OMDP 907 Effective Supervision — Human Relations
OMDP 912 Management Skills in Personnel Selection (Fall and Winter)
OMDP 906 People Management: Tools & Techniques (Fall and Spring)
OMDP 941 Effective Labour Relations (Winter)
OMDP 942 Effective Supervision — Communications (Fall and Spring)

Group F: Electives

OMDP 914 How to Start a Small Business
OMDP 900 Management Functions for Supervisors (Winter and Spring)
OMDP 953 Bookkeeping

Supervisory Studies:

Satisfactory completion of six courses, two of which are from group A, one from group B, and one from group C. The remaining two may be OMDP or non-OMDP courses provided they offer training or education in the supervisory function.

Group A: Human Resources

OMDP 907 Effective Supervision — Human Relations
OMDP 942 Effective Supervision — Communications (Fall and Spring)
OMDP 900 Management Functions for Supervisors (Winter and Spring)
OMDP 953 Bookkeeping
OMDP 954 Effective Communication in Today's Business World (Fall and Spring)
OMDP 957 The Supervisor — Managing Resources (Winter only)
OMDP 955 The Supervisor — Training and Developing Staff (Fall and Spring only)
OMDP 956 Leadership (Winter and Spring)

Group B: Work-Related

OMDP 940 Effective Supervision — Production (Fall and Spring only)
OMDP 908 Effective Supervision — Administration (Fall and Winter only)

Group C: Electives

OMDP 922 Management For Results (Winter only)
OMDP 930 Management By Objectives & Results (Fall only)
OMDP 906 People Management Tools & Techniques (Fall and Spring)
OMDP 941 Effective Labour Relations (Winter)

Effective Supervision — Human Relations

Gain an understanding of the various aspects of managing people. Topics include: understanding people, slection and induction, how to train employees, developing and maintaining morale, compensation, salary administration, effective communications, appraising employee performance, job satisfaction, leadership, planning and organizing for results, union relations, and resistance to change.
Thurs. 6 to 9 p.m. St. James Campus
30 hours Fee: $45.00 Materials: $5.00 plus purchase of course kit and text.
September 22 or 24 to November 24 or 5 • **OMDP 907**

Effective Supervision in Administration

How to become a more decisive and effective supervisor. Learn how to evaluate employee performance and when to take corrective action to remedy problems. Apply the techniques of flowcharting and layout analysis to improve administration.
Wed. 6 to 9 p.m. St. James Campus
30 hours Fee: $45.00 Materials: $5.00 plus purchase of course kit and text.
September 21 to November 23 • **OMDP 908**

Management Skills in Personnel Selection

How to go about selecting the right employees for your needs. Learn to plan your manpower needs, from the number of employees required to their specific duties. Topics include: recruitment, selection, announcement of the position, the application form, screening methods and the interview.
Tues. 6 to 9 p.m. St. James Campus
30 hours Fee: $45.00 Materials: $5.00 plus purchase of course kit and text.
September 20 to November 22 • **OMDP 912**

How to Start a Small Business

A complete how-to course, from establishing your business to running it profitably. Topics include: legal business forms, start-up costs, finding financing, marketing, staffing, purchasing, inventory control, financial statements, financial control and government regulations.

Architectural

Heating Fuels Certificate Program

A Certificate in Heating Fuels will be awarded on successful completion of the following courses:
HT 910 – Gas Fitter I
HT 907 – Gas Fitter II
HT 913 – Oil Burner II
HT 915 – Basic Electricity and Controls
HT 919 – Propane Gas

Residential Heating and Air Conditioning Certificate Program

A Certificate in Residential Heating and Air Conditioning will be awarded on successful completion of the following courses:
AIR 905 – Air Conditioning, Residential and Small Commercial
HT 900 – Warm Air Heating and Air Conditioning
HT 907 – Gas Fitter II
HT 913 – Oil Burner II
HT 915 – Basic Electricity and Controls.

Balancing of Mechanical Systems Certificate

A Certificate in Balancing and Mechanical Systems will be awarded on successful completion of the following courses:
AIR 900 – Air Conditioning Design I
AIR 901 – Air Conditioning Design II
AIR 905 – Air Conditioning Residential and Commercial
AIR 910 – Building Mechanical Systems Advanced Balancing Procedures
SM 911 – Sheet Metal Pattern Drafting

Stationary Engineering Fourth Class Certificate

A Certificate in Stationary Engineering Fourth Class will be awarded on successful completion of the following courses:
STAT 941 – Power Plant Applied Science
STAT 942 – Power Plant Chemistry
STAT 943 – Power Plant Boilers and Auxiliaries
STAT 944 – Power Plant Heating, Refrigeration and Air Conditioning
STAT 945 – Power Plant Electrics and Instrumentation
STAT 946 – Power Plant Applied Mechanics

Stationary Engineering Third Class Certificate Program

A Certificate in Stationary Engineering Third Class will be awarded on successful completion of the following courses:
STAT 931 – Power Plant Applied Science
STAT 932 – Power Plant Chemistry
STAT 933 – Power Plant Boilers and Auxiliaries
STAT 934 – Power Plant Heating, Refrigeration and Air Conditioning
STAT 935 – Power Plant Electrics and Instrumentation
STAT 936 – Power Plant Applied Mechanics

Stationary Engineering Second Class Certificate Program

A Certificate in Stationary Engineering Second Class will be awarded on successful completion of the following courses:
STAT 921 – Power Plant Applied Science
STAT 922 – Power Plant Chemistry
STAT 923 – Power Plant Boilers and Auxiliaries
STAT 924 – Power Plant Heating, Refrigeration and Air Conditioning
STAT 925 – Power Plant Electrics and Instrumentation
STAT 926 – Power Plant Applied Mechanics
STAT 927 – Power Plant Drawing

Stationary Engineering First Class Certificate Program

A Certificate in Stationary Engineering First Class will be awarded on successful completion of the following courses:
STAT 911 – Power Plant Applied Science
STAT 912 – Power Plant Chemistry
STAT 913 – Power Plant Boilers and Auxiliaries
STAT 914 – Power Plant Heating, Refrigeration and Air Conditioning
STAT 915 – Power Plant Electrics and Instrumentation
STAT 916 – Power Plant Applied Mechanics
STAT 917 – Power Plant Statics and Fluids

Blueprint Reading and Drafting

Blueprint Reading for the Construction Trades

This course is intended for those working in all branches of the building trades and serves as a foundation for further study.
Course Content: Orthographic projection, dimensions, pictorial drawing, drawing to scale, symbols and conventions, construction plans, sections and details, reading and interpreting working drawings and an introduction to metric drawings.
Mon. and Thurs. 7 to 10 p.m.
Casa Loma Campus
60 hours Fee: $90.00
September 19 to November 28 • **DR 931**

Construction Estimating

Prerequisite: Current employment in the construction industry.
This course is designed to introduce general estimating to building contractors, subcontractors and suppliers to the building industry. Topics include mensuration, ready plans and specifications, job costs, tender documents and the methods of accurately assembling quantities.
Mon. and Thurs. 7 to 9 p.m.
Casa Loma Campus
60 hours Fee: $90.00
September 19 to November 28 • **DR 932**

Blueprint Reading for the Welding Trade

Shows welders how to read blueprints. Topics include: a study of orthographic and pictorial drawing systems, freehand sketching, sketches of welded parts using multiview projection, basic dimensioning principles; a study of welded detail and assembly blueprints, including auxiliary views, scale drawings, shop notes, dimensions, tolerances, small tool operations, interpretation of welding symbols, sectional views and conventional practices.
Tues. and Thurs. 7 to 10 p.m.
Casa Loma Campus
60 hours Fee: $90.00
September 20 to November 24 • **ENDR 572X**

Technical Drawing — Part I

A practical introduction to the techniques needed to work in a drawing office. Topics include: the use of instruments, lettering, linework, applied geometry, third angle orthographic projection, oblique and isometric drawings, freehand sketching, conventions and symbols, sections, tolerances, limits and fits, surface roughness, gears, cams, pipe fittings and layouts, plus electrical, layout and assembly drawings.
Thurs. 7 to 10 p.m. Casa Loma Campus
60 hours Fee: $90.00
September 22 to February 16 • **ENDR 901**

Blueprint Reading for Machine Trades

Provides tradesmen with a basic understanding of reading blueprints. Topics include: orthographic and pictorial drawing systems; freehand sketches of machine parts using multiview, isometric and oblique projections, and the interpretation of industrial blueprints including notes, specifications, dimensions, tolerances and surface finish.
Tues. and Thurs. 7 to 10 p.m.
Casa Loma Campus
60 hours Fee: $90.00
September 20 to November 24 • **ENDR 910**

Architectural Drafting — Part I

After an introduction to drafting equipment and procedures, topics studied include: Canadian symbols and conventions, foundation and floor plans for various types of construction, site plans, typical wall sections, introduction to metric drawings, and details of windows, doors, stairs and building codes.
Mon. and Wed. 7 to 10 p.m. Casa Loma Campus
60 hours Fee: $90.00
September 19 to November 28 • **DR 900**

Architectural Art and Presentation — Part I

Prerequisite: Successful completion of DR 900 or equivalent, employment as a draftsperson or illustrator, or graduation at the Grade 12 level in Architectural Drafting.
Course Content: One and two point perspective, freehand approach and office method, interior and exterior sketching projects, shades and shadows, delineation techniques of furniture, trees, grass, etc., use of pencil, pen, markers and letratone.
Mon. and Wed. 7 to 10 p.m. Casa Loma Campus
30 hours Fee: $45.00
September 19 to October 24
November 7 to December 7 • **DR 902**

Construction

Introduction to Construction

This course, developed in cooperation with the National Association of Women in Construction, covers the fundamentals of construction procedures and technology and includes a visit to a job site. Other topics include: an introduction to city and regional planning, managing, contracting, designing, engineering, estimating, bidding, inspecting, as well as the production work normally associated with construction.
Mon. and Thurs. 7 to 10 p.m. Casa Loma Campus
45 hours Fee: $67.50
September 19 to November 10 • **DR 904**

Intermediate Construction

Prerequisite: DR 904 — Introduction to Construction.
Drawings, Specifications, Estimating, and Scheduling deals with interpreting information conveyed from architects and engineers to contractors by way of a legal document and implementing that fundamental understanding. It discusses the many components of the legal agreement that bind the parties in a construction project; working drawings, front-end documents of the Project Manual, specifications, estimates, proposals, and schedules.
Mon. and Thurs. 7 to 10 p.m. Casa Loma Campus
48 hours Fee: $72.00
September 19 to November 14 • **DR 905**

The Certified Construction Associate (CCA) Program

A Certificate in Certified Construction Associate (CCA) will be awarded on successful completion of the following courses:

DR 906 – Part I – Environment of the Construction Industry
DR 907 – Part II – Process of Management
DR 908 – Part III – Human Resources
DR 909 – Part IV – Labour Relations
DR 910 – Part V – Business Analysis
DR 911 – Part VI – Construction Principles

AutoCAD

Introduction to CADD for Architects & Civil Engineers

Prerequisite: Minimum two years drafting experience.
An introduction to AutoCAD on AT compatible systems. Topics include: the operation of a graphics work station; the application of the points, line & arc CADD functions; basic geometric construction elements, operation of a digitizer/mouse & plotter; establishing scales; setting line, plot, colour & text font; using menus, panning, zooming, filing & dimensioning, also includes the basic DOS functions, copying files onto diskette, restoring & deleting files from hard disk.
Mon. or Wed. 7 to 10 p.m. or Sat. 9 a.m. to 1 p.m. or Sat./Sun. 8:30 a.m. to 4:30 p.m.
Casa Loma Campus
36 hours Fee: $289.00
September 19, 21 or 24 to December 12, 7 or November 19
November 26 to December 10 • **CAD 951**

Advanced CADD for Architects and Civil Engineers

Prerequisite: CAD 951 — Introduction to CADD.
Select a project from your discipline for CADD development. Topics studied include: file structure and maintenance, parts library, back-up procedures, deleting and archiving, selecting optimum commands, creating personal menus, merging files and editing text files.
Tues. or Thurs. 7 to 10 p.m.
Casa Loma Campus
36 hours Fee: $289.00
September 20 or 22 to December 6 or 8
• **CAD 952**

Tool Design

Tool Design Concepts

Prerequisite: Tool & Die Maker with technical drawing knowledge.
This course is designed to introduce the student to the design of: drill jigs, milling fixtures, gauges, dies, progressive dies, draw dies, injection moulds, and assembly diecasting moulds.
Tues. 7 to 10 p.m. Casa Loma Campus
96 hours Fee: $144.00
September 20 to May 2 • **ENDR 905**

Heating/Air Conditioning

Warm Air Heating and Air Conditioning

Gain a background in system design and its application to residential warm air heating and air conditioning systems. There is the option to write the H.R.A. system design examination. Specific topics include: heat transfer, humidity and humidity control, heat loss and heat gain calculations using H.R.A. methods and manuals; elements of system design, including duct sizing, selecting and comparing systems, and an introduction to system balancing.
Tues. and Thurs. 7 to 10 p.m.
Casa Loma Campus
72 hours Fee: $108.00
September 20 to December 8 • **HT 900**

Basic Electricity and Controls/ Heating and Air Conditioning

Provides a basic electrical and controls background for students entering the heating and air conditioning trades. Topics covered include: fundamentals of voltage, current and electrical resistance, Ohm's law and the law of electric power, series and parallel electrical circuits, electrical measurement and testing; electromagnetism and electromagnetic equipment, including relays, circuit breakers etc., introduction to alternating current, transformers, operation and testing of electric motors, electric wiring diagrams as applied to simple heating and cooling systems, the principles behind the operation of temperature controls, thermostats, limit controls, pressure controls, and simple heating and cooling control systems.
Tues. and Thurs. 6:30 to 9:30 p.m.
Casa Loma Campus
60 hours Fee: $90.00
September 20 to November 24 • **HT 915**

Gas Fitter II

Provides the necessary background to write the Fuel Safety Branch Gas Fitter II licence examination. Specific topics studied include: properties of natural gas, fundamentals of combustion; gas physics, including flow and pressure, gas meters and regulators, gas piping, gas venting, the atmospheric burner, principles of gas controls and control systems, installing and servicing gas conversion burners, analyzing flue gas and combustion efficiency, general appliance requirements, and a review of codes and regulations.
Mon. and Wed. 6 to 9 p.m. or 7 to 10 p.m. or Tues. and Thurs. 6 to 9 p.m. or 7 to 10 p.m.
Casa Loma Campus
90 hours Fee: $135.00
September 19 or 20 to January 16 or 12
• **HT 907**

Gas Fitter I

Provides the necessary background to write the Fuel Safety Branch Gas Fitter I licence examination. Specific topics studied include: properties of gas flames, flame detection, flame safeguard system and terminology; fundamentals of controls (on-
off, high-low-off, modulating-off), required C.G.A. valve train assemblies and components, limit controls and interlocks, programming flame safeguard controls, gas fired boilers; installing boilers and burners (piping, venting, and code requirements), analyzing flue gas, combustion and boiler efficiency, and an introduction to process gas heating equipment.
Mon. and Wed. or Tues. and Thurs.
6:30 to 9:30 p.m. Casa Loma Campus
90 hours Fee: $135.00
September 19 or 20 to January 16 or 12
• **HT 910**

High Efficiency Gas Furnaces and Boilers

Prerequisite: Gas Fitter II licence.
Learn to install and service high efficiency furnaces. Topics covered include: steady state and seasonal efficiency; improving seasonal efficiency with retro-fitting; types of furnaces and boiler designs, how these designs achieve semi- and full condensing of the flue gases; principles of, and required control systems for induced draft firing, forced draft firing and pulse combustion; installation requirements for the major types of high efficiency furnaces; application, circuitry and settings of programmable thermostats; servicing and troubleshooting.
Mon. and Wed. 6 to 9 p.m. Casa Loma Campus
30 hours Fee: $45.00
November 7 to December 7 • **HT 922**

Oil Burner II

Provides the necessary background in trade theory and practice to write the Fuel Safety Branch Oil Burner II licence examination. Topics studied include: properties of fuel oil, theory of combustion, fuel oil firing systems, fuel pumps, nozzles, air handling components, ignition components, tanks and piping, combustion chambers and chamber materials, air and hot water temperature controls, combustion controls, control systems, servicing and installing equipment, analyzing flue gas and combustion efficiency, retro-fitting and upgrading existing systems, and a review of codes and regulations.
Tues. and Thurs. 6 to 9 p.m. Casa Loma Campus
90 hours Fee: $135.00
September 20 to January 12 • **HT 913**

Air Conditioning Design I

Provides the basic theory and application of system design of air conditioning systems to H.R.A. standards. Topics covered include: the fundamentals of heat transfer, humidity and its control, heat gain and heat loss calculations using H.R.A. methods and manuals; the elements of system design and their application, including duct sizing, selecting and comparing equipment, an introduction to system balancing, and the applications of air conditioning equipment.
Tues. and Thurs. 7 to 10 p.m.
Casa Loma Campus
72 hours Fee: $108.00
September 20 to December 8 • **AIR 900**

Pneumatic Controls

Prerequisite: Employment in the heating or air conditioning industry as a journeyman or equivalent.
An introduction to pneumatic control circuits and their typical applications to radiation, central fan heating, fan coil units, induction units, and year round air conditioning systems.
Mon. 7 to 10 p.m. Casa Loma Campus
30 hours Fee: $45.00
September 19 to November 28 • **AIR 907**

Air Conditioning Residential and Commercial

Prerequisite: Employment in the heating or air conditioning industry as a journeyman or equivalent.
Provides a fundamental background in the theory and practice of residential and small commercial air conditioning systems and equipment. Topics include: the fundamentals of refrigeration, compressors, condensors, evaporators, tubing and connections; standard operating procedures, including evacuating, charging and testing for leaks, electric motors, motor starters and overloads, electric and control circuits, testing circuits and troubleshooting, winter operation, selecting equipment, installation and start-up procedures, air problems and measurement, and conducting a service analysis.
Mon. and Wed. or Tues. and Thurs. 7 to 10 p.m.
Casa Loma Campus
72 hours Fee: $108.00
September 20 or 19 to December 8 or 12
• **AIR 905**

Building Mechanical Systems Advanced Balancing Procedures

Prerequisite: Satisfactory completion of course AIR 900 or AIR 901 or equivalent.
This course is designed to provide advanced knowledge and techniques to those who are involved with balancing or adjusting air distribution systems. The course covers the following topics: air quantity, air changes, system pressure, air friction chart, air movement, balancing dampers, measuring instruments for duct systems and sizing ducts for proper air movement.
Tues. and Thurs. 7 to 10 p.m.
Casa Loma Campus
60 hours Fee: $90.00
September 20 to November 24 • **AIR 910**

Propane

Propane Gas (Fitter S2)

Provides the necessary background in trade theory and practice to write the Fuel Safety Branch Propane Gas Fitter S2 licence examination. Topics covered include: properties of propane gas, basic requirements for field approved appliances, propane piping and tubing requirements, review of ventilation and combustion air, general requirements for appliance storage and handling, filling cylinders, locating and storing propane tanks, accessories and equipment; transports, tank trucks and the transportation of propane, propane as an engine fuel, vaporizers, indirect and direct fired cylinder systems for highway mobile vehicles, basic domestic gas burner controls and heating systems as well as domestic hot water heaters.
Mon. and Wed. 6:30 to 9:30 p.m.
Casa Loma Campus
90 hours Fee: $135.00
September 19 to January 16 • **HT 919**

Propane (Plant Operator 3)

Provides the necessary knowledge of propane to write the Fuels Safety Branch Plant Operators licence. Topics covered include: properties of propane, safety procedures, filling propane containers and propane powered vehicles, and maintenance of the filling plant.
Tues. and Thurs. 6:30 to 9:30 p.m.
Casa Loma Campus
6 hours Fee: $20.50
September 20 to 22 • **HT 921**

Plumbing

Plumbing Basic

An introduction to the theory and practice of domestic plumbing. Includes an examination of such topics as: materials and fittings, correct procedure for measuring pipe lengths, trapping and venting plumbing fixtures, and plumbing design for single family dwellings. Practical demonstrations and hands-on experience with commonly used pipe materials and tools are included.
Mon. and Wed. 6 to 9 p.m. Casa Loma Campus
60 hours Fee: $90.00
September 19 to November 28 • **PLUM 900**

Plumbing Qualification

A refresher course in general plumbing theory to help prepare for writing the certificate of qualification examination. Due to the broad scope of the course, topics are not covered in great depth. The student should be familiar with trade terminology and practices.
Tues. and Thurs. 6 to 9 p.m. Casa Loma Campus
60 hours Fee: $90.00
September 20 to November 24 • **PLUM 902**

Plumbing Design and Installation

Prerequisite: Ontario Certificate of Qualification in Plumbing.
A comprehensive review of the areas that candidates for master's licences should be familiar with. Specific subjects covered: pertinent labour legislation, discounts, overhead and profit, material take-off, the provincial Plumbing Code, and considerable practice in the drawing of drain plans and stack elevations together with the sizing of the piping.
Tues. and Thurs. 6 to 9 p.m. Casa Loma Campus
60 hours Fee: $90.00
September 20 to November 24 • **PLUM 904**

Propane Gas

This course provides the student with the necessary background in trade theory and practice to write the Fuel Safety Branch Propane Gas Fitter "S3" Licence Examination.
Properties of propane gas, basic requirements for field approved appliances, propane piping and tubing requirements, review of ventilation and combustion air, general requirements for appliance storage and handling, cylinder filling, location and storage, propane tanks, accessories and equipment, transports, tank trucks and the transportation of propane, propane as an engine fuel, vaporizers, indirect and direct fired cylinder systems for highway mobile vehicles, basic domestic gas burner controls and heating system, domestic hot water heaters.
Tues. and Thurs. 6 to 9 p.m. Casa Loma Campus
60 hours Fee: $90.00
September 20 to November 24 • **AP 902**

Appliance Servicing

Appliance Servicing Part I (Electrical Fundamentals and Ranges)

Provides a basic background in electrical theory and practice as applied to major appliances with the emphasis on electrical ranges. Topics covered include: the nature of electricity, basic electrical quantities, Ohm's Law and its application, electrical circuits, magnetism and electromagnetism, electrical circuitry and fault finding, motors, power and heating effects, electrical measuring instruments, various switching devices, and the theory and test procedures of conventional ranges.
Tues. and Thurs. 6 to 9 p.m. Casa Loma Campus
60 hours Fee: $90.00
September 20 to November 24 • **AP 903**

Appliance Servicing Part II (Domestic Refrigeration)

Provides a basic background in the theory and practical repair of the following: domestic refrigerators, freezers, window air conditioners, evaporators, compressors, condensors, and electric motor controls. Other topics include: the compression system of refrigeration, refrigerants, liquid feed devices, defrosting methods, food preservation, evacuating and charging, conditioners, circuit tracing, fault finding, service and analysis.
Tues. and Thurs. 6 to 9 p.m. Casa Loma Campus
60 hours Fee: $90.00
September 20 to November 24 • **AP 904**

Appliance Servicing Part III (Laundry Equipment)

Prerequisite: AP 903 — Appliance Servicing Part I or equivalent.
Learn the theory and operation of automatic washers, dryers and dishwashers plus how to find faults, make repairs, trace circuits and conduct a service analysis.
Mon. and Wed. 6 to 9 p.m. Casa Loma Campus
60 hours Fee: $90.00
September 19 to November 28 • **AP 905**

Microwave Ovens

Review of basic electricity including emphasis on: relays, transformers, capacitors. Introduction to basic solid state electronics including: diodes – varistors, S.C.R.s – surge resistors, triacs, transistors, magnetrons, high voltage circuitry, control circuitry, variable power, door interlocks, electromagnetic spectrum, properties of microwaves and their reaction with various materials, oven cavity construction, door construction, chokes and door seals, stirrers, turntable, blowers, safety procedures, service procedures, use of survey meters for leakage testing, basic microwave cooking.
Mon. and Thurs. 6 to 9 p.m. Casa Loma Campus
24 hours Fee: $36.00
September 19 to October 17 • **AP 909**

Refrigeration

Refrigeration — Part I

Learn the fundamentals and principles of refrigeration, including: the compression system of refrigeration, properties of refrigerants, metering devices, expansion valves, evaporators, condensors, compressors, flow equipment, electric controls and control valves, lubrication, troubleshooting, demonstrations of silver brazing in the shop, evacuating and charging, plus other service tips.
Mon. and Wed. or Tues. and Thurs. 6 to 9 p.m.
Casa Loma Campus
60 hours Fee: $90.00
September 19 or 20 to November 28 or 24
• **REF 900**

Refrigeration – Part II

Prerequisite: REF 900 — Refrigeration — Part I or equivalent experience.
After a review of the fundamentals, topics covered include: electricity as applied to basic circuits and components, defrosting methods, time clocks, compressor drives, test instruments and their use, piping, temperature and pressure control, applications of refrigeration, humidity control, cold storage, basic psychrometric analysis, secondary refrigerants, liquid cooling, heating and cooling thermostats, trade safety; motor starting including relays, starters and contractors and, motor overload protection.
Tues. and Thurs. 6 to 9 p.m. Casa Loma Campus
90 hours Fee: $135.00
September 20 to January 12 • **REF 911**

Refrigeration — Part III

Prerequisite: REF 911 — Refrigeration — Part II.
Covers the following topics: rooftop condensors, piping systems, chillers, heat pumps, symbols, starters and contactors, packaged units, humidifiers, dehumidifiers, electronic and curtain air cleaning equipment, odor control, load calculations, commercial air conditioning, psychrometric analysis, selecting equipment, control circuitry, troubleshooting, safety, and an introduction to pneumatic systems.
Tues. and Thurs. 6:30 to 9:30 p.m.
Casa Loma Campus
90 hours Fee: $135.00
September 20 to January 12 • **REF 902**

Carpentry

Carpentry for the Homeowner — Basic

Learn to operate the common hand and power tools used at home plus carpentry methods and materials required to maintain your home or cottage.
Mon. 7 to 10 p.m. Casa Loma Campus
30 hours Fee: $72.50
September 19 to November 28 • **CAR 901**

Carpentry for the Journeyman

Prerequisite: Employment in the carpentry trade. Approximately 20 hours of classroom theory and 40 hours of practical work covering the following topics: framing a roof, equal pitch, the basics of building stairs, and the Building Code.
Wed. 7 to 10 p.m. Casa Loma Campus
60 hours Fee: $90.00
September 21 to February 15 • **CAR 902**

Masonry

Bricklaying

Learn all about the tools, equipment and materials used by bricklayers as well as the types, sizes and characteristics of bricks. The types and preparation of mortars using various bonding agents in all weather are also covered as well as the layout of walls, pilasters and piers using various bonds.
Mon. and Wed. or Tues. and Thurs. 7 to 10 p.m.
Casa Loma Campus
60 hours Fee: $90.00
September 19 or 20 to November 28 or 24
• **MAS 900**

Sheet Metal

Sheet Metal Design and Installation

Prerequisite: Currently employed in the sheet metal industry with journeyman standing.
Designed for those preparing to be master sheet metal workers. Topics covered include: labour legislation in relation to the construction industry, city bylaws, underwriters, definitions of heating and air conditioning terms, use of H.R.A. and A.C.A. manuals for heat loss and heat gains, pipe sizing, locating outlets and inlets in residential installation, types of fans, air flow and types of instruments used, calculating ventilation requirements, heating and pipe sizing by velocity, and the use of charts and tables.
Tues. and Thurs. 7 to 10 p.m.
Casa Loma Campus
60 hours Fee: $90.00
September 27 to December 1 • **SM 903**

Sheet Metal — Phase I

Covers the following topics in both layout and shop practice: rectangular ducts, fish lock collars, black ends, duct elbows, duct offsets, roof ventilators, and both three and five-piece elbows.
Mon. or Wed. 7 to 10 p.m. Casa Loma Campus
60 hours Fee: $90.00
September 26 or 28 to February 27 or 22
• **SM 908**

Sheet Metal Pattern Drafting

An introduction to the basic principles of pattern drafting required by an apprentice. Using the triangular method, learn to make the following: regular and irregular tapers, square to round and other transition pieces, tapered elbows of different sections, streamlined fittings, and double and multiple branches of different sections.
Tues. 7 to 10 p.m. Casa Loma Campus
30 hours Fee: $45.00
September 27 to November 29 • **SM 911**

Sheet Metal — Phase III

Covers the following techniques: square to round on centre – sloping base and sloping top, square to round off centre – sloping base and sloping top, square to round three piece 90 degrees – on centre and off centre, Y branch – round main to square branch pipes, Y branch – flat on one side, cylindrical pipe intersecting a conical pipe – off centre, cylindrical tapered 90 degrees elbow – off centre, and streamlined Y branch – two branch and three branch pipes.
Wed. 7 to 10 p.m. Casa Loma Campus
60 hours Fee: $90.00
September 28 to February 22 • **SM 910**

Sheet Metal — Phase II

Covers the following topics in sheet metal layout and practice: drop-cheek elbow, transition duct offsets, horizontal and vertical branches, and conical tees both 90 degrees and 45 degrees on centre.
Tues. or Wed. 7 to 10 p.m. Casa Loma Campus
60 hours Fee: $90.00
September 27 or 28 to February 21 or 22
• **SM 909**

Stationary Engineering

The Stationary Engineering courses are divided into modules which cover the material needed to write the ministry examinations for accreditation towards a certificate. However, enrolment in any of these courses does not automatically entitle the student to write the ministry examinations. It is the responsibility of the student to determine eligibility with the Ministry of Colleges and Universities. Additional modules are offered in the winter and spring terms.

Power Plant Applied Science — 1st Class

Course Content: This course covers the following topics: Mathematics (IV); Physics (IV); Thermodynamics (IV).

Thurs. 6 to 9 p.m. Casa Loma Campus
45 hours Fee: $67.50
September 15 to December 22 • **STAT 911**

Power Plant Chemistry — 2nd Class

Topics covered include: Fuel Systems and Combustion (III) and Water Treatment (III).
Mon. and Wed. 6 to 9 p.m. Casa Loma Campus
33 hours Fee: $49.50
September 19 to October 26 • **STAT 922**

Power Plant Boilers and Auxiliaries — 2nd Class

Topics covered include: Steam Boilers (III), Steam Plant Auxiliary Equipment (III), and Enforcement of Safety Acts, Codes and Regulations (I).
Mon. and Wed. 6 to 9 p.m.
Casa Loma Campus
36 hours Fee: $54.00
November 14 to December 21 • **STAT 923**

Power Plant Chemistry — 3rd Class

Topics covered include: Fuel Systems and Combustion (II) and Water Treatment (II).
Mon. and Wed. 6 to 9 p.m.
Casa Loma Campus
21 hours Fee: $31.50
September 19 to October 12 • **STAT 932**

Power Plant Boilers and Auxiliaries — 3rd Class

Topics covered include: Steam Boilers (II) and Steam Plant Auxiliary Equipment (II).
Mon. and Wed. 6 to 9 p.m.
Casa Loma Campus
42 hours Fee: $63.00
October 24 to December 7 • **STAT 933**

Power Plant Chemistry — 4th Class

Topics covered include: Chemistry (I), Fuel Systems and Combustion (I) and Water Treatment (I).
Tues. and Thurs. 6 to 9 p.m.
Casa Loma Campus
30 hours Fee: $45.00
September 20 to October 20 • **STAT 942**

Power Plant Boilers and Auxiliaries — 4th Class

Topics covered include: Steam Boilers (I), Steam Plant Auxiliary Equipment (I) and Plant Services (I).

Tues. and Thurs. 6 to 9 p.m.
Casa Loma Campus
42 hours Fee: $63.00
November 1 to December 15 • **STAT 943**

Coatings Technology

Chemical Technician — Coating

The following courses are approved and certified jointly by George Brown College and the Toronto Society for Coatings Technology. The courses are designed to be taken separately. Credits may be accumulated towards the Chemical Technician Coatings certificate.
For more information about the Coatings Technology program, call Fred Mitchell or Ishwar Dean, 967-1212, ext. 3371.

Organic Coatings

After a general introduction, topics covered include: oils, solvents, pigments, natural and synthetic resins, driers and additives; the formulation, formation and structure of coating films, lacquers, and varnishes, trade sales, solvent-based and water-borne coatings, corrosion and chemical resistance, powder coatings, specialty coatings, inks, surface preparation, and methods of dispersion and application.
Thurs. 7 to 10 p.m. St. James Campus
60 hours Fee: $90.00
September 8 to January 26 • **COAT 100X**

Plastic Materials

Examine the types, properties, structure, application, identification, degradation and stabilization of plastics. Other topics covered include: polymer chemistry, additives and reinforcements, and rheology.
Mon. 7 to 10 p.m. St. James Campus
45 hours Fee: $67.50
September 26 to January 16 • **PL 906**

Polymer Chemistry

Examine the structure of the following: organic molecules, saturated and unsaturated hydrocarbons, aromatic hydrocarbons, halogen compounds, alcohols, phenols, ethers, aldehydes, ketones, carboxylic acids and their derivatives, amines and other nitrogen compounds, sulphur compounds, and lipids.
Wed. 7 to 10 p.m. St. James Campus
45 hours Fee: $67.50
September 28 to January 18 • **CHEM 210X**

Resins "A"

Course Content: Chemical structure of raw materials formulating resins to achieve specified properties, additives, condensation-addition polymerization, curing mechanisms, compounding, Patton K factor, properties of uncured and cured resins, advantages and disadvantages of each resin, applications in coatings and related industries.
Fri. 7 to 10 p.m. St. James Campus
45 hours Fee: $67.50
September 30 to January 20 • **COAT 204X**

Resins "B"

Raw materials, manufacturing method types, properties, chemistry curing, formulating for special properties, characterisation, analysis and applications in coatings of polyurethanes, acrylics and emulsions.
Tues. 7 to 10 p.m. St. James Campus
45 hours Fee: $67.50
September 27 to January 17 • **COAT 903**

Mathematics

Prerequisite: Grade 12 mathematics.
Algebraic operations, factoring linear and quadratic equations, functions and graphs, trigonometry, solution of right angle and oblique triangles. Emphasis will be given to areas of mathematics specifically related to the coatings industry.
Fri. 7 to 10 p.m. St. James Campus
60 hours Fee: $90.00
September 16 to February 10 • **MATH 149X**

Electro-Mechanical

Certificate in Digital and Microprocessor Techniques

The Electro-Mechanical Department is offering a part-time certificate program in Digital and Microprocessor Techniques.
The program comprises six compulsory courses and three electives and is designed for those who wish to acquire a working knowledge of microprocessors. It is of particular interest to electronics technicians. However, anyone holding a Secondary School Graduation Diploma with grade 12 Math and English (or equivalent) with a background in basic electronics and transistors can register.
Students are expected to complete the program in three years. Students may apply for credits for program subjects taken at George Brown College or other institutions. For students proceeding to a certificate, the College grading system will apply.

Interviews
Students enrolling in the program initially and seeking exemptions must be interviewed by the Electronics Department at St. James Campus, 200 King St. E.

FALL 1988
Wednesday, Sept. 7, 6 to 8 p.m.
Wednesday, Sept. 28, 6 to 8 p.m.

WINTER 1989
Wednesday, Jan. 4, 6 to 8 p.m.
Wednesday, Jan. 11, 6 to 8 p.m.
Students who are unable to attend on the above-mentioned dates due to extenuating circumstances, may request an interview to be held during the following times:

FALL 1988
Sept. 7 to 14, 2 to 3 p.m.

WINTER 1989
Jan. 4 to 11, 2 to 3 p.m.
To make an appointment, please call 967-1212, ext. 3340.

Optional Lab Fees
In some courses, it may be beneficial for the student to borrow the College training kit for in-home practice for the duration of the course. In this case, an optional lab fee of $150.00 is charged and will be refunded less a user fee of $ 30.00 if the kit is returned in working condition.

Total number of Courses:
6 Compulsory; 3 Electives

Compulsory Courses:
ELTC 925 – Digital Principles
ELTC 926 – Digital Principles Advanced
ELTC 927 – Troubleshooting Digital Circuits
ELTC 928 – Introduction to Microprocessors and Microcomputers
ELTC 929 – Principles of Microcomputer Interfacing
ELTC 930 – Troubleshooting Microprocessor—based Systems

Elective Courses:
ELTC 931 – Interfacing Techniques Advanced
ELTC 932 – Microcomputer Systems Software
ELTC 933 – Microcomputers in the Analogue World
ELTC 934 – Microcomputers and Process Control
ELTC 935 – Microcomputers in Industrial Control
ELTC 936 – Microcomputers and Data Communication
ELTC 940 – Introduction to MC 68000 Microprocessors
ELTC 941 – Floppy disk drives; Theory and Maintenance
ELTC 942 – Introduction to Computer Aided Design (Electronics)
ELTC 943 – Introduction to Artificial Intelligence (AI)
The electives are offered at the discretion of the Electronics Department.

Electronics

Electronic Fundamentals (Part II)

Prerequisite: ELTC 939 — Electronic Fundamentals and Instrumentation Applications (Part I).
Topics covered include: transducers, vacuum tube operation, basic power supplies, electronic meters, cathode ray tubes, oscilloscopes, power transfer, impedance matching, atomic structure of semiconductors, diode junction, avalanche and Zener breakdown, junction transistors, transistor amplifier coupling methods, power amplifiers, transistor oscillators, plus FET and UJT semiconductor data sheets.
Tues. and Thurs. 6:30 to 9:30 p.m.
St. James Campus
60 hours Fee: $90.00 Material Fee: $20.00
Laboratory Fee: $20.00
October 6 to December 13 • **ELTC 901**

Video Tape Records Theory and Maintenance

Prerequisite: Fundamental knowledge of television theory.
A discussion of the principles of video tape recorders (VTR) and video cassette recorders (VCR), including their basic requirements and limitations to conform to television standards. Other topics covered include: block diagrams and circuit analysis of the modulation channel, demodulation channel, colour signal recording principles; the servo operations of the head drum and capstan in normal, slow motion and freeze modes, control section functions, transport mechanism, principles of adjustment and operation, time base correction (TBC), editing and time code applications, types and characteristics of magnetic tape, maintenance procedures, performance specifications and evaluation testing.
Mon. 6:30 to 9:30 p.m. St. James Campus
60 hours Fee: $90.00 Material Fee: $10.00
October 17 to March 13 • **ELTC 912**

Fibre Optics in Communications

Topics covered include: the optical fibre, types of fibre and cables, propagation through fibres, mode studies within fibres, numerical aperture, attenuation, bandwith, joining fibres, cleaving, polishing and cut end, couplers and connectors, splicing fibres, optical time domain reflectometer, electrical optical sources, LED and LASED diodes, coupling, power output, frequency characteristics, system and circuit considerations, and the types, advantages, applications and coupling of photo detectors.
Wed. 6:30 to 9:30 p.m. St. James Campus
30 hours Fee: $45.00 Material Fee: $25.00
October 12 to December 14 • **ELTC 924**

Digital Principles

Prerequisite: Basic Electronics and Transistor Theory.
Theory is reinforced through practical laboratory experiments. Topics covered include: binary systems and codes, gates, flip flops, counters, serial and parallel registers, encoders and decoders.
Equivalents: ELTC 906 and ELTC 920.
Mon. 6:30 to 9:30 p.m. St. James Campus
30 hours Fee: $45.00 Material Fee: $25.00
October 17 to December 19 • **ELTC 925**

Digital Principles (Advanced)

Prerequisite: ELTC 925 — Digital Principles.
Theory is reinforced through practical laboratory experiments. Topics covered include: wired or open collector, tri-state logic, multiplexing, demultiplexing, digital comparators, adders, memory circuits, MSI and LSI, programmable logic and gate arrays.
Equivalent: ELTC 920.
Wed. 6:30 to 9:30 p.m. St. James Campus
30 hours Fee: $45.00 Material Fee: $25.00
October 12 to December 14 • **ELTC 926**

Troubleshooting Digital Circuits

Prerequisites: ELTC 925 — Digital Principles and ELTC 926 — Digital Principles (Advanced).
Theory is reinforced through practical laboratory experiments and troubleshooting exercises on digital systems. Topics covered include: manufacturers' specifications for TTL, CMOS and ECL, the use of logic probes, current probes, and oscilloscopes.
Tues. 6:30 to 9:30 p.m. St. James Campus
30 hours Fee: $45.00 Material Fee: $25.00
October 4 to December 6 • **ELTC 927**

Introduction to Microprocessors and Microcomputers

Prerequisites: ELTC 926 — Digital Principles (Advanced).
Theory is reinforced through practical laboratory experiments. Topics covered include: microprocessor architecture, machine language programming, instruction sets, addressing modes, and I/O programming, all based on the MC6800 MPU. For an optional lab fee deposit of $150.00, students can have a MPU trainer for use at home for the duration of the course. A refund of $120.00 is given if the trainer is returned in working order.
Equivalents: ELTC 906A, ELTC 917, ELTC 921. Certification program.
Tues. 6:30 to 9:30 p.m. St. James Campus
30 hours Fee: $45.00 Material Fee: $25.00
October 4 to December 6 • **ELTC 928**

Principles of Microcomputer Interfacing

Prerequisite: ELTC 928 — Introduction to Microprocessors and Microcomputers.
Theory is reinforced through practical laboratory experiments. Topics covered include: components and tasks of an interface, programmed I/O, principles of program interrupt, display multiplexing, keyboard scanning, writing a simple monitor program, and ASC II keyboards.
Equivalent: ELTC 918.
Wed. 6:30 to 9:30 p.m. St. James Campus
30 hours Fee: $45.00 Material Fee: $25.00
October 12 to December 14 • **ELTC 929**

Troubleshooting Microprocessor-based Systems

Prerequisites: ELTC 927 — Troubleshooting Digital Circuits and ELTC 929 — Principles of Microcomputer Interfacing.
Includes practical troubleshooting exercises on the lab microcomputers. Other topics covered include: static testing techniques with the processor halted, dynamic testing techniques with the processor running, in-circuit emulation, logic analyzers, and signature analysis.
Equivalent: None.
Wed. 6:30 to 9:30 p.m. St. James Campus
30 hours Fee: $45.00 Material Fee: $25.00
October 12 to December 14 • **ELTC 930**

Interfacing Techniques (Advanced)

Prerequisite: ELTC 929 — Principles of Microcomputer Interfacing.
Theory is reinforced through practical laboratory experiments. Topics covered include: interfacing for video terminals, cassette tape, floppy disks and printers, and interface standards.
Wed. 6:30 to 9:30 p.m. St. James Campus
30 hours Fee: $45.00 Material Fee: $25.00
October 12 to December 14 • **ELTC 931**

Microcomputer Systems Software

Prerequisite: ELTC 931 — Interfacing Techniques (Advanced).
Theory is reinforced through practical laborarory experiments. Topics covered include: introduction to the MS-DOS operating system; the internal commands; formatting and copying of disks; control characheers; system and non-system disks; batch processing; utility and application programs such as word processing, spreadsheets, database and graphs.
Thurs. 6:30 to 9:30 p.m. St. James Campus
30 hours Fee: $45.00 Material Fee: $25.00
October 6 to December 8 • **ELTC 932**

Microcomputers in the Analogue World

Prerequisite: ELTC 929 — Principles of Microcomputer Interfacing.
Topics covered include: analogue to digital conversion techniques, principles of data acquisition, the use of the microcomputer for data logging and analysis, and intelligent plotters.
Thurs. 6:30 to 9:30 p.m. St. James Campus
30 hours Fee: $45.00 Material Fee: $25.00
October 6 to December 8 • **ELTC 933**

Microcomputers and Process Control

Prerequisite: ELTC 933 — Microcomputers in the Analogue World.
Theory is reinforced through practical laboratory experiments.
Topics covered include: feedback control principles, on/off proportional, proportional plus reset, proportional plus rate, programmable controllers, and transducers.
Equivalent: None.
Thurs. 6:30 to 9:30 p.m. St. James Campus
30 hours Fee: $45.00 Material Fee: $25.00
October 6 to December 8 • **ELTC 934**

Microcomputers and Data Communications

Prerequisite: ELTC 929 — Principles of Microcomputer Interfacing.
Topics covered include: principles of data communication, base band system principles, digital modulation, ASK, FSK, PSK, error control coding, and local area network service (LANS).
Tues. 6:30 to 9:30 p.m. St. James Campus
30 hours Fee: $45.00 Material Fee: $25.00
October 4 to December 6 • **ELTC 936**

VTR/VCR Theory and Practices (Advanced)

Prerequisite: ELTC 912 — VTR/VCR Theory and Maintenance.
After a review of video tape recording formats, topics covered include: standards, processing signals, analyzing recording and playback channels, using comb filters, noise reduction and video enhancement techniques, analogue and digital servo controls, applications of time base correction (TBC), time code longitudinal and vertical interval (VIT) recordings, the principles of editing video tape, subcarrier to horizontal timing (SCH) and frame selection.
Tues. 6:30 to 9:30 p.m. St. James Campus
30 hours Fee: $45.00 Material Fee: $25.00
October 4 to December 6 • **ELTC 938**

Electronic Fundamentals and Instrumentation Applications (Part I)

Prerequisite: Ontario grade 10 or equivalent, with level 4 in Mathematics and English.
Topics covered include: energy, electricity, resistors and conductors, cells and batteries, voltage, current and resistance, Ohm's Law, electric power, D.C. circuits, Kirchoff's Law, capacitors, electromagnets, inductors and induction, Lenz's Law, A.C. source, vectors, reactance, impedance, resonance, A.C. power, electric meters, transformers, resonant circuits, A.C. circuits, the wheatstone bridge, potentiometric circuits, thermo-electricity, transducers, strain gauges, variable inductors, variable reluctance, variable capacitance, linear variable transformers, current to air and voltage to air transducers.
Mon. and Wed. 6:30 to 9:30 p.m.
St. James Campus
84 hours Fee: $126.00 Materials $20.00
Laboratory Fee: $20.00
September 12 to December 19 • **ELTC 939**

Introduction to MC 68000 Series Microprocessors

Prerequisite: ELTC 928 — Introduction to Microprocessors or equivalent.
Topics covered include: MC 68000 architecture; data sheets; addressing modes; writing and evaluating simple programs; interrupts; delay routines. Theory is reinforced through practical laboratory experiments.
Thurs. 6:30 to 9:30 p.m.
St. James Campus
30 hours Fee: $45.00 Material Fee: $25.00
October 6 to December 8 • **ELTC 940**

Floppy Disk Drives; Theory and maintenance

Prerequisite: ELTC 931 — Interfacing Techniques (Advanced) or equivalent.
Topics covered include: basic specifications; electrical interface; physical interface; theory of operation; maintenance; diagnostic techniques; adjustments and alignment procedures. Theory is reinforced by practical laboratory experiments.
Mon. 6:30 to 9:30 p.m.
St. James Campus
30 hours Fee: $45.00 Material Fee: $25.00
October 17 to December 19 • **ELTC 941**

Introduction to Computer Aided Design (Electronics)

Prerequisite: ELTC 932 — Microcomputer Systems Software.
Topics covered include: introduction to micro-cap II; interactive analog circuit drawing; simulation of the system; the running of DC and AC transient models. Theory is reinforced by practical laboratory experiments.
Thurs. 6:30 to 9:30 p.m.
St. James Campus
30 hours Fee: $45.00 Material Fee: $25.00
October 6 to December 8 • **ELTC 942**

Electrical

Electrical Apprentice Review

Designed for apprentices in their final term who expect to write the qualifying examination sometime within the year. Covers the theory, codes and equipment discussed throughout apprenticeship training.
Mon. and Wed. 6:30 to 9:30 p.m.
Casa Loma Campus
60 hours Fee: $90.00 Materials: $5.00
September 12 to November 21
November 28 to February 15 • **EL 900**

Estimating for the Electrical Trade

Prerequisite: Journeyman electrician, fifth term apprentice or equivalent.
Topics covered include: plan analysis, takeoff procedure, transferring and pricing, labour units, installation only projects, adjustments for working conditions, cable pulls, pull boxes, labour cost variables, non-productive labour, incidental and direct job cost, and electric heating loads.
Mon. and Wed. 6:30 to 9:30 p.m.
Casa Loma Campus
60 hours Fee: $90.00 Materials: $5.00
October 3 to December 12 • **EL 901**

Hydro-Electric Power Commission Regulations (Master Electrician)

Prerequisite: Journeyman electrician or fifth term apprentice.
Preparation for the examination leading to a certificate of qualification and master education.
Topics covered include: use of the code book, application of regulations and tables, and electrical installation calculations relevant to code regulations and tables.
Tuès. and Thurs. 6:30 to 9:30 p.m.
Casa Loma Campus
60 hours Fee: $90.00 Materials: $10.00
October 4 to December 8 • **EL 902**

Electrical Fundamentals — A.T.E.C. Program

Prerequisite: MATH 100.
Topics covered include: basic electrical concepts, simple D.C. circuits, power magnetism, electromagnetism, magnetic circuits, D.C. and A.C. measuring instruments, electrical measurements, induction, capacity, alternating current, resistance, impedance, and power in A.C. circuits.
Mon. and Thurs. 6:30 to 9:30 p.m.
Casa Loma Campus
60 hours Fee: $90.00 Materials: $10.00
October 3 to December 12 • **EL 905**

Programmable Controllers — Part I

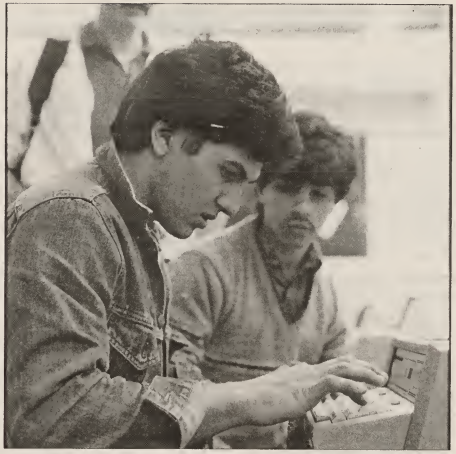
Prerequisite: Logic Course or equivalent technician/technologist diploma elecectrical/electronics.
Theory and practical shop work covering the following topics: applications and uses of the P.L.C. in industry; review of various number codes used in the P.L.C.; selection of input and output modules; using computers to program the P.L.C.; on line/off line documentation; programming instructions including timers, counters and data manipulation; troubleshooting, system maintenance and installation; an introduction to analog applications.
The above topics are taught on an IBM compatible computer using the ICOM PLC-2 language in conjunction with the PLC2/05 processor.
Thurs. 6:30 to 9:30 p.m. Casa Loma Campus
30 hours Fee: $45.00 Materials: $10.00
October 6 to December 8 • **EL 922**

Electrical Construction and Maintenance I

Prerequisite: Grade 10 math or equivalent.
Topics covered include: Ohm's Law, series and combination circuits, two-wire distribution, line loss, power efficiency, wire calculations, batteries, magnetism, electromagnetism, induction, three-wire distribution, and the Hydro-Electric Power Commission Regulations.
Mon. and Wed. 6:30 to 9:30 p.m.
Casa Loma Campus
60 hours Fee: $90.00 Materials: $5.00
October 3 to December 12 • **EL 907**

Electrical Construction and Maintenance II

Prerequisite: EL 907 or the equivalent.
Course Content: electromagnetism, induction, D.C. generators, generator set-up and operation, D.C. motor, motor operation and controls; Hydro-Electric Power Commission Regulations.



Tues. and Thurs. 6:30 to 9:30 p.m.
Casa Loma Campus
60 hours Fee: $90.00 Materials: $5.00
October 4 to December 8 • **EL 908**

Electrical Construction and Maintenance III

Prerequisite: EL 908 — Electrical Construction and Maintenance II or equivalent.
Topics covered include: A.C. fundamentals, vectors, single-phase transformers, single-phase motors, three-phase motors, three-phase transformers, auto-transformers, and the Hydro-Electric Power Commission Regulations.
Tues. and Thurs. 6:30 to 9:30 p.m.
Casa Loma Campus
60 hours Fee: $90.00 Materials: $5.00
October 4 to December 8 • **EL 909**

Industrial Electronic Controls (Part I)

Prerequisite: Journeyman electrician, fifth term apprentice or equivalent.
Theory and practical shop work covering the characteristics, operation and basic applications of semiconductor diodes, zener diodes, bipolar transistors, transistor biasing, phototransistors, field effect transistors, MOS.FET transistors, unijunction transistors, thyristors and thermistors.
Tues. and Thurs. 6:30 to 9:30 p.m.
Casa Loma Campus
60 hours Fee: $90.00 Materials: $8.00
October 4 to December 8 • **EL 910**

Industrial Electronic Controls (Part II)

To be offered January 1989. • **EL 911**

Industrial Electronic Controls (Part III)

Prerequisites: EL 911 — Industrial Electronic Controls (Part II) and a good knowledge of algebra.
Theory and practical shop work covering the following topics: an introduction to digital techniques, number systems, semiconductor devices for digital circuits, the operation and application of basic logic gates, bulean algebra, digital integrated circuits, and the operation and application of flip flops, counters, timing circuits, shift registers, decoders and encoders.
Mon. and Wed. 6:30 to 9:30 p.m.
Casa Loma Campus
60 hours Fee: $90.00 Materials: $5.00
October 3 to December 12 • **EL 912**

Programmable Controllers for Electricians

Prerequisite: EL 912 — Industrial Electronic Controls (Part III) or Journeyman Electrician or Fifth Term Electrical Apprentice.
This hands-on course is intended for Journeyman Electricians or senior apprentices and includes practical applications of programmable controllers, programming techniques, and troubleshooting.
Theory includes such topics as: ladder diagram language, P.L.C. instruction summary, program-

ming examples, documentation systems, installation methods and procedures, maintenance and testing, as well as protocol and interfacing techniques.
Mon. and Wed. 6:30 to 9:30 p.m.
Casa Loma Campus
48 hours Fee: $72.00
September 7 to November 2
January 30 to March 22 • **EL 921**

Electrical Pre-Exam

Designed for journeymen seeking interprovincial standards and those referred by the ministry on provisional certificates. Covers the theory, codes and equipment discussed throughout apprenticeship training.
Mon. and Wed. 6:30 to 9:30 p.m.
Casa Loma Campus
60 hours Fee: $90.00 Materials: $5.00
September 12 to November 21
November 28 to February 15 • **EL 950**

Electrical Blueprint Reading

Prerequisite: Electrical apprentice, electrician or anyone employed in the electrical construction and maintenance industry.
Topics covered include: printing, architect's scale, residential drawings, construction drawings, architectural drawings, structural drawings, concrete drawings, mechanical drawings, electrical drawings, layout drawings, as-built drawings, schematic drawings, specifications, material take-off, material order, time sheets, inspection and equipment take-off.
Mon. and Wed. 6:30 to 9:30 p.m.
Casa Loma Campus
60 hours Fee: $90.00 Materials: $15.00
October 3 to December 12 • **ELDR 612X**

Power Plant Electrical Shop

Prerequisite: Basic electrical theory or equivalent.
A hands-on introduction to basic electrical maintenance procedures needed to maintain the equipment commonly found in a registered fourth-class stationary power plant.
Tues. 6 to 10 p.m. Casa Loma Campus
60 hours Fee: $90.00 Materials Fee: $65.00
September 13 to December 20 • **EL 128X**

Mouldmaking

Mouldmaking: Plastics

Prerequisite: Background in machining or design.
An introduction to plastics, the processes and design of plastic products. Other topics covered include: types of moulds, mouldmaking equipment, materials for constructing moulds, die-cast and transfer moulds, basic injection three-plate and hot runner moulds, runners and gates, heating and cooling moulds, heat treatment and surface finishes, a course review and an examination.
Tues. and Thurs. 6 to 9 p.m. Casa Loma Campus
30 hours Fee: $45.00
October 4 to November 3 • **MACH 912**

Machine Shop

Machinist Basic

Prerequisite: Grade 10 with an interest in machine shop.
This theoretical course is a review of the basic level theory course in the Machinist Apprentice Program and includes such topics as safety, lathe, hand tools, bench tools, measurement, layout, heat treatment, band saw, drill press, milling machines and surface grinders.
Mon. and Wed. 6:30 to 9:30 p.m.
Casa Loma Campus
60 hours Fee: $90.00
September 12 to December 16 • **MACH 913**

Plastics Processing Equipment Mechanic

George Brown College, in cooperation with the Society of Plastics Industries, has developed the Plastic Processing Equipment Mechanic program. This program is divided into courses and certificates to make it more convenient for people wishing part-time upgrading in the evening.
All successfully completed courses count as credits towards the various levels of certificates listed below.
Basic certificate — Prerequisite: Related industrial experience.
Intermediate certificate — Prerequisite: Basic certificate.
Advanced certificate — Prerequisite: Intermediate certificate.
Certificates are comprised of the following courses:
Fluid Power, Electricity, Blueprint Reading, Mechanical Maintenance I, Electronics, Mechanical Maintenance II, Quality Control Mould Maintenance, Moulding Technology, Business Orientation, Programmable Controls and Trade Calculations.
Trade Calculations (MATH 605) is not compulsory but is a good review of basic mathematical principles for those with a weak background in the subject.
For further information, phone 967-1212, ext. 2243.

Course offered this semester:

Fluid Power

Prerequisite: MATH 605 — Trade Calculations or equivalent.
A hands-on introduction to pneumatic and hydraulic circuitry as used in moulding and packaging machines. Learn to understand, troubleshoot and maintain pneumatic and hydraulic circuits through work on training panels.
Tues. and Thurs. 6 to 9 p.m. Casa Loma Campus
60 hours Fee: $90.00
October 4 to December 8 • **MILL 902**

Numerical Control

Computer Numerical Control I

Prerequisites: Knowledge of machine shop practices and grade 12 mathematics.
A hands-on course in numerical control programming that covers the following topics: the principles of numerical control, types of machines, coordinate systems, machine codes, canned cycles, sub-routines, tape preparation, plus setting-up and operating the machines. Class size is limited to give students maximum time with the equipment.
Mon 6 to 9 p.m. Casa Loma Campus
30 hours Fee: $162.00 Material Fee: $30.00
October 3 to December 12 • **NC 900**

A.P.T. I

Prerequisite: Minimum grade of "B" in NC 900 — Computer Numerical Control I or one year experience in manual programming.
An introduction to computer assisted part programming using C.N.C. three-axis machine tools. Topics covered include: language and geometry definitions, tool motion, simple macros, C.N.C. machining techniques, tape preparation, plus setting-up and operating the machine. Class size is limited to give students maximum time with the machines.
Sat. 9 a.m. to 3 p.m. Casa Loma Campus
48 hours Fee: $260.00 Material Fee: $40.00
October 15 to December 3 • **NC 904**

Computer Aided Manufacturing I

Prerequisite: Minimum grade of "B" in NC 904 — A.P.T.I.
An intensive hands-on introduction to computer aided manufacturing. Topics covered include: C.A.M. menu structures, N.C. modals, tool motions, profile and pocket routines, tool path edits, plotting and post processors. Small class size allows students to follow an individually paced program. Students have access to the C.A.M. Centre for the length of the course.
Tues. 6 to 9 p.m. Casa Loma Campus
30 hours Fee: $324.00 Material Fee: $50.00
October 4 to December 6 • **NC 908**

C.A.D.

Computer Aided Design I (Mechanical)

Prerequisites: Minimum of two years drafting experience and a good knowledge of drawing office math.
An intensive hands-on introduction to computer aided design drafting and the types and uses of different C.A.D. systems. Topics covered include: system commands, generating basic shapes, manipulating, dimensioning, representing in two and three dimensions, and plotting drawings. Students have access to the C.A.D. Centre resources for the length of the course.
Sat. 9 a.m. to 3 p.m. Casa Loma Campus
30 hours Fee: $324.00 Material Fee: $50.00
October 15 to November 19 • **NC 906**

Millwright

Mechanical Maintenance — Part I

Designed specifically for students interested in the basics of millwrighting, such as rigging, basic metallurgy, drilling, lathe turning, milling, grinding, and levelling machinery.
Tues. and Thurs. 6 to 9 p.m. Casa Loma Campus
60 hours Fee: $90.00
October 4 to December 8 • **MILL 900A**

Mechanical Maintenance — Part II

To be offered January 1989.• **MILL 900B**

Mechanical Maintenance — Part III

Designed specifically for those interested in fluid power. Instruction, lectures, demonstrations and assignments are given in the following subjects: electrical control, basic hydraulic and pneumatic circuitry, design, components, pumps, valves, cylinders, gas laws, plus installing and maintaining compressors.
Practical work involves piping and wiring, pneumatic and hydraulic test panels.
Mon. and Wed. 6 to 9 p.m. Casa Loma Campus
60 hours Fee: $90.00
October 3 to December 12 • **MILL 900C**

Practice Sessions — Welding and Fabrication

Short term practice sessions in various welding processes and the basics of fabrication can be arranged for those unable to take, or who do not require, a complete course. All enquiries should be directed to: Mr. G. Betts, Chairperson, Metal Fabrication, Technology Department, 967-1212 ext. 2243.

Welding Theory I

An introduction to the theoretical aspects of shielded metal arc welding (SMAW), oxy-acetylene welding (OAW), and oxy-fuel gas flame cutting (OFC).
Topics covered include: safety in SMAW, OAW, and OFC operations, the basic principles of different processes, operating different types of equipment, weldable/cutable metals, welding techniques, current types, polarity, cutting gases used, joint design, preparation and fit-up, control of distortion, etc.
Tues. 7 to 9 p.m. Casa Loma Campus
20 hours Fee: $30.00
September 20 to November 22 • **WELD 920**

Welding Theory II

To be offered January 1989.• **WELD 291**

Welding I — General

An introduction to the basic principles involved in both the shielded metal arc welding (SMAW) and oxy-acetylene (OAW) processes. Learn oxy-acetylene fusion welding of tee, lap, corner, and butt joints in the flat and horizontal positions. Also learn shielded metal arc welding of tee and lap joints in the flat and horizontal positions with E6010/11 and E6013 electrodes using single and multiple pass beads and weaves. Other topics covered include: safety precautions with SMAW and OAW equipment, cutting with manual oxy-acetylene equipment, and braze welding tee and lap joints in the flat position.
Mon. 6:30 to 9:30 p.m. Casa Loma Campus
60 hours Fee: $90.00
September 19 to February 20 • **WELD 922**

Welding II — General

Prerequisite: WELD 922 — Welding I — General or equivalent.
Builds on the work done in Welding I and introduces more advanced techniques using the shielded metal arc welding (SMAW) and oxy-acetylene welding (OAW) processes. Topics covered include: a review of WELD 922; oxy-acetylene welding of tee, lap, corner and butt joints in the vertical up position and cutting with manual oxy-acetylene equipment; braze welding of tee, lap and butt joints in the vertical up position; shielded metal arc welding of tee and lap joints in the horizontal and vertical up positions using multi-pass beads and weaves; welding corner, tee, lap and butt joints in the vertical down position on medium and light gauge mild steel. Electrodes used include E6010/11, E6013 and E7018.
Wed. 6:30 to 9:30 p.m. Casa Loma Campus
60 hours Fee: $90.00
September 21 to February 15 • **WELD 923**

Welding III — General

Prerequisites: WELD 922 — Welding I — General and WELD 923 — Welding II — General or equivalent experience.
Further develop and refine all-position welding skills using the shielded metal arc welding (SMAW) process. Learn shielded metal arc welding of tee, lap, and corner joints in all positions with the emphasis on multi-pass welding

Welding and Fabrication

The welding and fabrication courses outlined below are designed to develop specific practical welding or fitting skills. Appropriate theory specifically related to the use of equipment and the techniques involved in the development of these skills is included in each course. For those interested only in the theoretical aspects of welding and flame cutting, the two courses Welding Theory I and Welding Theory II are offered.

All successfully completed courses count as credits towards the various certificates listed below.

Course Number	Course Titles	Certificates					
		BASIC WELDING	INTMED WELDING	ADVANCED WELDING	METAL FABRICATION	WELDING FITTER	WELDING OPERATOR
WELD 920	Welding Theory I	•	•	•	•	•	•
WELD 921	Welding Theory II		•	•	•	•	•
WELD 922	Welding I (General)	•	•	•	•	•	•

Welding Tests

The Metal Fabrication Department operates a testing program as a service to welders wishing to upgrade their qualifications by taking tests leading to certification. As an additional service, practice sessions prior to testing can be arranged if required. All enquiries should be directed to: Mr. G. Betts, Chairperson, Metal Fabrication, Technology Department, 967-1212, ext. 2243.

techniques using E6010/11 and E7018 electrodes. Other topics include: an introduction to edge preparation, and the fit-up and welding of single-vee butt joints in the flat position.
Thurs. 6:30 to 9:30 p.m. Casa Loma Campus
60 hours Fee: $90.00
September 22 to February 16 • **WELD 924**

MCCR Certification I — (Plate)

Prerequisites: WELD 922, WELD 923 and WELD 924 or equivalent experience. A pre-entry interview is required.
Designed to improve welding skills of candidates preparing for a flat and horizontal position plate welding test to standards required by the Ministry of Consumer and Commercial Relations (MCCR) for pressure welding. Topics covered include: a review of WELD 924, edge preparation, fit-up and welding of open root single-vee butt joints in flat (1G) and horizontal (2G) positions to MCCR specifications using E6010/11 and E7018 electrodes, and guided bend testing of completed welds.
Note: Arrangements can be made to have the final practical test inspected by the MCCR. An additional fee is involved.
Mon. 6:30 to 9:30 p.m. Casa Loma Campus
60 hours Fee: $90.00
September 19 to February 20 • **WELD 925**

MCCR Certification II — (Plate)

To be offered March 1989. • **WELD 926**

Pipe Welding I (SMAW-Uphill)

Prerequisites: WELD 924, WELD 925 and WELD 926, or MCCR certification for all position plate welding. A pre-entry interview is required.
Designed to improve the welding skills of candidates preparing for an all position pipe welding test to standards required by the Ministry of Consumer and Commercial Relations (MCCR) for pressure welding. Topics covered include: a review of WELD 925 and WELD 926, correct preparation and fit-up of two-inch, four-inch and six-inch diameter pipe joints using the uphill technique with E6010/11 and E7018 electrodes to A.S.M.E. specifications.
Note: Arrangements can be made to have the final practical test inspected by the MCCR. Students may elect to test on either a two-inch or six-inch diameter pipe. An additional fee is involved.
Tues. 6:30 to 9:30 p.m. Casa Loma Campus
60 hours Fee: $90.00 Materials: $250.00
September 20 to February 20 • **WELD 929**

Pipe Welding III (GTAW/SMAW-Uphill)

To be offered March 1989. • **WELD 931**

Gas Metal Arc Welding I

Prerequisites: WELD 922 — Welding I — General and WELD 923 — Welding II — General or equivalent experience.
An introduction to the principles of the gas metal arc welding (GMAW) process. Topics covered include: safety in gas metal arc welding; welding lap, tee and corner joints in all positions with solid wires; welding lap, tee and corner joints in flat, horizontal and vertical positions with flux-cored wire; flame cutting plates; and preparing and welding single-vee butt joints in the flat position with solid wire.
Tues. 6:30 to 9:30 p.m. Casa Loma Campus
60 hours Fee: $90.00
September 20 to February 14 • **WELD 934**

Gas Metal Arc Welding II

To be offered March 1989. • **WELD 935**

Gas Tungsten Arc Welding I

Prerequisites: WELD 922 — Welding I — General and WELD 923 — Welding II — General or equivalent experience.
An introduction to the basic principles of the gas tungsten arc welding (GTAW) process. Topics covered include: safety in gas tungsten arc welding; welding low carbon steel, aluminum and stainless steel lap and tee joints in flat and horizontal positions, as well as corner and butt joints in the flat position.
Wed. 6:30 to 9:30 p.m. Casa Loma Campus
60 hours Fee: $90.00
September 21 to February 15 • **WELD 937**

Gas Tungsten Arc Welding II

To be offered in March 1989. • **WELD 938**

Welding Fabrication I

Prerequisite: WELD 922 — Welding I — General or equivalent experience.
An introduction to the basic principles of layout and fitting as applied to miscellaneous metal fabrications. Topics covered include: a review of WELD 922, safety in welding and metal fabrication; identifying and selecting metals and structural shapes; the fundamentals of design of weldments; the safe use of hand tools and power operated fabrication machinery such as cut-off saws, band saws and drill presses; layout and fabrication of simple metal projects from shop drawings using materials such as angle iron, channel, pipe, flat bar and plate, plus the manual flame cutting and welding of fabricated projects using the shielded metal arc and gas metal arc welding processes.
Mon. and Wed. 6:30 to 9:30 p.m.
Casa Loma Campus
60 hours Fee: $90.00
September 19 to November 28 • **WELD 940**

Welding Fabrication II

To be offered March 1989. • **WELD 941**

Ornamental Metalwork I

Prerequisite: WELD 922 — Welding I — General or equivalent experience.
Gives the hobbyist a general understanding of the tools, machines and materials essential to the art of ornamental metalwork. Topics covered include: a review of WELD 922, identifying and selecting materials, fundamentals of design, using hand tools and metal working equipment; methods of twisting, forming and fastening metals, forming scrolls, surface decoration and finishing, and practical shop work involving the fabrication of various ornamental metal projects.
Tues. and Thurs. 6:30 to 9:30 p.m.
Casa Loma Campus
60 hours Fee: $90.00
September 20 to November 24 • **WELD 944**

Welding Inspection — Introduction

An introduction to weld inspection procedures for those involved in or interested in weld quality control. The course includes an introduction to various welding processes and their use in industry as well as various methods of destructive and nondestructive weld inspection.
Other topics covered include: Qualification tests for welders, Ministry of Consumer and Commercial Relations (MCCR) and Canadian Welding Bureau (CWB) certification procedures, preparing and testing MCCR and CWB test specimens, and interpreting the completed tests, and weld inspection duties. Demonstrations of correct and incorrect welding techniques will be given to illustrate the causes and control of common weld faults.
Mon. 6:30 to 9:30 p.m.
Casa Loma Campus
40 hours Fee: $60.00
September 19 to December 19 • **WELD 946**

Welding Process Technology & Quality Control

For those involved in or interested in setting up, operating and monitoring semi-automatic and automatic welding and cutting equipment. The processes covered are GMAW, FCAW, GTAW, SAW, ESW and plasma arc cutting. Learn the results of changes in variables such as: wire feed speed, travel speed, amperage and voltage values, gas flow rates, gas types and mixtures; filler wire sizes, types and extension, flux composition, etc. Other topics include: applications of short circuiting, spray and globular transfer modes in GMAW, using manipulators, automatic applications, monitoring equipment to control quality and cost efficiency, and weld quality control through the use of non-destructive (visual) and destructive weld examination methods.
Wed. 6:30 to 9:30 p.m. Casa Loma Campus
60 hours Fee: $90.00
September 21 to February 15 • **WELD 947**

Non-Destructive Testing

The following Non-Destructive Testing courses are offered in cooperation with the NDE Institute of Canada. Classes are from 6:30 to 9:30 p.m. For more information, contact: Mr. G. Betts, 967-1212 ext. 2243 or Mr. W. Kennedy, 487-5415.

Ultrasonics Level I

The basics of ultrasonics including the theory of ultrasonic testing and its practical applications. Classroom training for certification is in accordance with the Canadian General Standards Board (48-GP-7M). Topics covered include: testing philosophy, test principles, applications and capabilities of tests, equipment, testing techniques, and calibrating equipment.
Wed. 6:30 to 9:30 p.m. Casa Loma Campus
42 hours Fee: $225.00
September 21 December 21 • **TEST 900**

Industrial Radiography Level I

Provides radiographers with the formal preparation needed for all phases of the Level I Industrial Radiography examination. It is also of interest to those in supervisory, quality control or affiliated positions who require a knowledge of the fundamentals of radiography. Topics covered include: an introduction to the electromagnetic spectrum; velocity, frequency and wave length of light, generation of x-rays and gamma rays; the mathematics of radiography, including the inverse square law and the law of reciprocity; definition and contrast of radiographic sensitivity, aids to radiographic sensitivity, film types and classes, densitometry, sensitometry, exposure charts, standards, radiation protection and the applicable federal and provincial regulations, safe working conditions, radiographic techniques, and film interpretation.
Tues. 6:30 to 9:30 p.m. Casa Loma Campus
48 hours Fee: $275.00
September 20 to January 17 • **TEST 903**

Liquid Penetrant & Magnetic Particle Inspection (LPI/MPI) Levels I and II

Covers the theory and practice of liquid penetrant and magnetic particle inspection. The course meets the classroom training requirements for levels I and II certification as stipulated in CGSB standards 48-GP-9M and 48-GP-8M respectively. Topics covered include: principles and methods of liquid penetrant testing, selecting the penetrant test method and equipment, evaluating liquid penetrant indications, principles of magnets and magnetic fields, magnetization by means of electric currents, types of equipment and inspection materials, selecting the proper type of magnetization, principles of demagnetization, type of discontinuities located by magnetic particle testing, indications and interpreting the test results.
Thurs. 6:30 to 9:30 p.m. Casa Loma Campus
48 hours Fee: $300.00
September 22 to January 19 • **TEST 907**

Call this number for general information about continuing education courses, unless otherwise indicated in this directory.

Driver Training

Professional Driver Improvement Course

Techniques and strategies for commercial straight truck and tractor trailer drivers to assist them in preventing collisions. This series of lectures is designed for professionals in the transportation, education and safety fields.
100 Cherry St.
8 hours Fee: $40.00
Dates: Continuous. Call 967-1212, ext. 3206.
• **TRAN 905**

Dual Air Brake System

Provides transport drivers with a working knowledge of a dual air brake system. This course is useful for the proposed mandatory air brake endorsement introduced to all holders of Ontario Classified Drivers Licences.
The following topics are covered in the eight sessions:
Braking Systems
– Introduction, Part I — Single Air
– Air Brake System, Part II — Dual Air
– Air Brake System, Part III — Troubleshooting
100 Cherry St.
10 hours Fee: $60.00
Dates: Continuous. Call 967-1212, ext. 3206.
• **TRAN 906**

Driver Instructor Education Course

This course is conducted in accordance with the regulations established by the Ministry of Transportation and Communications which govern the licensing of driving instructors.
Prerequisite: Applicants must first receive authorization from a Ministry of Transportation and Communication Driver Examination Centre.
130 Hours (90 classroom hours, 40 in-car hours)
Fee: $850.00
Evening Course/Day Course
September 6 to December 15
For more information please contact the Industrial Training Division at 962-1212, ext. 3219.

Tractor Trailer Training

Prerequisite: Ontario "D" Licence, heavy straight truck experience.
Trains the student to operate tractor trailer units with multi-range transmissions under varying load conditions. Hands-on experience with various tractor trailer units is included. Other topics discussed are: vehicle inspection, air brakes, coupling and uncoupling the tractor trailer combination, backing manoeuvres and driving in light and heavy traffic.
Sat. 8 a.m. to 6 p.m. 100 Cherry Street
60 hours Fee: $1244.00 Material Fee: $100.00
For dates, call 967-1212, ext. 3206.
• **TRAN 900**

Air Brake Instructors Course

Prerequisite: Basic knowledge of air brake system.
This course covers preparation for instruction, objectives, timetables, and a complete review of the air brake system as required by Canadian Motor Vehicle Safety Standards 121. This course includes practical demonstrations given on a single and dual air brake board.
Mon. through Fri. 8 a.m. to noon
100 Cherry Street
20 hours Fee: $208.00
For dates, call 967-1212, ext. 3206. • **TRAN 800**

Classified Driver Improvement Program

Prerequisite: Commercial driver.
This course covers the following topics: defensive driving, occupational health and safety, first aid, and dangerous goods. This course is designed to introduce the commercial driver to the legal responsibilities they have as the operators of a transport vehicle and driving strategies and techniques designed to assist in preventing collisions.
Mon., Tues. and Wed. 6 to 10 p.m.
100 Cherry Street
12 hours Fee: $60.00 Material Fee: $25.00
September 12 to September 14 • **TRAN 801**

Transport Driver Training Course

Prerequisite: Classified licence holder.
This course covers the following topics: orientation; professional standards; and documentation in truck transportation. The course is designed to introduce the student to the importance of driver documentation.
Tues., Wed. and Thurs. 6 to 10 p.m.
100 Cherry Street
12 hours Fee: $60.00
September 6 to September 8 • **TRAN 802**

Straight Truck Training

Prerequisite: Class G licence; 1 year of driving experience in car, knowledge of manual transmission.
Students learn to operate straight trucks equipped with 5 speed transmissions and 2 speed axles and ten speed Fuller transmissions. Other topics discussed are vehicle inspection, air brakes, backing, manoeuvers, and driving in light and heavy traffic. Evenings or Saturdays, time to be determined.
100 Cherry Street
25 hours Fee: $300.00 Material Fee: $75.00
Dates: TBA • **TRAN 901**
For more information, call 967-1212, ext. 3206.

Post Diploma Nursing Certificates

Women's College Hospital & George Brown College announce a collaborative program for Childbirth Educators

This Program is of interest to people who have completed post-secondary education and have a demonstrated interest in childbirth education and adult education. Its comprehensive approach to training is aimed at developing skills, knowledge and increased awareness of the childbirth and parenting experience.

Entrance requirements include:
– evidence of post-secondary training
– attendance at an interview/ information session
– a résumé

This 12-month program is comprised of four modules and uses a variety of teaching strategies: self-directed learning, observations, tutorials, assignments, workshops.
January to December 1989
Fee $362.50 • **MATN 900**

***For more information,* please call Jackie Salmona at 967-1212, ext. 4229.**

R.N. Critical Care Nursing

Nightingale Campus
Prerequisite: Current Certificate of Competence, College of Nurses of Ontario or, if from out-of-province, eligibility for registration in Ontario; current nursing experience in an active treatment centre; B.C.L.S. (Heart & Stroke Foundation); medical; attendance at an information/selection session.
The goal of this program is to prepare registered nurses to give competent care to critically ill individuals and their families.
The program is organized in two phases, each consisting of a theory and a clinical component. In Phase I, the focus is on learning core concepts of critical care nursing through a study of the stable, critically ill individual. In Phase II, a case study format is used to build upon the core concepts and focus upon the unstable, critically ill individual suffering from complex, multisystem problems. Students will normally complete Phase I in two semesters and then return for Phase II the following academic year. Students who have been working in an I.C.U. setting for at least one year are eligible to apply for exemption from Phase II Clinical (CCN 404).
Theory includes:
– advanced anatomy and physiology of the vital systems (i.e., cardiovascular, respiratory, renal, nervous and endocrine)
– pathology of selected diseases including medical assessment and management
– systematic nursing assessment of all body systems
– use of nursing process in the critical care setting
– relevant medical-moral issues
– legal aspects of critical care nursing
– ways to promote communication and group process and prevent stress and burn-out. Clinic practice is arranged in one of the downtown Toronto hospitals. This program is also offered full-time in September and January. For more information call Nazlin Allidina at 967-1212, ext. 4231. • **NU 400**

Phase I (Nightingale Campus)

Fall Schedule

Theory (Nightingale Campus)
Wednesdays, 8 a.m. to 3 p.m.
September 14 to November 30

Clinical (Hospital to be posted)
Monday – Friday, 7:30 a.m. to 3:30 p.m.
T.B.A.

Winter Schedule

Theory (Nightingale Campus)
Wednesdays, 8 a.m. to 3 p.m.
January 4 to March 22

Clinical (Hospital to be posted)
Monday – Friday, 7:30 a.m. to 3:30 p.m
March 20 to April 7

Phase I (Sunnybrook Medical Centre)

Fall Schedule

Theory (Sunnybrook)
Thursdays 8 a.m. to 3 p.m.
September 15 to December 1
Clinical T.B.A.
Monday to Friday 7:30 a.m. to 3:30 p.m.

Winter Schedule

Theory (Sunnybrook)
January 5 to March 23, 1989
Clinical, 105 hours, T.B.A.

NOTE: PHASE I courses are taught as an integrated program and students are therefore asked to **register for all four courses at the same time.**

Critical Care Nursing: Theory and Labs — General

Corequisites: CCN 401X, HUMN 402X, CCN 402X.
Provides the basic theory and skills needed by a registered nurse caring for a critically ill patient. A holistic approach is used emphasizing interventions and their effects on related systems.
Other topics covered include: stress, biodynamics and the nursing process.
Wed. Nightingale Campus or Sunnybrook
50 hours Fee: $75.00 • **CCN 400X**

Critical Care Nursing: Pathotherapeutics

Corequisites: CCN 400X, HUMN 402X, CCN 402X.
An examination of the core concepts of biodynamics, stress, adaptation and deviation as they relate to the vital systems.
Relevant anatomy, physiology, pathophysiology are taught, as well as assessment, diagnostic and therapeutic methods.
Nightingale Campus or Sunnybrook
45 hours Fee: $67.50 • **CCN 401X**

Nursing Issues and Values

Corequisites: CCN 400X, CCN 401X, CCN 402X
A practical course in understanding and dealing with people. Learn communication techniques, listening skills, non-verbal cues and assertiveness, and practice these skills in class. The section on value systems involves the study of ethical and moral issues in nursing today. Relevant laws and the issues of truth, confidentiality and consent are also discussed.
Nightingale Campus or Sunnybrook
10 hours Fee: $15.00 • **HUMN 402X**

Critical Care Nursing: Practicum — General

Corequisites: CCN 400X, CCN 401X, HUMN 402X.
A clinical application of the theory and skills acquired in Critical Care Nursing: Theory and Labs. Supervised care is given to selected patients whose condition is relatively stable.
Monday to Friday; Hospital as posted
105 hours Fee: $157.50 • **CCN 402X**

Phase II

Critical Care Nursing: Theory — Advanced

Through case studies and work in the clinical laboratory, the registered nurse develops the knowledge and skills to care for the unstable critically ill patient with multisystem problems in a sophisticated critical care setting. Specific topics include: a more in-depth study of the core concepts, analysis of relevant case studies, pathophysiology, assessment, medical and nursing interventions, principles of leadership and the opportunity to develop teaching skills. Time is provided for independent study.
Tuesday 8 a.m. to 3 p.m.
Sunnybrook Medical Centre
100 hours Fee: $150.00
September 13 to December 13 • **CCN 403X**

Critical Care Nursing: Practicum — Advanced

Enrolment is limited to 10 so please register early.
Prerequisites: Successful completion of all Phase I courses and CCN 403X.
The clinical application of the theory and skills acquired in Critical Care Nursing: Theory — Advanced. Care is given to patients who are critically ill with multisystem problems and who require sophisticated assessment and supportive tools.
Monday to Friday; Sunnybrook Medical Centre
105 hours Fee: $157.50
Winter 1989 • **CCN 404X**

R.N. Perinatal Intensive Care Nursing

Prerequisites: Current certificate of competence, College of Nurses of Ontario; out-of-province students must be eligible for registration in Ontario; current nursing experience in the area of perinatology (i.e. obstetrics, nursery, N.I.C.U.) is an advantage, B.C.L.S. (Heart & Stroke Foundation), medical; attendance at an information/selection session.
This program trains the registered nurse to provide comprehensive care to critically ill newborns in an intensive care setting and to their families.
Theory includes:
– current concepts of perinatal nursing and high risk pregnancy
– care required prior to and during transportation of the newborn
– intervention available to critically ill infants with specific neonatal problems (genetic, congenital, respiratory)
– emotional care to the family of the high risk newborn and to the health care provider

Practicum includes:
– participant observation in high risk labour and delivery and antepartum units
– total care of the critically ill newborn including assisted ventilatory care
– use of advanced monitoring and diagnostic equipment
– operating room observation with pre-and post-op care
– blood sampling and intravenous insertion experience
– participation with the transport team
– laboratory and x-ray interpretation
– care of the family of the critically ill infant
Clinical practice with critically ill neonates is given in the Neonatal Intensive Care Unit at The Hospital for Sick Children.
A certificate is awarded for successful completion of all four courses of the program (i.e. PER 400X, PER 401X, PER 402X, PER 403X).
The program is also offered on a full-time basis, starting in September and February. For more information and interview dates, call Heather Urquhart at 967-1212, ext. 4236. • **NU 406**

Perinatal Nursing Theory

This course provides a basic introduction to the field of perinatal and neonatal nursing.
Perinatal Nursing Theory is designed to cover: management of high risk pregnancies; embryology; transition to extrauterine life; neonatal resuscitation; neonatal physiology, and legal and ethical issues.
Thurs. 9 a.m. to 4 p.m. Nightingale Campus
105 hours Fee: $157.50
September 8 to January 19 • **PER 400X**

REGISTRATION FOR THE FALL TERM BEGINS JULY 18

A New Series of Courses in Reproductive Care Nursing

Nursing Practice: Contemporary Issues

Prerequisite: Registered nurse.
Provides the R.N. with an overview of nursing theory and an introduction to Ontario's regionalized system of reproductive health care. Topics examined include: fertility management, principles of therapeutic communication, ethical issues in perinatology, occupational hazards of perinatal nursing, uses of computers in perinatal nursing, and the development of specialized roles.
Tues. 6 to 9 p.m. Nightingale Campus
30 hours Fee: $45.00
September 20 to November 22 • **PER 900**

These courses count for credit in the Perinatal Intensive Care Program.

Future courses will address such issues as :
- current issues on VBAC and ultrasound
- maternal risk assessment tools
- physical assessment and management
- current theories on pain
- infant assessment
- high risk transport.

Family Practice Nursing

Family Practice Nursing

Prerequisite: Registered Nurse
Designed to broaden the knowledge of R.N.s working in family practice settings. Classes in the first half of the course cover such topics as: interviewing, taking a history, telephone assessment skills, drugs commonly used in family practice, nutrition update, and basic diagnostic imaging procedures. The second half of the course deals with the theory and process of health education and includes seminars related to health maintenance.
Thurs. 6:30 to 8:30 p.m.
Nightingale Campus
24 hours Fee: $36.00
September 22 to December 8 • **NURS 948**

R.N. Operating Room Nurse

Prerequisites: As for R.N. Critical Care Nursing.
This program prepares R.N.s to function competently as team members in an operating room.
The program is organized in three phases. Phase I consists of six weeks of theory including:
– relevant anatomy and physiology
– principles of asepsis
– duties of scrub and circulating nurses
– intensive study of surgical interventions, their indications and complications.

Phase II is an 8 week practicum. During this time, the student rotates through several services, including: general surgery, gynecology, urology, E.N.T., orthopaedics, plastics, opthalmology, and observes in neurosurgery and cardiovascular surgery.
Clinical practice is arranged in one of the downtown Toronto hospitals.

Phase III focuses on consolidation and introduces organizational behaviour to prepare nurses to function as first level supervisors. Topics covered include: management theory based on a behavioural human relations framework and an exploration of research methodology.
A certificate is awarded for successful completion of all four courses: ORN 400, ORN 401, ORN 402 and HUMN 402.
This program is normally offered full-time in September and February. For more information please call Virginia Pollock at 967-1212, ext. 4231.

R.N. Rehabilitation Nursing

Prerequisites: Current certificate of competence, College of Nurses of Ontario, and one year of nursing experience.
This two-part program is designed to provide the R.N. with the basic skills and knowledge needed to care for physically disabled individuals or those with long-term health care needs.
To be offered Winter 1989.

R.N. Occupational Health Nursing

The Collaborative Community College Program for Occupational Health Nurses

Prerequisites: Current Ontario certificate of competence and one year of accumulated experience in nursing within the last five years. Preference is given to nurses currently enrolled in the Occupational Health Nurses Program and employed in occupational health nursing. For more information call Jackie Salmona at 967-1212, ext. 4229. • **NU 408**

This academic year, George Brown College is scheduled to offer the following course:

Counselling and Health Education

This course focuses on counselling and health education in the occupational health setting. Emphasis is on further development of communication/counselling skills and on the development of health education programs for special needs. Included are the principles of the teaching and learning process — especially as they relate to adults. Available community resources and methods of referrals are discussed.
Wed. 6 to 9 p.m. Nightingale Campus
45 hours Fee: $67.50
September 7 to December 14 • **NURS 930**

Added Skills

R.N. Nursing Skills in Footcare

Prerequisite: Current certificate of competence as an R.N. in Ontario or proof of eligibility for registration.
Students are taught basic and more advanced nursing skills in footcare by a team comprised of an R.N. and a chiropodist. Course content reflects the College of Nurses of Ontario's March 1985 guidelines as detailed in "The Role of the Registered Nurse and Registered Nursing Assistant in Footcare." The nursing process (assessing, planning, implementing and evaluating) is used as a framework for study.
To arrange for an on-site course (minimum enrolment 10 people), please call Margaret Battoo at 967-1212, ext. 4224. • **NURS 949**

Body Systems Update: Conditions, Tests, Procedure

Prerequisite: R.N.
This course is designed to provide the Registered Nurse with a comprehensive review of the body's major systems: Cardiovascular, Respiratory, Renal, Endocrine and Neurological. Course content includes:
– Review of Anatomy and Physiology of above systems
– Fluids and Electrolytes
– Arterial blood gases
– Management of patients with the following conditions: diabetic and nonketotic hyperosmolar coma, hypercalcemia, myocardial infarction, tracheostomies, airways, fluid and electrolyte imbalances
– Interpretation of arterial blood gases, CBC, PT, PTT, electrolytes
– Nursing care of patients undergoing diagnostic tests such as CT scans, lung scans, magnetic resonance imaging, angiograms
– Discussion of Hickman and Porto Cath lines.
Tues. 6 to 9 p.m. Nightingale Campus
36 hours Fee: $54.00
September 20 to December 6 • **NURS 951**

Major Malignancies

NEW

Prerequisite: R.N.
This course includes the etiology, pathophysiology, clinical course and prognosis of five (5) major malignancies. There are breast, colon, leukemias, G.I. and reproductive malignancies.
Mid September, 1988.
Day & time to be announced
For further information call Jackie Salmona, 967-1212, ext. 4229
Princess Margaret Hospital
30 hours Fee: $45.00 • **NURS 954**

AIDS and the Nursing Profession

NEW

Prerequisite: R.N. or R.N.A.
This course is designed to assist the R.N. and R.N.A. in caring for the patient with a diagnosis of AIDS, ARC, or HIV sero-positive. The nurse further develops pre-existing psychosocial skills in dealing with families and friends of AIDS patients. The nurse develops a systematic approach in developing a complete nursing care plan that may be used by the patient in the hospital and/or community.
Tues. 6 to 9 p.m. Nightingale Campus
24 hours Fee: $36.00
September 20 to November 8 • **NURS 929**

Certificate in Cardiac Monitoring

The purpose of this 2-part certificate is to provide members of the health care team with the skills and knowledge necessary to analyse and interpret arrhythmias and 12-lead electrocardiograms.

Part I

Interpretation of Arrhythmias

Prerequisite: RN or permission from the instructor.
This course is designed to provide knowledge and skill in the interpretation of arrhythmias. Course content includes: introductory principles; vectors; anatomy and electrophysiology of the heart and conduction system; autonomic nervous system; cardiac electrophysiology; systematic analysis for basic and advanced rhythm strips; cardiac arrests; heart blocks; drug therapy; pacemakers and bedside monitoring.
Tues. 6 to 9 p.m. Nightingale Campus
36 hours Fee: $54.00
September 13 to November 29 • **NURS 953**

Part II

To be offered Winter 1989.

Nursing

Pharmacology for Registered Nurses

Allows registered nurses to update their knowledge of pharmacology. After a review of the basics of pharmacology, the topics covered include: sources of information about drugs, classification of drugs into groups, a study of the groups according to their effect/action, uses, side and toxic effects, and the implications for administering the drug. Material is presented through lectures, discussions and individual study.
Mon. 6 to 9 p.m. Nightingale Campus
45 hours Fee: $67.50
September 12 to December 19 • **PHAR 900**

R.N. Examination Review

Assists graduate nurses in preparing to write the nurse registration examinations in Ontario. In a seminar format, students review the most frequently encountered nursing situations in medical, surgical, maternity, pediatric and psychiatric nursing. Students are given guidelines on how to write multiple choice examinations and get practice writing comprehensive tests similar to the provincial registration examinations.
Mon. and Thurs. 6 to 9 p.m.
Nightingale Campus
54 hours Fee: $81.00
October 13 to December 12 • **NURS 927**

Physical Assessment Series

Physical Assessment

Prerequisite: Current certificate of competence, College of Nurses of Ontario.
Assists the R.N. in developing basic skills in the physical assessment of adults. The course uses a systems approach to physical examination and looks at patient care from a problem-solving approach. Recognition of the range of normal findings is emphasized with some discussion of common abnormalities and a review of taking histories and recording. Lectures are augmented by demonstrations of techniques, and each class includes a practice session in which every student is expected to participate. In-depth review of relevant anatomy and physiology is the student's responsibility.
Tues. 6:30 to 9:30 p.m.
Nightingale Campus
36 hours Fee: $54.00
September 13 to November 29 • **NURS 931**

Pediatric Assessment

Prerequisite: Registered nurse.
Developed in cooperation with the Hospital for Sick Children, this course provides nurses with the basic skills needed in the physical assessment of children from birth through adolescence.
Recognition of the range of normal findings is emphasized. Lectures, demonstrations and practice sessions are used to present material.
Tues. 5 to 8 p.m.
Classes at Hospital for Sick Children — Register at Casa Loma Campus
36 hours Fee: $54.00
September 13 to November 29 • **NURS 946**

Registered Nursing Assistants

R.N.A.: Nursing Skills in Footcare

Prerequisite: Current certificate of competence as an R.N.A. in Ontario or proof of eligibility for registration.
R.N.A.s are taught basic and more advanced nursing skills in footcare. Topics include: the normal foot, common foot problems, setting appropriate footcare goals, and providing care within the scope of practice of R.N.A.s. The course is designed to meet the College of Nurses of Ontario's requirements for R.N.A. skills in footcare.
To arrange a course on-site at your institution (minimum enrolment 10), please call Margaret Battoo at 967-1212, ext. 4224. • **NURS 950**

R.N.A.: Physical Assessment

Prerequisite: Current certificate of competence as an R.N.A. in Ontario.
This course assists R.N.A.s in developing basic physical assessment skills with adult patients. The course covers recognition of the range of normal findings with some discussion of common

abnormalities. Prior to class, R.N.A.s are expected to have reviewed basic anatomy and physiology. Classes include history-taking, recording, and a systems approach to physical examination. Practical sessions are included.
Mon. 6 to 9 p.m. Nightingale Campus
30 hours Fee: $45.00
September 19 to November 21 • **NURS 952A**

R.N.A.: Rehabilitation Nursing

Gain an understanding of the needs of physically disabled individuals or those with long-term health problems, and the implications for the registered nursing assistant. Topics covered include:
- development of a personal philosophy of rehabilitation
- principles of learning and teaching
- theory of change and its impact on the patient and the worker
- the application of the nursing process in rehabilitation
- management of patients with specific problems
- the role of the registered nursing assistant in rehabilitation.

Tues. 5:30 to 8:30 p.m. Nightingale Campus
45 hours Fee: $67.50
September 13 to December 20 • **NURS 937**

R.N.A.: Administration of Medications

Enables registered nursing assistants to meet the minimum level of competence in the administration of medications as outlined in the Standards of Nursing Practice for Registered Nurses and Registered Nursing Assistants. Discussion of the theory involved includes: control, types and uses of medications, actions and effects of medications, drug classification, preparation and methods of administration, and reporting, recording and transcribing a physician's written order for medications. Practical experience in a clinical setting includes: self-study, the use of independent learning packages, testing and participant observation.
Wed. 5:30 to 9 p.m. Nightingale Campus
52 hours Fee: $78.00
September 7 to December 14 • **NURS 404**

R.N.A.: Surgical Aseptic Procedures

Prerequisite: Current Ontario certificate of competence as a registered nursing assistant or proof of eligibility.
Enables registered nursing assistants with a variety of nursing experiences to meet the minimum level of competence in surgical asepsis as outlined in the Standards of Nursing Practice for Registered Nurses and Nursing Assistants. The 20 hours of theory include: the basic elements of microbiology, body defence mechanisms, the principles of surgical asepsis and their application, patient teaching, and appropriate reporting and recording. Sixteen hours of simulated practice increase competence in surgical asepsis procedures and related activities. Independent learning packages are used to help master psychomotor skills.
Thurs. 5:30 to 8:30 p.m.
Nightingale Campus
36 hours Fee: $54.00
September 15 to December 1 • **NURS 945**

Dental Assisting Certificate

This program is offered jointly by the Health Sciences Division, Continuing Education Departments of George Brown and Seneca Colleges. It enables a **working dental assistant** to complete the required courses for a certificate in dental assisting in three years. Every course is offered over the three year period. Students should only take some of the subjects in any year, with the goal of completing the program in a maximum of five years.

CITY CPR CENTRE

George Brown The City College

You are faced with a life-threatening situation. Someone is suffering from a heart attack, drowning, electrocution, or accident. Are you prepared? The City C.P.R. Centre offers a variety of C.P.R. and First Aid courses to meet the needs of the general public and helping professions. Invest as little as 4 hours to buy some peace of mind.
For information about any of our C.P.R./First Aid courses please call Sheryl Wallis at 971-8812.
Students must register at least one week prior to the start date of the course.
All of the courses involve some degree of physical contact with fellow students.
All C.P.R. and First Aid courses result in certification from the Heart and Stroke Foundation of Ontario and/or Canadian Red Cross

General Public

Infant and Child CPR

Developed in collaboration with the Poison Information Center and Family Information Center of The Hospital for Sick Children. Children and accidents seem to go together. That's why we offer courses in Infant/Child C.P.R.
Learn: C.P.R. techniques for infants and children — child safety — poison prevention — how to child-proof your environment — ways to use community emergency resources — and more!!
Nightingale Campus
4 hours Fee: $20.00
Mon. 6 to 10 p.m.
September 12, 19, 26 / October 3, 17, 24
November 7, 14, 21, 28 / December 5, 12
Sun. 1 to 5 p.m.
September 18 / October 23 / November 13
• **CPR 905**
Note: Courses can be run in your home or organization (minimum enrollment 6 people). We also offer Infant/Child C.P.R. course especially designed for the daycare setting.

Managing Basic Child Care Emergencies: A Workshop for Nannies

The City C.P.R. Centre provides workshops designed for nannies working with young children. The purpose of these workshops is to provide the knowledge and skills required to assess and manage basic child-centered home emergencies such as bleeding, blocked airways, shock and poisoning. The workshop covers emergency first aid and Infant/Child C.P.R. Certification should be renewed yearly.
Nightingale Campus
10 hours Fee: $15.00 Material Fee: $20.00
Wed. 6:15 to 9:30 p.m.
September 14, 21 and 28 or
November 2, 9 and 16 • **CARE 911**

Heartsaver

Set aside some time, bring a friend or a spouse, and learn to become a Heartsaver. Learn what a heart attack is, how to recognize it and what actions to take. One-rescuer C.P.R. and emergency skills for choking will be featured.
Nightingale Campus
4 hours Fee: $15.00
Sun. 1 to 5 p.m.
September 18 or October 16 or
November 20 • **CPR 901**

Managing Basic Emergencies

The City C.P.R. Centre provides courses designed to help people deal with life threatening emergencies. The knowledge and skills are acquired to help students deal with emergenices such as bleeding, choking, shock and poisoning. Discussion involves heart disease, heart attack, how to recognize it and what to do about it. One rescuer adult C.P.R. and emergency skills for the choking adult will be featured. This course is especially useful for those in the business setting. The workshop covers Emergency First Aid and the Heartsaver program. Certification should be renewed yearly.
Nightingale Campus
10 hours Fee: $15.00 Materials Fee: $20.00
Wed. 6:15 to 9:30 p.m.
October 12, 19 and 26 • **CARE 912**

First Aid — Standard

Provides students with knowledge and skills in standard first aid procedures according to the guidelines established by the Canadian Red Cross Society. Certification is valid for 3 years.
Nightingale Campus
15 hours Fee: $22.50 Materials: $15.00
Sat. & Sun. 9 a.m. to 5 p.m.
September 24 and 25 / October 29 and 30 / November 26 and 27
Thurs. 5:15 to 9:30 p.m.
October 6, 13, 20 and 27 / November 3, 10, 17 and 24 • **HEAL 102X**

When to Call Your Child's Doctor

Your 2 year old wakes up at night with the croup. The baby has developed a fever. Your child returns home from daycare with a note that reads "Chicken pox". What do you do? We have designed a course to help parents recognize and treat common childhood illnesses and injuries. Emphasis will be placed on what signs and symptoms warrant a trip to the doctor.
Nightingale Campus
10 hours Fee: $15.00
Tues. 6:15 to 9:30 p.m.
October 4, 11 and 18 or
November 8, 15 and 22 • **KIDS 901**
Note: This is not a certificate course.

For the Helping Professions

Neonatal Resuscitation

This course is designed to update skills and knowledge in the principles and procedures of neonatal resuscitation. Course content includes: transition to extrauterine life: acid/base balance; predisposing maternal/fetal conditions; neonatal conditions requiring resuscitation; infant resuscitation (delivery room, nursery); advanced life support; and an infant resuscitation practice session. This course is available at Nightingale Campus or on-site at clinical locations. To arrange a course at your institution (min. enrollment of 10) please contact Sheryl Wallis at 971-8812.
15 hours Fee: $22.50 Material Fee: $10.00
Mon. and Tues. 9 a.m. to 4:30 p.m.
October 17 and 18 • **NEO 900**
Note: This is not a certificate course.

Neonatal Resuscitation Update

This course is designed to review the skills and principles covered in NEO 900. Neonatology is a rapidly progressing field and new trends in perinatal resuscitation will be examined. The course involves some independent study. This course is available at Nightingale Campus or on-site at clinical locations. To arrange a course at your institution (min. enrollment of 10) please contact Sheryl Wallis at 971-8812.
15 hours Fee: $15.00 Material Fee: $10.00
Tues. 8:30 a.m. to 6:30 p.m.
October 25 • **NEO 901**
Note: This is not a certificate course.

First Aid Instructor Training

Prerequisite: Must have completed the Red Cross standard first aid course within the three-month period prior to the course; and must have current Basic Rescuer Certificate.
This course is designed to prepare students to develop and teach Standard and Emergency First Aid courses according to the guidelines and standards of the Canadian Red Cross Society.
Nightingale Campus
20 hours Fee: $30.00 Material Fee: $20.00
Wed. 5:30 to 9:30 p.m.
November 23 and
Sat. and Sun. 9 a.m. to 5 p.m.
November 6 and 27 • **HEAL 900**
Note: All registrants must contact Sheryl Wallis at 971-8812 to receive precourse material.

Cardiopulmonary Resuscitation — Basic Rescuer

Basic cardiac life support (BCLS) is a first aid procedure performed by trained professionals. It is a component of Emergency Medical System (EMS). The course covers the concepts of basic life support measures in emergency cardiac care and psychomotor skills of cardiopulmonary resuscitation with adults, children or infants in pulmonary and/or cardiac distress. It follows guidelines set by the Canadian Heart & Stroke Foundation. Certification is valid for one year only.
Nightingale Campus
12 hours Fee: $18.00 Materials: $10.00
Tues. and Thurs. 5:30 to 9:30 p.m.
September 6, 8 and 13 or 20, 22 and 27
or October 4, 6 and 11 or 18, 20 and 25
November 1, 3 and 8 or 15, 17 and 22
or December 6, 8 and 13
Fri. 5:30 to 9:30 p.m. and
Sat. 9 a.m. to 5:30 p.m.
September 9 and 10 or October 14 and 15
or November 11 and 12 or December 9 and 10
Sat. and Sun. 9 a.m. to 4 p.m
September 24 and 25 or October 22 and 23
or November 26 and 27 • **CPR 902**

Cardiopulmonary Resuscitation Basic Rescuer Recertification

Prerequisite: Ontario Heart & Stroke Foundation Basic Rescuer Certification. Proof of currently-valid certificate must be presented at the first class. Certification is valid for one year only.
Course Content: This course reviews and updates material and methods presented in the Basic Rescuer course and recertifies holders of this certification.
Nightingale Campus
10 hours Fee: $15.00 Materials: $10.00
Mon. and Wed. 5:00 to 10:00 p.m.
September 12 and 14 / October 3 and 5
November 7 and 9 / December 5 and 7
Fri. 6 to 9 p.m. and Sat. 9 a.m. to 5 p.m.
September 16 and 17 / October 21 and 22
November 18 and 19 • **CPR 903**

Call 971-8812 for more information

C.P.R. Instructor Training

Prerequisite: Must have completed Basic Rescuer within the three-month period prior to the course, and must be well-versed in modalities.
Course Content: This course is designed to prepare students to teach the general public and health professionals the knowledge and skills of C.P.R. Focuses on adult education and course development.
Nightingale Campus
18 Hours Fee: $27.00 Materials: $15.00
Fri. 6 to 9 p.m., Sat. and Sun. 9 a.m. to 5 p.m.
September 16, 17 and 18 or
October 21, 22 and 23 or
November 11, 12 and 13 or December 2, 3 and 4
• **CPR 900**
Note: All registrants must contact Sheryl Wallis at 971-8812 to receive precourse material.

C.P.R. Instructor Recertification

This course reviews and updates material covered in the C.P.R. instructor course. Required by all instructors on a yearly basis to renew their certification with the Heart & Stroke Foundation of Ontario. The course involves some independent study.
Nightingale Campus
10 hours Fee: $15.00
Sat. 9 a.m. to 7 p.m.
September 24 or November 19 • **CPR 907**
Note: All registrants must contact Sheryl Wallis at 971-8812 to discuss precourse preparation.

C.P.R. and First Aid Instructor

Prerequisites: Registrants must have successfully completed the Red Cross Standard First Aid and the Basic Rescuer Coruse within the 3 months prior to the start date.
Course Content: This course is designed to train the student to be competent in teaching both C.P.R. and First Aid courses. Focus on adult education and course preparation and integration.
Nightingale Campus
24 hours Fee: $36.00 Material Fee: $35.00
Tues. and Thurs. 5:30 to 9:30 p.m.
November 1 and 3 and
Sat. and Sun. 9 a.m. to 5 p.m.
November 5 and 6 • **CARE 914**

Update II: A Professional Development Workshop for Certified C.P.R. and First Aid Instructors

To be offered February 11 and 12, 1989. • **CPR 906**

Prerequisites: Applicants should have an Ontario Secondary School Graduation Diploma with grade 11 or 12 credits in biology and chemistry, or the equivalent, and typing at 30 w.p.m.

A more detailed description and an application form are available from Rosemary Armitage at 967-1212, ext. 4220.
Applications should be received before August 15 and must include a letter from an employer-dentist. Incomplete applications will not be processed.
The following courses must be completed to obtain the certificate:
Human Biology BIO 102X
Introductory Psychology PSY 171
Pre-clinical Techniques PCT 101X
Dental Materials DENT 106X
Microbiology BIO 104X
Language & Communications ENG 193
Oro-facial Anatomy ANAT 102X
Dental Radiology DENT 109X
Dental Office Procedures DENT 117X
Preventive Dentistry/Oral Pathology DENT 104X
Pharmacology & Emergency Care PHAR 102X
Nutrition NUT 101X

Dental Assisting students who are eligible to graduate in the current academic year must apply in writing including proof of eligibility. All students must show competency in cardiopulmonary resuscitation, at the basic rescuer level, prior to graduation. Application for Graduation forms are available from Anita Madrus at the Casa Loma Admissions Office, 967-1212, ext. 2442.

Introductory Psychology

Prerequisite: Grade 12 with two senior sciences.
This course provides an introduction to psychological theory and patient management for dental auxiliaries.
Psychological theory — historical background, methods used to study behaviour; biological bases of behaviour; learning; motivation and emotion; perception; development, language and thought; altered states of consciousness; introduction to social psychology; personality; abnormal psychology. Patient management — communication; role behaviour; first impressions; interviewing response and evaluation education, motivation and persuasion; building a good dental health team; conflict management and problem-solving.
Thurs. 6:30 to 9:30 p.m. Casa Loma Campus
45 hours Fee: $67.50
September 15 to December 22 • **PSY 171**

REGISTRATION FOR THE FALL TERM BEGINS JULY 18

Dental Technology

Dental Technology Certificate Programs

George Brown College is pleased to announce a new series of evening programs in dental technology. The programs include:
— Certificate in Partial Dentures
— Certificate in Full Dentures
— Certificate in Orthodontics
— Certificate in Crown & Bridge and Ceramics
Each program is comprised of a number of required courses plus a set of elective courses. The electives determine individual certificates.

Required Courses:
Language and Communication ENG 106X
Human Relations HR101X
Oro-Facial Anatomy ANAT 102X
Occlusion DENT 926
Dental materials DENT 922

Electives:
Complete Dentures: Part I
Complete Dentures: Part II
Orthodontics: Part I
Orthodontics: Part II
Introduction to Crown & Bridge and Ceramics: Part I
Introduction to Crown & Bridge and Ceramics: Part II
Partial Dentures: Part I
Partial Dentures: Part II

The Programs are designed to upgrade the skills and knowledge of people currently working in the field. Successful graduates of the Certificate programs may want to continue their training by applying to take the full-time Diploma program in Dental Technology. Required courses correspond to the material covered in the full-time program and students successfully completing these courses may apply for advanced standing. The elective courses are designed as introductory courses and are not direct equivalents to the full-time laboratory courses. Students accepted into the full-time program may, however, apply for a partial exemption based on grades and skill level.

Admission requirements: Applicants must be employed in a dental laboratory, or must have received permission from the course instructor. While students may be accepted into individual courses, preference will be given to those students who enrol in a full Certificate program.

Orientation/Registration:
Applicants are asked to attend an orientation/registration session. Faculty will be available to answer questions and help plan schedules.
Orientation for part-time students takes place:
Tuesday, August 23, 6 to 9 p.m.
Cafeteria, Casa Loma Campus
160 Kendal Ave.

Crown & Bridge and Ceramics: Part I

Prerequisite: Oro-Facial Anatomy and Dental Materials.
This course is designed to introduce students to the field of fixed prosthodontics. Course content focuses on: fabrication of model sand dies; wax-up techniques; post-core crowns; full gold crowns; and porcelain fused to metal restorations. Students are expected to bring their own wax-up instruments to class.
Wed. 6:30 to 9:30 p.m. Casa Loma Campus
45 hours Fee: $67.50 Materials: $35.00
September 7 to December 14 • **DENT 948**

Full Dentures: Part I

Co-requisite: Oro-Facial Anatomy
This course is designed to provide an introduction to the construction of full dentures. Students are introduced to: prosthodontic techniques; preliminary impressions and casts; custom trays; master casts; base plates and occlusal rims.
Emphasis is placed on recognizing anatomical structures and their relation to denture construction, the sequencing of prosthodontic treatment required for complete dentures, pouring of preliminary impressions, and the construction of custom trays. Students beed box, pour master casts and construct base plates and occlusal rims.
Wed. 6:30 to 9:30 p.m. Casa Loma Campus
45 hours Fee: $67.50 Materials: $75.00
September 7 to December 14 • **DENT 944**

Orthodontics: Part I

Prerequisite: Oro-Facial Anatomy and Dental Materials.
This course is designed to introduce the basic techniques and knowledge required to fabricate removeable and fixed orthodontic appliances. Course content focuses on trimming; soldering different wire gauges; bending adams clamps; fabricating labial arches; banding teeth on a model; manipulating cold cure acrylic resins; fabrication of simple space maintainers; and trimming and polishing appliances.
Wed. 6:30 to 9:30 p.m. Casa Loma Campus
45 hours Fee: $67.50 Materials: $35.00
September 7 to December 14 • **DENT 946**

Dental Materials Part I

Prerequisite: Currently working as a dental assistant.
Theory and practice in the selection and manipulation of dental materials used in dental laboratory technology. Topics include: specifications of various dental materials, physical and mechanical properties, biophysical application of dental materials, the nature of metals and alloys, impression materials, gypsum products, and casing investments, waxes, gold and its alloys, base metal alloys, plastics and porcelain in dentistry.
Mon. 6:30 to 9:30 p.m. Casa Loma Campus
60 hours Fee: $90.00 Materials: $25.00
September 12 to December 19 plus two Sat. • **DENT 106X**

Physiology of Occlusion

The basic principles of gnathology and the stomatognathic system are covered, as well as the basics of: handling impressions, producing gypsum and stone casts, custom trays, baseplates and occlusal rims, articulator mounting, setting-up of teeth into occlusion, and waxing for finishing. Other topics covered include: various types of articulators, their functions and limitations, the facebow and other accessories, physical factors of the determinants of both static and dynamic occlusion, and the synergism of the components of the masticatory process.
Mon. 6:30 to 9:30 p.m. Casa Loma Campus
45 hours Fee: $67.50
September 12 to December 19 • **DENT 926**

Oro-Facial Anatomy

Prerequisite: Currently working as a dental auxiliary.
Through lectures and laboratory sessions, topics introduced include: basic dental terminology, major notation systems, the development, structure, form and function of teeth, eruption chronology, functional relationships between teeth and supporting structures, and dental anomalies and variations.
Wed. 6:30 to 9:30 p.m. Casa Loma Campus
45 hours Fee: $67.50
September 7 to December 14 • **ANAT 102X**

Continuing Education for Dental Assistants and Hygienists

Dental Materials Refresher

Prerequisite: Currently working as a dental assistant or intending to return to active practice.
A refresher course for dental assistants that provides hands-on experience in the use of restorative materials currently used in dental offices. Theory and practice is provided in the following: amalgams, resins, cements and impression materials. The course is not a substitute for the Dental Materials course in the Dental Assisting Certificate program. It counts for 10 points towards renewal of certification with the Ontario Dental Nurses and Assistants Association.
Wed. 6:30 to 9:30 p.m. Casa Loma Campus
12 hours Fee: $18.00 Material Fee: $10.00
September 14 to October 5
October 26 to November 16 • **DENT 942**

Microbiology

This course provides an introduction to microbiology with a particular emphasis on oral microbiology, disease transmission and control.
Wed. 6:30 to 9:30 p.m. Casa Loma Campus
15 hours Fee: $22.50
September 14 to October 12 • **BIO 104X**

Dental Radiography: Theory and Technique

Prerequisite: working in a dental office.
Corequisite: students will be required to successfully complete the Orofacial Anatomy – Biology modules prior to commencing the skill development portion of this course.
This theory and practice course is designed to review the principles and application of dental radiography. The course will focus on radiation safety measures followed by skill development in short cone bisecting and long cone paralleling techniques.
Please note: this is not a credit course for the dental assisting certificate but will provide H.A.R.P. certification.
Thurs. 6:30 to 9:30 p.m.
Casa Loma Campus
60 hours Fee: $90.00
September 8 to December 15, plus 2 Saturdays • **DENT 933**

Pre-Clinical Techniques

Pre- or Co-requisites: Dental Materials; Oro-Facial Anatomy; Microbiology; Completed Medical Form.
Through lecture and practical experience the student will become knowledgeable in the clinical functions to be assumed in professional life. Operating room decorum, instrument identification, materials, chairside assisting procedures, patient management, and ethics are the major areas of concentration.
Wed. 6:30 to 9:30 p.m. (plus 5 Sat.)
Casa Loma Campus
125 hours Fee: $187.50
October 19 to May 24 • **PCT 101X**

Call this number for general information about continuing education courses, unless otherwise indicated in this directory.

Graphic Design Diploma Credits

The Visual Arts Department offers part-time credit courses in the Graphic Design program. Credits obtained part-time are transferable to the full-time diploma program.
Courses are offered in segments to equalize the hours per semester of the full-time program.
Students develop their skills in graphic design and advertising arts to the highest level of competence.
Upon graduation, students can begin their career as a junior artist and progress to professional status in the advertising arts industry. The industry offers diversity and exceptional opportunities for personal and professional growth.
All applicants must submit a portfolio of five to ten samples and pass an art test. Arrangements must be made with the Visual Arts Department for an interview and art test at least two weeks before the course starts. Graduates receive a diploma after completion of the program.
These courses may be taken as non-diploma, in which case an interview and an art test are not necessary.
Note: These courses run for two semesters. Students who have completed Semester I may register for Semester II in January. Students may have to purchase additional supplies in some courses.
For more information, call the Visual Arts Department at 967-1212, ext. 3401 or 3318.

Drawing Research

Drawing exercises are carried out in various media using still life objects. The emphasis is on line, proportion, shading and textures in both negative and positive form. Perspective is taught in relation to interior renderings and outdoor sketching.
Two Semesters Mon. 6:30 to 9:30 p.m.
St. James Campus
42 hours Fee: $63.00
September 12 to December 19 • **DRAW 120X**

Life Drawing

A traditional approach to drawing based on the human figure. Topics include: understanding attitudes, positions and movements using contour, gesture, diagrammatic and progressive drawing.
Two Semesters Tues. 6:30 to 9:30 p.m.
St. James Campus
42 hours Fee: $63.00
September 13 to December 13 • **LIFE 121X**

Lettering

A thorough exposure to lettering, beginning with its history, terminology and current usage.
Practical work is stressed, starting with pencil and proceeding to pen, brush and marker. The emphasis is on devising letters to indicate special effects.
Two Semesters Wed. 6:30 to 9:30 p.m.
St. James Campus
42 hours Fee: $63.00
September 14 to December 14 • **LETT 122X**

Design

All aspects of two-dimensional design are examined. Geometric and free shapes are used in projects involving point, line, contrast, texture, etc. Design theories are discussed in conjunction with the practical projects. Some basic advertising layouts are developed.
Two Semesters Thurs. 6:30 to 9:30 p.m.
St. James Campus
42 hours/semester Fee: $63.00
September 15 to December 15 • **DES 123X**

Science of Colour

An extensive study of the Itten colour system which explores the colour wheel, tonal scales and the dynamics of colour contrast. Exercises in design and illustration creatively employ the colour concepts presented. Projects on the history of art are also involved.
Two Semesters Thurs. 6:30 to 9:30 p.m.
St. James Campus
84 hours Fee: $126.00
September 15 to April 13 • **COLR 124X**

Graphic Reproduction Studies

Corequisite: It is recommended that PRNT 125X be taken in conjunction with MECH 126X — Mechanicals.
An introduction to the theories and definitions of printing technology, typesetting, platemaking, camera work and stripping. Develop and complete practical projects based on the theory presented.
Two Semesters Mon. 6:30 to 9:30 p.m.
St. James Campus
84 hours Fee: $126.00
September 12 to April 10 • **PRNT 125X**

Mechanicals

This course leads to STGR 130X — Studio Graphics.
An introduction to the equipment and procedures used in preparing art for printing. Develop and increase your skills through class exercises.
Overlay and keyline artwork are also covered, as is the use of a stat camera.
One Semester Tues. 6:30 to 9:30 p.m.
St. James Campus
42 hours Fee: $63.00
September 13 to December 13 • **MECH 126X**

Illustration

An introduction to basic illustration techniques such as pencil and pen shading, and drawing faces, hands, etc. From these basic exercises, advance to commercial applications using various media.
Two Semesters Wed. 6:30 to 9:30 p.m.
St. James Campus
42 hours Fee: $63.00
September 14 to December 14 • **ILLS 128X**

Typographical Design

Study the ordering and application of suitable typefaces, including basic measurements and copyfitting and apply this knowledge to designing with actual type. Felt-tip marker indication is stressed.
Two Semesters Tues. 6:30 to 9:30 p.m.
St. James Campus
42 hours/semester Fee: $63.00
September 13 to December 13 • **TYPO 129X**

Marker Rendering Techniques

An extensive study beginning with the correct use and the various methods of handling felt-tipped markers as they apply to layout and design problems. Both graphic and photographic rendering techniques are thoroughly explored.
Two Semesters Mon. 6:30 to 9:30 p.m.
St. James Campus
42 hours Fee: $63.00
September 12 to December 19 • **MRK 131X**

Career Oriented Courses

Note: Students may have to purchase additional supplies in some courses.

Advertising Design Basic

Prerequisite: An interest in art.
Study the theories of commercial art and graphic design and get practical experience in the following: thumbnails, rough layouts, comprehensive layouts, mechanicals, paste-ups, and colour separation by amberlith overlays.
Wed. 6:30 to 9:30 p.m. St. James Campus
42 hours Fee: $63.00 Materials: $20.00
September 14 to December 14 • **ADES 900**

Advertising Design Advanced

Prerequisite: ADES 900 — Advertising Design Basic or a basic knowledge of design copyfitting and mechanicals.
Design and prepare camera-ready art for a number of advanced level projects, including: print media advertisements, logo designs and their application to stationery, package design, promotional design, and typographical design. Learn to operate a stat camera and an IBM composer and examine methods of colour reproduction and production.
Mon. 6:30 to 9:30 p.m. St. James Campus
42 hours Fee: $63.00 Materials: $20.00
September 12 to December 19 • **ADES 902**

Retail Advertising Layout — Basic

Prerequisites: An interest in commercial art and drawing ability.
An introduction to the practical day-to-day aspects of retail advertising layout. Learn to produce successful retail advertisements and solve any design problems in the visualization and rendering of the layout. Other topics covered include: basic copyfitting and layout techniques, merchandise problems, dealing with clients, translating design solutions into photographic terms, merchandising, demographics; different print media including newspapers, magazines and direct mail advertising and their application to various segments of the market. A wide variety of assignments enable students to gauge their abilities and progress.
Tues. 6:30 to 9:30 p.m. St. James Campus
42 hours Fee: $63.00
September 13 to December 13 • **ADES 905**

Retail Advertising Layout — Advanced

Prerequisite: ADES 905 — Retail Advertising Layout — Basic or knowledge of copyfitting and basic layout techniques.

This course offeres students an in-depth look at Retail Advertising Layout, using basic layout skills to develop portfolio pieces and a deeper understanding and facility in designing clear, comprehensive layouts. A wide variety of different kinds of formats and advertising will be covered in weekly assignments; from all-type ads, catalogue, direct mail and newspaper to format and in-store advertising campaigns. Subjects discussed will include merchandising, production deadlines, studio politics, freelance rates and opportunities, as well as portfolio presentations and job hunting.
Thurs. 6:30 to 9:30 p.m. St. James Campus
42 hours Fee: $63.00
September 15 to December 15 • **ADES 906**

Airbrush Techniques

For beginners or advanced students.
A hands-on introduction to setting-up, operating and caring for an airbrush that teaches both the fundamentals and more advanced airbrush techniques. Class projects cover fine art, product rendering and advertising illustration and students are encouraged to bring in their own work. It is recommended that students supply their own airbrushes. Enrolment is limited.
Tues. 6:30 to 9:30 p.m. St. James Campus
42 hours Fee: $63.00 Materials: $25.00
September 13 to December 13 • **AIRB 901**

Cartooning

For beginners or those with some experience who want to learn cartooning techniques for pleasure or to add to their income. Cartooning is used effectively in business, all forms of advertising, sales promotion, and the entertainment field. Various techniques presented include: the creation of characters, conventional signs of cartooning, and how to draw caricatures.
Wed. 6:30 to 9:30 p.m. St. James Campus
42 hours Fee: $63.00
September 14 to December 14 • **CART 808**

Introduction to Computer Graphics

Hands-on experience in page creation using videotex computers. Learn how to access the computer and initiate the various creation modes. Design and create your own computer graphics which are stored on disk. At the end of the course, receive a 35mm slide hard copy of your project. Enrolment is limited.
Tues. or Thurs. 6:30 to 9:30 p.m.
St. James Campus
30 hours Fee: $249.00 Lab Fee: $20.00
September 20 or 22 to November 22 or 24
• **COMP 800**

Desk Top Publishing for Graphic Designers

NEW

Prerequisite: Knowledge of graphic design or commercial art.
Intended for the designer who wants to find out what Desk Top Publishing is all about. The course includes PageMaker 2.0a, and involves various drawing, layout and design. Emphasis is placed on combining the various applications and designing newsletters, ads, etc. on the Macintosh. Students will be encouraged to redesign material that they're involved with on a daily basis. Output is from a LaserWriter Plus. Limited enrolment.
Mon. or Wed. or Fri. 6:30 to 9:30 p.m.
Sat. 9 a.m. to noon St. James Campus
15 hours Fee: $150.00 Material Fee: $20.00
September 19, 21, 23, 24 to October 24, 19, 21, 29
October 31, November 2, 4, 5 to November 28, 30, December 2, 3 • **COMP 801**

The Professional Copywriter

Prerequisite: An interest in copywriting.
Learn what it takes to become a successful copywriter in this introduction to writing advertisements for print, radio and television. Topics covered include: getting ideas, writing headlines, making copy interesting and persuasive, revising for clarity, and becoming more creative. A wide variety of weekly assignments enable students to gauge their abilities and help them build a portfolio of their work.
Mon. 6:30 to 9:30 p.m. St. James Campus
30 hours Fee: $45.00
September 19 to November 28 • **COPY 900**

Interior Design

A practical course for those interested in interior design and decorating their homes and apartments. Topics covered include: floor plans, colour schemes, furniture layout in rooms and leisure areas, lighting, kitchen design, fabrics, and the selection of furniture, drapes, carpets and other accessories for all rooms. There are field trips plus basic exercises and projects. Exterior design is covered for patios, sun porches, decks, etc.
Tues. 6:30 to 9:30 p.m. St. James Campus
30 hours Fee: $81.00
September 20 to November 22 • **DES 802**

Contemporary Magazine Design & Layout

Prerequisite: Basic design skills and an interest in contemporary magazine design.
A comprehensive course for artists and designers who want to learn more about contemporary magazine design, layout and production. Areas covered include: editorial layout, scheduling, production and deadlines. Actual magazines are redesigned and students are encouraged to design new magazine formats using type, photographs, illustrations, and graphics.
Thurs. 6:30 to 9:30 p.m.
St. James Campus
42 hours Fee: $63.00
September 15 to December 15 • **DES 900**

Technical Illustration

Prerequisite: Drawing skills.
A comprehensive course that teaches artists the skills needed to produce product manuals and assembly instructions. Learn technical illustration with the emphasis on exact pencil renderings and inking. Shading of drawings using various media and exploded views are also explored.
Mon. 6:30 to 9:30 p.m. St. James Campus
30 hours Fee: $45.00
September 12 to November 21 • **ILLS 900**

Technical Graphics

Prerequisite: ILS 900 — Technical Illustration or drawing skills with an interest in accuracy and detail.
This is a comprehensive course for the artist, draftsman, illustrator and designer to understand the complexities of technical graphics and develop the fine skills of illustrating in this field. Students will experience a variety of pictorial methods used in technical illustration, examples of applique rendering in various media and will be introduced to the marketing process. Some subjects explored will be patent drawings, design of technical manuals, audio visuals, new product rendering in line and airbrush.
Thurs. 6:30 to 9:30 p.m. St. James Campus
42 hours Fee: $63.00
September 15 to December 15 • **ILLS 901**

Portrait Painting

Prerequisite: Basic knowledge of Life Drawing. This course is open to beginners or advanced students. Anatomy, colour mixing, painting techniques specific to portraiture with a special emphasis on drawing are studied. Portrait studies are done from a variety of models. The instructor advises students on media appropriate to their level of experience.
Wed. 6:30 to 9:30 p.m. St. James Campus
42 hours Fee: $63.00
September 16 to December 16 • **PAIN 904**

Painting and Illustrating

Prerequisites: Drawing skills and an interest in painting and illustration.
Study the history of contemporary illustration and the work of professional illustrators while developing your own personal style. Learn the practical techniques of working with watercolour, tempera, casein, gouache, acrylics and oils.
Thurs. 6:30 to 9:30 p.m. St. James Campus
42 hours Fee: $63.00
September 15 to December 15 • **PAIN 905**

Studio Management

Prerequisites: Knowledge of design and freelance experience. Designed for freelance designers, staff artists or beginner designers who want to learn how to run a profitable design office. Topics covered include: pricing, invoicing, purchase orders, taxation, organizing the office, using forms, establishing purchase order and invoice numbers, and other aspects of business. Directed toward commercial aspects.
Thurs. 6:30 to 9:30 p.m. St. James Campus
30 hours Fee: $45.00
September 22 to November 24 • **STBM 900**

Audio Production

Basic Audio Production Techniques

Through extensive practical work, gain an understanding of the following: acoustics, microphones, live sound reinforcement, recording, and home studio techniques.
Mon. and Wed. 6 to 9 p.m. St. James Campus
60 hours Fee: $90.00
September 19 to November 28 • **ADIO 923**

Audio Production Techniques

To be offered January 1989. • **ADIO 928**

Screen Printing

Screen Printing (Basic)

This course is designed as an introduction to enable the student to understand the basic fundamentals of the Screen Printing process, through the completion of a number of projects, ranging from single colour through more challenging multi-colour reproduction. The elements covered will be: stencil cutting, colour mixing, screenmaking and handprinting. Note: Students must provide printing surfaces other than paper. Instructor reserves the right to limit material usage.
Wed. 6 to 9:30 p.m. St. James Campus
50 hours Fee: $75.00 Materials: $55.00
September 14 to December 14 • **SP 901**

Screen Printing (Advanced)

Prerequisite: SP 901 — Screen Printing (Basic) or proof of six months industry working experience. This course is designed to enable the student to produce a limited number of advanced level projects. The student will begin by learning process line camera operation and line graphics as well as one colour halftone film production. Job planning, mechanical set-up, and film masking – stripping procedures, application, processing and imposition of photo stencil systems, press set-up and production.
NOTE: Students must supply any printing material other than paper. The instructor reserves the right to limit material usage.
Mon. 6 to 9:30 p.m. St. James Campus
50 hours Fee: $75.00 Materials: $75.00
September 12 to December 19 • **SP 903**

Signwriting

Signwriting

Learn the fundamentals of general signwriting as well as the following topics: brush lettering, type faces, colour and layout theory, materials, basic screen printing, and the application of signwriting on masonite, plywood, metal and glass.
Tues. 6 to 9:30 p.m. St. James Campus
50 hours Fee: $75.00 Materials $35.00
September 13 to December 13 • **SIGN 900**

Show Card Writing

An introduction to show card lettering, pen lettering and the production of banners, posters, etc. Some techniques covered are: pen and brush lettering, type faces, colour and layout theory, and practice time. Those with previous experience are encouraged to do advanced work.
Tues. 6 to 9:30 p.m. St. James Campus
50 hours Fee: $75.00 Materials: $35.00
September 13 to December 13 • **SIGN 901**

Photography

Introduction to Photography

Gain practical hands-on experience in camera work, developing, printing, dry-mounting, and other techniques. Illustrated lectures cover the following topics: camera lenses, f-stops, shutter speeds, basic lighting techniques, filters, darkroom layout and more. Due to heavy demand, this course is offered several times each year but early registration is recommended.
Mon. Tues. Wed. Thurs. Fri. 6:30 to 9:30 p.m. or Sat. 1 to 4 p.m. St. James Campus
30 hours Fee: $60.00 Lab Fee: $30.00
September 19, 20, 21, 22, 23, or 24 to November 28, 22, 23, 24, 25 or 26
• **PHOT 800**

Intermediate Photography

Prerequisite: PHOT 800 — Introduction To Photography, an equivalent course or similar level of comprehension.
Further develop technical skills as well as the ability to visualize and compose a photograph through practical exercises and assignments. Lectures and discussions cover the following subjects: improving negative quality through proper exposure, developing and handling film; using different lenses, filters and lighting, spotting and mounting finished work, colour theory including a colour transparency assignment, and practice using darkroom controls and techniques to improve print quality. Students supply their own film and paper and should expect to spend up to $50.00 on materials. The College provides all processing solutions.
Tues. 6:30 to 9:30 p.m. St. James Campus
45 hours Fee: $98.00 Lab Fee: $15.00
September 13 to December 20 • **PHOT 801**

Advanced Photography

Prerequisite: PHOT 801 — Intermediate Photography, an equivalent course or similar level of comprehension.
Provides formal direction to improve your technical and aesthetic abilities. An opportunity to use a 4 x 5 camera is provided. Topics covered include: toning, bleaching, hand-colouring, mounting, spotting, the history of photography, and exercises for improving composition and darkroom technique. Students supply their own film and paper and should expect to spend up to $50.00 on materials. The College provides all processing solutions.
Sat. 1 to 4 p.m. St. James Campus
42 hours Fee: $90.00 Lab Fee: $15.00
September 10 to December 17 • **PHOT 802**

Documentary Photography

Practice and develop technical skills while gaining a working understanding of documentary photography. Designed for those with or without previous experience in photography. Learn to process and print your own negatives and then produce a series of prints covering one or two topics, including a photographic documentation of the home or work place. Students should expect to spend up to $50.00 for supplies.
Fri. 6:30 to 9:30 p.m. St. James Campus
42 hours Fee: $63.00 Lab: $15.00
September 9 to December 16 • **PHOT 921**

Black and White Print Workshop

Learn black and white printing skills in this hands-on workshop. Instruction is given in fundamental black and white printing techniques with a maximum amount of time available for extended darkroom work. Although beneficial, previous dark-room experience is not required. Enrolment is limited.
Mon. or Wed. 6:30 to 9:30 p.m. St. James Campus
42 hours Fee: $63.00 Lab: $25.00
September 12 or 14 to December 19 or 14
• **PHOT 922**

Colour Slide Composition

Designed for people with or without previous experience in photography. Develop technical and aesthetic skills through extensive analysis of photographic composition using colour slides. Learn to use the techniques of framing, depth of field and motion as aesthetic controls to further understand visual forms. After considering photographic composition in a single frame, build upon that understanding through the development of a sequence of photographs.
Thurs. 6:30 to 9:30 p.m. St. James Campus
30 hours Fee: $45.00
September 15 to November 17 • **PHOT 923**

Photography in Advertising

Designed for those interested in commercial photography and specifically those working in the graphic arts industry. Designers, layout artists, art directors, etc. study the photographic process, learn how to work with photographers, and gain an understanding of the limitations of photographic reproduction. Lectures, demonstrations and field trips deal with the following topics: camera formats, lighting, photographic materials, the photographic session, and the technical attributes of the photograph.
Thurs. 6:30 to 9:30 p.m. St. James Campus
30 hours Fee: $45.00
September 15 to November 17 • **PHOT 929**

Photography: Printing Colour Negatives

Hands-on experience printing colour negatives for photographers with or without previous experience. After discussion of the basic theory of colour printing, the maximum amount of time is devoted to making prints. The course is held at Toronto Image Works, a professionally equipped colour darkroom rental facility. Tuition includes 15 hours of darkroom time, lab chemistry, and all materials needed.
Note: Classes are held at Toronto Image Works, 80 Spadina Avenue, Suite 207, Toronto. Register at St. James campus.
Sat. 9 a.m. to noon Toronto Image Works
15 hours Fee: $22.50
Material: $23.00 Lab: $66.00
October 1 to 29 • **PHOT 931**

Photography of People

Prerequisite: PHOT 801, an equivalent course, or level of comprehension.
This course is designed for people who want to improve their skills in taking pictures of people. This practical hands-on course covers the following topics: how to choose the correct camera; type of lens and filters; studio lighting and available light; location photography; how to photograph faces; how to create the right atmosphere for a successful portrait; and how to accomplish all of this using a minimum amount of equipment.
Mon. 6:30 to 9:30 p.m. St. James Campus
45 hours Fee: $67.50
September 12 to January 2 • **PHOT 936**

Elements of Photographic Design

Prerequisite: PHOT 801, or equivalent course or level of comprehension.
This course provides the intermediate level student with information which helps to address the issues of creativity and esthetics as they apply to their photographs. It asks the student to consider the meaning of the subject selection, to examine all the visual attributes of a scene, to utilize and arrange those which best convey a sense or meaning so that a meaning can be grasped. An understanding of the use of the visual elements, such as shape, texture, form and colour is acquired through a step-by-step program of assignments and workshops. The course covers the principles of design which a good photo relies upon. Topics included proportion, rhythm, balance, perspective, and highlighting of the subject.
Note: Students will require a 35mm camera and a supply of colour negative film.
Thurs. 6:30 to 9:30 p.m. St. James Campus
42 hours Fee: $63.00
September 15 to December 15 • **PHOT 937**

How to reach us:
947-9914
Call this number for general information about continuing education courses, unless otherwise indicated in this directory.

Video

Videography — Basic and Advanced Camera

Hands-on experience with different video formats, covering all the features and applications of the equipment as well as how to connect it up. Specific topics discussed and demonstrated include: VHS and Beta vs. 8mm, basic video image production, video tape, editing video tape, video cameras, lighting for video, special effects, and post-production techniques.
Mon. 6:30 to 8:30 p.m. St. James Campus
16 hours Fee: $54.00
September 12 to November 7 • **PHOT 927**

Cinematography

Basic Cinematography

An introduction to 16mm motion picture production techniques, including: basic scripting, production planning, shooting and camera positions, lighting, sound recording and mixing, editing, and graphics. A basic knowledge of photography or super 8 film- making would be helpful for class projects and assignments.
Tues. and Thurs. 6 to 10 p.m. St. James Campus
60 hours Fee: $90.00
September 20 to November 8 • **CINE 922**

Cinematography

To be offered January 1989 • **CINE 925**

Printing Technology

Printing Technology covers all aspects of pre-press preparatory work, press operation and post-press binding and finishing. George Brown has the best equipped facilities in Ontario and offers training in the latest printing techniques.

Printing Technician/ Technology Diploma Credits

With the exception of COMP 106X, all other courses in the Composition and Typography section are creditable towards the full-time diploma program. A minimum grade of "C" is required to receive credit standing for a part-time course. For more information on full-time programs, call the Printing Technology Department at 967-1212, Ext. 3318 or 3319.

Composition and Typography

Introduction to Typography

Prerequisite: Typing ability is advisable.
Learn the basic principles of typography (basic copyfitting, typeface identification, ems, units, fonts, families), and typeset a number of assignments. Topics covered include: the development and purpose of typesetting, differences between typesetting, word processing and desk top composition. The typesetter's measuring system, arranging type on a page, spacing, basic layout and mark-up.
Tues. and Thurs. 6 to 10 p.m. St. James Campus
32 hours Fee: $48.00 Materials: $30.00
September 13 to October 6
October 11 to November 3
November 8 to December 1 • **COMP 102X**

Introduction to Printing Processes

Designed for those working in the printing field or related industry, or those who want an overview of the printing trade prior to selecting a course. Lectures and demonstrations cover the major printing techniques with instructors in different production areas presenting their specialties. Students are encouraged to discuss any problems with the material.
A mark is not issued but a record of completion is kept based on attendance of at least 60% of the classes, which must include the final evening.
Mon. 6 to 9 p.m. St. James Campus
36 hours Fee: $54.00 Materials: $15.00
September 12 to November 28 • **COMP 106X**

Paper and Film Assembly (Paste-up)

This course introduces skills that provided a valuable background to anyone involved in desktop composition as applied to page make-up. Learn the laying out of boards and mylar for the assembly of typeset material as well as the production of paper and film positives using various darkroom techniques. The course covers a wide variety of projects ranging from simple one color postcards to advanced camera-ready artwork using Amberlith overlays for multicolour work. Other techniques covered include: negative stats on a process camera, and using phototypesetters such as the strip printer and the Compugraphic 7200 headliner machines.
Tues. and Thurs. 6 to 10 p.m.
St. James Campus
60 hours Fee: $90.00 Materials: $45.00
September 6 to October 25
October 27 to December 15 • **COMP 110X**

Computer Typesetting (Keyboard Operation and Concepts)

Prerequisites: COMP 102X — Introduction to Typography and 25 w.p.m. typing speed, although 50 w.p.m. is advisable if you plan to work in the field.
An introduction to the use of a mini-computer based and networked system having two 80 mb hard drives and capable of storing up to 500 paperback novels. This system is representative of most (if not all) of the better quality typesetting devices and graduates trained on this system are to be found operating all manner of typesetting machines. Output is by laser printer with some RC paper outputting using a CRS.
The course content covers system knowledge, and a wide variety of typesetting work involving text auto and manually justified, simple tabular setting, kerning, reverse lead work, box making, advertising typography. The objective is to train people for the high-end trade typesetting field, although others would also benefit.
Tues. and Wed. 6 to 10 p.m. St. James Campus
60 hours Fee: $90.00 Materials: $45.00
October 25 *to December 13* • **COMP 200X**

Advanced Computer Typesetting I

To be offered January 1989. • **COMP 300X**

Photomechanical Reproduction and Film Imposition

Printing Technician/ Technology Diploma Credits

With the exception of CAM 900 and CAM 360X, all other courses in the Photomechanical Reproduction and Film Imposition section are creditable towards the full-time diploma program. A minimum grade of "C" is required to receive credit standing for a part-time course. For more information on full-time programs, call the Printing Technology Department at 967-1212, Ext. 3318 or 3319.

Photomechanical Reproduction

Prerequisite: Preference is given to those employed in the graphic arts industry. A basic course in black and white cameras covering the operation and calibration of process cameras, as well as darkroom equipment for line, fine-line and half-tone negatives. Other topics covered include: using filters, panchromatic film, making photographic contacts and duplicates, processing film manually and in film processing machines, and the theory of photographic lenses, light sources, film emulsion and processing solutions.
Tues. and Thurs. 6 to 10 p.m. St. James Campus
60 hours Fee: $90.00 Materials: $75.00
September 8 to October 27
November 8 to January 10 • **CAM 100X**

Photomechanical Reproduction

Prerequisite: CAM 100X — Photomechanical Reproduction or equivalent experience.
An advanced course in half-tone photography using lith and rapid access film and processors. Other topics include: the operation, maintenance and control of film processors, the use of reflection transmission and per cent dot densitometers, calibration of various types of contact screens to camera and processing conditions, making duotones and other special effects, the use of exposure computers, and an introduction to colour separation procedures using a colour scanner.
Mon. and Wed. 6 to 10 p.m. St. James Campus
60 hours Fee: $90.00 Materials: $50.00
September 12 to November 2 • **CAM 200X**

Introduction to Process Colour Scanner

Prerequisite: Employment related to the graphic arts industry.
Designed for those working in the graphic arts industry who want a basic introduction to process colour theory, colour separation procedures, colour scanners and page make-up systems. The set-up and operation of a colour separation scanner is demonstrated and separations produced to illustrate the various functions of the machine. The course is mainly demonstration and discussion, and for information only.
Mon. and Wed. 6 to 9 p.m. St. James Campus
36 hours Fee: $54.00 Material: $25.00
November 7 to December 14 • **CAM 900**

Photomechanical Reproduction — Scanner

Prerequisite: CAM 200X — Photomechanical Reproduction or equivalent experience.
An introduction to colour theory as it applies to process colour printing, the principles and operation of a colour scanner, proofing, evaluation of colour and future trends for those with extensive experience in line and half-tone process photography. Other topics covered include: tone reproduction, colour correction, detail enhancement, undercolour removal, various other effects for transmission and reflection copy, and the operation and use of film processors and densitometers as related to process colour.
Tues. and Thurs. 6 to 10 p.m. St. James Campus
60 hours Fee: $90.00 Materials: $75.00
September 13 to November 1 • **CAM 330X**

Photomechanical Reproduction — Advanced Scanner

Prerequisite: CAM 330X — Photomechanical Reproduction — Scanner or equivalent industrial experience.
A further study of selective colour correction and related special effects, including an in-depth explanation of the colour computer set-up for different process inks, printing ink analysis, and the use of GATF colour diagrams. The concept of digitization and colour page make-up are covered with visits to plants for demonstrations of electronic page make-up. Other topics include: gray component replacement and dot gain, black and white reproduction, and basic maintenance.
Tues. and Thurs. 6 to 10 p.m. St. James Campus
60 hours Fee: $90.00 Materials: $75.00
November 8 to January 10 • **CAM 360X**

Film Imposition/ Printing Surface Preparation

Prerequisite: Preference is given to those employed in the graphic arts industry.
A basic course in black and white, line colour and half-tone stripping that also introduces job planning and the layout of line and half-tone negatives. The emphasis is on imposition and the preparation of folded dummies and layout sheets for various types of bookwork. Other topics covered include: darkroom techniques for making contacts and duplicates, making presensitized offset plates manually and using processors, most areas of one or more colour line negative stripping, and computerized page make-up.
Tues. and Thurs. 6 to 10 p.m. St. James Campus
60 hours Fee: $90.00 Materials: $75.00
September 6 to October 25
November 8 to January 10 • **PSP 100X**

Film Imposition/ Printing Surface Preparation

Prerequisite: PSP 100X or equivalent experience.
An advanced course in the techniques of black and white, colour and four colour process film stripping. Topics covered include: contacting, step and repeat, spreads and chokes, the programming and operation of a photocomposing machine and computerized page make-up. A number of different colour proofing systems are used.
Mon. and Wed. 6 to 10 p.m. St. James Campus
60 hours Fee: $90.00 Materials: $75.00
September 7 to October 31 • **PSP 200X**

Film Imposition/Printing Surface Preparation Colour

Prerequisite: PSP 200X or equivalent experience.
The emphasis at this level is on four-colour process stripping procedures including the preparation of flats containing chokes and spreads, fake colour and colour separation. Colour charts are prepared by the student, incorporating the various screen angles and tints. Further experience will be gained in manual step and repeat methods, machine photocomposing, computerized imposition and electronic page make-up.
Mon. and Wed. 6 to 10 p.m.
St. James Campus
60 hours Fee: $90.00 Materials: $75.00
November 2 to January 11 • **PSP 300X**

Machine Printing

Printing Technician/ Technology Diploma Credits

With the exception of LITH 105X and LITH 210X, all other courses in the Machine Printing section are creditable towards the full-time diploma program. A minimum grade of "C" is required to receive credit standing for a part-time course. For more information on full-time programs, call the Printing Technology Department at 967-1212, Ext. 3318 or 3319.

Machine Printing — Offset

A basic course in the fundamentals of offset lithography using Multilith presses. Topics covered include: feeding, register, dampening systems, ink control, and running one-colour and two- colour projects. This course leads to LITH 105X — Machine Printing — Offset.
Mon., Tues. or Thurs. 6 to 10 p.m.
St. James Campus
60 hours Fee: $90.00 Materials: $50.00
September 12, 13 or 15 to
December 21, 20 or 22*
Note: Due to Thanksgiving (Mon., October 10), make-up class will be on Wed., December 21.* • **LITH 100X

Machine Printing — Offset

Prerequisite: LITH 100X or permission of the instructor.
An advanced course in offset lithography using multilith presses. Topics covered include: feeding, dampening systems, colour control, and an introduction to the operation of the T51 two-colour unit for the printing of multi-colour projects. This course leads to LITH 110X.
Wed. 6 to 10 p.m. St. James Campus
60 hours Fee: $90.00 Materials: $50.00
September 7 to December 14 • **LITH 105X**

Machine Printing — Offset

Prerequisite: LITH 105X or permission of the instructor.
Learn offset lithography on single colour, Heidelberg, Harris, Solna and Miehle presses running both one and two-colour projects. Other topics include: good housekeeping, safety, measuring instruments, devices for pressmen, cylinder arrangements, alcohol and conventional dampening systems, inking, register systems, and a study of paper and ink as related to the pressman.

This course leads to LITH 220X.
Tues. or Thurs. 6 to 10 p.m. St. James Campus
60 hours Fee: $90.00 Materials: $50.00
September 13 or 15 to December 20 or 22
• **LITH 110X**

Machine Printing — Offset

Prerequisite: LITH 110X or permission of the instructor.
An intermediate course in offset lithography on single colour Heidelberg, Harris, Miehle and Solna presses. The course also covers and introduction to colour control using the densitometer and includes both one-colour and multi-colour projects. This course leads to LITH 220X.
Wed. 6 to 10 p.m. St. James Campus
60 hours Fee: $90.00 Materials: $50.00
September 14 to December 21 • **LITH 210X**

Machine Printing — Offset

Prerequisite: LITH 210X or permission of the instructor.
An advanced course in offset lithography on two-colour 29" Harris and 38" Miehle presses. Topics covered include: the fundamentals of two-colour offset lithography, feeding, register systems, inking systems, dampening systems, cylinder arrangements, press familiarization, theory and practical application of two-colour offset printing, and a four-colour process project.
Tues. 6 to 10 p.m. St. James Campus
60 hours Fee: $75.00 Materials: $50.00
September 13 to December 20 • **LITH 220X**

Machine Printing — Web Offset

Prerequisites: LITH 210X and permission of the instructor.
A basic course in the fundamentals of web offset printing covering the operation of the Solna Commercial III web offset press (36" x 22 3/4" cutoff). Topics covered include: plate bending, plate packing, pre-make ready, web-up, damp-up and ink-
up procedures, pressroom safety, good housekeeping, roll stand tension control, shafting and installing new rollers, folder familiarization, make ready press for one-colour and two-sided jobs, and tabloid folded segment.
Mon. 6 to 10 p.m. St. James Campus
60 hours Fee: $90.00 Materials: $50.00
September 12 to January 9 • **LITH 230X**

Machine Printing — Web Offset

Prerequisites: LITH 230X — and permission of the instructor.
An intermediate course in web offset printing using the Solna Commercial III web offset press (36" x 22 3/4" cutoff) that reviews LITH 230X and includes the make ready and running of more complex projects. Other topics include: make ready and run one- colour two-sided with 1/4 fold, changeover to two web operation tabloid fold on blank stock, make ready and run double parallel fold and one colour two sides (one web), and make ready and run double parallel fold, two colours on two sides (one web).
Tues. 6 to 10 p.m. St. James Campus
60 hours Fee: $90.00 Materials: $50.00
September 13 to December 20 • **LITH 330X**

Machine Printing Flexography

Prerequisite: Preference is given to those with pressroom experience.
A basic course in the fundamentals of flexographic printing. Topics covered include: safety, good housekeeping, roll feed and web tension, the printing units; servicing air, water, gas and electrical controls on the press, oven drying, roll rewind, circulating pump for inking systems, inks and their compatible solvents, measuring ink viscosity, rubber plates, Anilox rolls, flexographic ink metering system, position and register, substrates, running problems and corrections.
Mon. 6 to 10 p.m. St. James Campus
60 hours Fee: $90.00 Materials: $50.00
September 12 to January 9 • **FLEX 200X**

Machine Printing Flexography

Prerequisite: FLEX 220X or permission of the instructor based on equivalent industrial experience.
An advanced course in flexographic printing on various substrates using photo polymer and rubber plates for process printing. The use of a two-roller ink system or the doctor blade method of process printing is also covered.
Tues. 6 to 10 p.m. St. James Campus
60 hours Fee: $90.00 Materials: $50.00
September 13 to December 20 • **FLEX 300X**

Binding and Finishing

Printing Technician/ Technology Diploma Credits

With the exception of BIND 902A and BIND 902B, all other courses in the Binding and Finishing section are creditable towards the full-time diploma program. A minimum grade of "C" is required to receive credit standing for a part-time course. For more information on full-time programs, call the Printing Technology Department at 967-1212, Ext. 3318 or 3319.

Binding and Finishing

Prerequisite: Elementary mathematics.
Course certificates are subdivided into the above categories with skills and machines taught as supplements to each category. Each major machine requires nearly 60 hours of instruction. BIND 125A-B, 225A-B and 325A-B are courses in large and small machines. BIND 126A-B and 226A cover small machines and tablework.
Gain a thorough understanding of a selection of the following equipment:
Polar 115 45" Guillotine
(Auto-spacer and Gergek Computer)
Seybold 42" Guillotine
(Auto-spacer and Gergek Computer)
Baum Folders – Pile Feed
(17" x 22" and 20" x 26")
Baum Folder – Continuous Feed (26" x 40")
Stahl Folder – Buckle/Knife – Pile Feed
(20" x 31")
Mueller Stitcher/Trimmer
Christensen Gang Stitcher
Bostitch 19E Stitcher
Müller Gathering Machine – Type 201
Mueller Pony 5 Roto-Binder
Smyth No. 12 Book Sewers
Kabar Di-Electric Heat Sealing Machine
Foil Stamping Machine
Nygren-Dahly Rotary Perforator
Challenge Paper Drills
Cerlox – Table Top Combo
Book Back Stripper – Table Top
Casemaking Gauge
Hickock Standing Press
Hand Sewing Frames
Mon., Tues., Wed., Thurs., or Sat.
St. James Campus
60 hours Fee: $90.00
Mon. to Thurs. 6 to 10 p.m., Sat. 8 a.m. to noon
September 6 to December 15
• **BIND 125A-B**
• **BIND 126A-B**
• **BIND 225A-B**
• **BIND 226A**
• **BIND 325A-B**

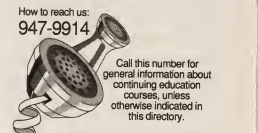
Hand Bind and General Repair

Learn basic manual bookbinding, including adhesive binding, sewn hardcover binding, and the general repair of a variety of bindings. Students are required to purchase folding bones, scissors, and one 30mm paint brush for gluing. Any special covering, such as leather, must be purchased by the student. All other materials are supplied.
Mon., Tues. or Thurs. 6 to 10 p.m.
St. James Campus
60 hours Fee: $210.00
September 7 to December 15 • **BIND 902A**

Hand Bind and General Repair

A continuation of BIND 902A covering more difficult repair jobs plus additional practice to increase speed and proficiency at general repair of a variety of bindings.
Mon., Tues. or Thurs. 6 to 10 p.m.
St. James Campus
60 hours Fee: $210.00
September 6 to December 13 • **BIND 902B**

For more information, or to register for bindery courses, please call the Bindery Department at 967-1212, ext. 3256.



How to reach us:
947-9914
Call this number for general information about continuing education courses, unless otherwise indicated in this directory.

Day Classes: Daytime classes start continuously; adjustments are made for holidays.

Evening Classes: Classes are held Mondays and Wednesdays, or Tuesdays and Thursdays. They also start continuously.

For day and evening schedules and additional information about real estate courses, call 967-1212, ext. 3218.

An Introduction to Real Estate — Segment I

This course covers the following topics: investing in real estate, deciding to own or rent, how much should you pay, financing a purchase, government financing plans, benefits and services of a broker, a career in real estate, the relationship between principal and agent and the typical real estate transaction.
Mon. to Fri. Day: 8:30 a.m. to 3:30 p.m.
Night: 6:30 to 9:30 p.m. Adelaide Campus
30 hours
Dates: Continuous • **RE 900A**

Registration for the following Segment II classes must be completed by 9:30 a.m. of the first day of class and by 6:30 p.m. of the first evening class. After 9:30 a.m./6.30 p.m., any available seats will be given to people on waiting lists.

An Introduction to Real Estate — Segment II

Prerequisite: Evidence of completion of Segment I and 75 % pass mark on the examination in Segment I.
After an introduction, this course covers the following topics: real estate and the economy, the Real Estate and Business Brokers Act, the broker and salesperson relationship, ethics, municipal regulations, subdivision control, an introduction to land descriptions, construction, evaluation, advertising, mortgages, agency law, statutes affecting the real estate business, parties to contract, contract law, agreement of purchase and the sale.
Mon. to Fri. Day: 8:30 a.m. to 3:30 p.m.
Night: 6:30 to 9:30 p.m. Adelaide Campus
60 hours
Dates: Continuous • **RE 900B**

Registration for the following Segment III classes must be completed by 9:30 a.m. of the first day of class and by 6:30 p.m. of the first evening class. After 9:30 a.m./6:30 p.m., any available seats will be given to people on waiting lists.

An Introduction to Real Estate — Segment III

Prerequisite: Evidence of completion of Segment II and 75 % pass mark on the examination in Segment II.
This segment uses case studies to illustrate some of the practical situations students encounter day-to-day in a real estate operation.
Mon. to Fri. Day: 8:30 a.m. to 3:30 p.m.
Night: 6:30 to 9:30 p.m. Adelaide Campus
60 hours
Dates: Continuous • **RE 900C**

Certificate Program

The full Certificate Program involves completion of three mandatory subjects: Real Property Law, Principles of Appraisal, and Principles of Mortgage Financing.
Plus the completion of one elective chosen from: Principles of Property Management; Principles of I.C. & I.; Real Estate; or Rural, Recreation and Agricultural Real Estate.

Mandatory Courses:

Principles of Mortgage Financing

This course deals with mortgage terminology, mortgages as an investment, the mortgage market, types of mortgages and lenders, the needs of the borrower and the lender, submitting a mortgage application, the role of secondary financing, mortgage specialties and property appraisals.
Mon. to Fri. Day: 8:30 a.m. to 4:15 p.m.
Night: 6 to 9:05 p.m. Adelaide Campus
40 hours
Dates: Continuous • **RE 902**

Principles of Appraisal

Learn the purposes and functions of real estate appraisal. Specific subjects include: the nature of real property value, legal aspects of real estate, the appraisal process, general area and neighbourhood trends, site analysis, site valuation and problems, introduction to appraising subdivisions, how to inspect and measure a property, building materials and equipment, architectural styles and their functional utility, estimating building costs, accrued depreciation, problems with the cost approach (land and building valuation), introduction to direct sales comparison (market data approach), introduction to the income approach, correlation and final estimate of value, and a course review.
Mon. to Fri. Day: 8:30 a.m. to 4:15 p.m.
Night: 6 to 9:05 p.m. Adelaide Campus
40 hours
Dates: Continuous • **RE 903**

Industrial, Commercial and Investment

Subjects dealt with include: the scope of the commercial investment field, planning and zoning in the municipality, development of the region, feasibility studies, office buildings and shopping centres from both the developer's and the tenant's viewpoint, apartment buildings, ownership versus leasing of co-operatives and condominiums, comparison of the types of investment and the legal and tax problems involved, syndication, the Real Estate and Business Brokers Act and the Bulk Sales Act as they relate to selling a business, and financing commercial projects from the viewpoint of both the lender and the borrower.
Mon. to Fri. Day: 8:30 a.m. to 4:15 p.m.
Night: 6 to 9:05 p.m. Adelaide Campus
40 hours
Dates: Continuous • **RE 904**

Real Property Law

After a history of real property law, topics covered include: the rights and limitations of ownership, estates in land, interests less than estates, leases, covenants, transfer of land interests, the role of the real estate agent, mortgage law, contract law, use of real estate forms, the lawyer and the agent, the Real Estate and Business Brokers Act, Condominium Act, Planning Act, Income Tax Act, Land Speculation Act, Land Transfer Act, and a course review.
Mon. to Fri. Day: 8:30 a.m. to 4:15 p.m.
Night: 6 to 9:05 p.m. Adelaide Campus
40 hours
Dates Continuous • **RE 905**

Acting

Two levels of Acting are offered for two terms of eight weeks each, six hours per week in the Theatre Department at 530 King St. East (at River St.). All students must attend an orientation session one week prior to the start of each term. This enables the teachers to place students in the class most suited to their level.
Orientation and Registration: *Mon., September 19*
Classes Begin: *September 26*

Acting (Level 1)

Exploratory exercises and improvisations designed to make novice actors aware of themselves and their abilities.
7 to 10 p.m. twice weekly 530 King St. E.
48 hours Fee: $72.00 • **THEA 900**

Acting (Level 2)

Students are involved in text study, scene work, solo material and preparation of audition speeches.
7 to 10 p.m. twice weekly 530 King St. E.
48 hours Fee: $72.00 • **THEA 901**
For more information, please call 967-1212, ext. 3201 or 3202

Writing for the Theatre

For course description, see page 15.

Write Your Own Screenplay

For course description see page 15.

Acting for Film and Television (Basic)

Get practical on-camera experience in a variety of comedy and dramatic scenes.
Special topics are introduced each night, such as: blocking, retakes, timing, emotion, presence, confidence and intensity. Classes are held in the video studio, Casa Loma Campus.
Tues. or Wed. 7 to 9:30 p.m.,
Tues. 3:30 to 6 p.m. Casa Loma Campus
25 hours Fee: $37.50
September 20 or 21 to November 22 or 23
• **THEA 934**

Acting for Film and Television (Intermediate)

Prerequisite: Acting for Film and Television (Basic) or equivalent.
Develop concentration, intensity, confidence and character range through on-camera workshops. Students select individual study pieces that are close to their character range.
Fri. 7 to 9:30 p.m. Casa Loma Campus
25 hours Fee: $37.50
September 23 to November 25 • **THEA 936**

Acting for Film and Television (Advanced)

Prerequisite: Professional acting experience.
Professional level actors perform scenes on camera with other committed actors and analyze their performance on playback. The classes emphasize building a character and understanding what makes certain film and television characterizations work over long periods of time.
Thurs. 7 to 9:30 p.m.
Casa Loma Campus
25 hours Fee: $37.50
September 22 to November 24
• **THEA 938**

For more information about the Acting for Film and Television series, please call Bill Insley at 967-1212, ext. 2482.

Creative Fashion Design/Apparel Management

These courses help people in the apparel industry upgrade their skills and knowledge in a particular specialty. Anyone wanting to advance their home sewing and design skills and have some exposure to industrial techniques will also benefit. Apparel Construction I and Apparel Construction II may qualify as prerequisites for the post-secondary program in Creative Fashion Design.

Apparel Construction I (Dressmaking — Elementary)

Learn elementary dressmaking using commercial patterns as well as sewing techniques both by hand and using an industrial machine. Other topics include: samples, measurements, laying-out patterns, and the relationship of pattern, style and fabric. Students supply their own materials.
Mon. and Wed. or Tues. and Thurs. 6 to 9 p.m.
Kensington Campus
60 hours Fee: $90.00 Equipment Fee: $25.00
September 19 or 20 to November 28 or 24
• **DRES 141X**

Apparel Construction II (Dressmaking — Intermediate)

Prerequisite: DRES 141X — Apparel Construction I
A continuation of DRES 141X focusing on the how-to's of fabric cutting, marking, stitching, fitting, finishing and pressing. Other topics include: purpose and selection of supporting fabrics, selection and preparation of lining fabrics, preparation of the pattern and pattern alterations. Students select projects beyond the beginner's level with the instructor's approval.
Mon. and Wed. 6 to 9 p.m.
Kensington Campus
60 hours Fee: $90.00 Equipment Fee: $25.00
September 19 to November 28 • **DRES 145X**

Apparel Construction III (Dressmaking — Advanced)

Prerequisite: DRES 145X — Apparel Construction II or proof of equivalent competency.
Students construct more complex garments of advanced design using delicate fabrics. The pattern and fabric are selected by the students and they must supply their own materials. Other subjects include: efficient use of materials to minimize waste, pattern alteration for proper fitting, application of lining where necessary, and finishing techniques for different materials.
Tues. and Thurs. 6 to 9 p.m.
Kensington Campus
60 hours Fee: $90.00 Equipment Fee: $20.00
September 20 to November 24 • **DRES 151X**

Children's Pattern Drafting Part I

Prerequisite: Practical experience in dressmaking. Introduces the student to drafting patterns for children's garments using master blocks for the following patterns: sun dress, apron, skirt and pants. Skirt styles drafted include: gathers, tucks, pleats, flare, four gore, circle, front-button opening, side-front opening, shoulder straps and ruffles. Various styles of waist bands, pockets, pants and overalls are also discussed.
Sat. 9 a.m. to 1 p.m. Kensington Campus
60 hours Fee: $90.00 Materials: $20.00
September 24 to January 14 • **PAT 901**

Children's Pattern Drafting Part II

Prerequisite: PAT 901 or equivalent in pattern drafting.
This course has been developed as an advanced level of children's pattern drafting to further the skills of people working in children's apparel production. The course covers the following topics: how to create any style of blouse from a basic block; how to create any style of pant, shortall or jumpsuit from only a pant front and back, block and bodice 'B'. Several different styles of waist, sleeves, collars, pants, skirts jumpsuits, blouses and overalls are developed in class.
Sat. 9 a.m. to 1 p.m. Kensington Campus
60 hours Fee: $90.00 Material Fee: $20.00
September 24 to January 14 • **PAT 902**

Apparel Pattern Drafting I (Elementary)

Prerequisite: Knowledge of dressmaking and practical experience.
Learn an easy and efficient method of drafting a pattern from your own design or from a garment in a fashion magazine. Topics include: elementary pattern design; size and age ranges (eg. misses 8,10,12...) including junior, women's and half sizes, master blocks, and drafting full-scale patterns for skirts, slacks and blouses from fashion drawings. Students supply their own drafting equipment.
Mon. and Wed. or Tues. and Thurs. 6 to 9 p.m.
Kensington Campus
60 hours Fee: $90.00 Equipment Fee: $20.00
September 19 or 20 to November 28 or 24
• PAT **141X**

Apparel Pattern Drafting II (Intermediate)

Prerequisite: PAT 141X — Apparel Pattern Drafting I or equivalent experience.
Learn to draft and develop pattern drafting skills that conform to fashion industry standards. Topics discussed include: drafting to manufacturing sizes, misses dresses, evening dresses, jackets and outer wear. Students supply their own drafting equipment.
Tues. 6 to 9 p.m. Kensington Campus
30 hours Fee: $45.00 Materials: $20.00
September 20 to November 22 • **PAT 143X**

Apparel Pattern Drafting III (Advanced)

Prerequisite: PAT 143X — Apparel Pattern Drafting II or equivalent experience.
From an original idea, learn to draft a quality pattern with perfect detail, proportion and fit. The categories for patterns are: day-time dresses, evening dresses and jackets, with consideration given to fabric and price. Students supply their own drafting equipment.
Thurs. 6 to 9 p.m. Kensington Campus
30 hours Fee: $45.00 Equipment Fee: $20.00
September 22 to November 24 • **PAT 151X**

Tailoring (Ladies')

Prerequisite: Preferably DRES 145X — Apparel Construction I or basic sewing skills.
Learn quick and simple tailoring methods for ladies' garments and construct a suit or coat using commercial patterns. Topics covered include: altering a pattern to fit the wearer, cutting techniques, and sewing and finishing using industrial machines. Students select and supply their own material and pattern.
Tues. and Thurs. 6 to 9 p.m. Kensington Campus
60 hours Fee: $90.00 Equipment Fee: $20.00
September 20 to November 24 • **DRES 146X**

Draping for Fashion Design

Prerequisite: PAT 141X and DRES 141X.
This course is designed to develop creativity in fashion design by transferring a pattern design to a JUDY form or a human body. Students learn to make a perfect fit by making alterations to the pattern before the fabric intended for the agarment is used. Students registering for this course should have taken at least the two prerequisite courses (PAT 141X and DRES 141X) and preferably more.
Tues. and Thurs. 6 to 9 p.m. Kensington Campus
60 hours Fee: $90.00 Material Fee: $30.00
September 20 to November 24 • **FASH 912**

Basic Garment Alterations NEW

Prerequisite: Some sewing experience is desirable.
This course is intended for employees of retail outlets of garment industry, but can be also used by anyone interested in garment alterations. The emphasis in the course is industrial methods and techniques. It includes the following operations; changing the hemline, changing side seams, altering shoulders and sleeves, correcting faulty necklines, adjusting a "hollow" back, correcting a tight crotch, reinserting zippers, and many other corrective operations. Students are also introduced to industrial sewing machines such as single needle, serger, blindstitch, etc.
Students supply own garments for alterations.
Sat. 9 a.m. to 1 p.m. Kensington Campus
60 hours Fee: $90.00 Materials: $15.00
September 24 to January 14 • **DRES 901**

Fashion Illustration I (Elementary)

Develop techniques for sketching fashion garments as practised in the industry. After an introduction to the basic concepts in fashion illustration, topics include: industrial methods, achieving textures, pattern techniques in different media for both rough sketches and working drawings, and finished drawings in a combination of media.
Students supply their own materials.
Wed. 6 to 9 p.m. Kensington Campus
30 hours Fee: $45.00
September 21 to November 23 • **PAT 144X**

Fashion Illustration II (Intermediate)

Prerequisite: PAT 144X — Fashion Illustration I or similar experience.
By combining creative ability with the additional technical skills taught, you can learn to portray fashion merchandise realistically. Subjects discussed include: commercial applications in fashion art, creative sketching, and the use of line and colour to illustrate garments realistically and aesthetically. Students supply their own materials.
Mon. 6 to 9 p.m. Kensington Campus
30 hours Fee: $45.00
September 19 to November 28 • **PAT 154X**

Work Management (Time Studies — Apparel)

Learn how to determine the time required to complete a job. Topics include: human relations in time study situations, methods to improve performance of the job understudy, proper timing procedures, record keeping, rating the operator's performance and incentives for improving production.
64 hours Fee: $96.00 Equipment Fee: $15.00
September to January, by arrangement with Apparel Management Department. • AT **100X**

Grading Techniques for Apparel Industry (Elementary)

Learn to take a finished pattern with all the detail and pieces and increase or decrease the pattern in size using simple, reliable methods. The mechanics of grading are taught for all styles of misses sizes 6-20 and junior size garments, helping you produce better fitted garments.
Mon. or Wed. 7 to 10 p.m. Kensington Campus
30 hours Fee: $45.00 Materials: $15.00
September 19 or 21 to November 28 or 23
• **PAT 900**

Window and Retail Display

Prerequisite: Practical motivation.
An introduction to the purpose, concepts and uses of window display. Specific topics include: basic tools, material and graphics used in fashion and menswear, practical merchandise trims, the use of mannequins and display themes.
Mon. and Wed. 7 to 10 p.m. Kensington Campus
60 hours Fee: $90.00 Equipment Fee: $10.00
September 19 to November 28 • **DISP 900**

Design Principles NEW

This cours will introduce applications of design principles; the means of rexpressing ideas in visual compositions. Students will study basic design elements and procedures including geometric forms, linear expression, proportion, symmetries, and pattern development. Design exercises will encourage not only ordered arrangement but also creative design through rhythm, balance, contrast and harmony. This course will provide a range of design ideas and exercises that can be applied to a wide variety of media.
Mon. 7 to 10 p.m. Casa Loma Campus
45 hours Fee: $67.50 Material Fee: $20.00
September 19 to January 16 • **DES 902**

Colour Theory for Fashion Design

Prerequisite: Employment in the fashion industry or a student in the Fashion Department (day or Continuing Education).
An introduction to colour theory in general and specifically its application to the fashion industry. Topics covered include: primary colours, physical optics, the colour triangle, colour systems; Munsell — hue, value and chroma; Johanes Itten — the Bauhaus, colour agent and colour effect, the seven colour contrasts, the 12 laws of simultaneous contrast; colour chords — dyads, triads, tetrads and hexads, harmony of contrasts, and colour perception — luminosity and incandescence. Homework assignments are given. This course is recognized as an elective in post-secondary fashion programs.
Wed. 6 to 9 p.m. Kensington Campus
45 hours Fee: $56.25
September 21 to January 11 • **FASH 903**

The Art of Make-up

For course description, see page 7. • **CE 868**

Esthetics — Skin and Beauty Care

Prerequisite: Employment in the field or intention to seek employment.
Students are taught the basic biochemistry of the skin, its classification, abnormalities, and defects and learn to analyze skin conditions and suggest treatment. The muscles and bone structure of the head, face, neck and shoulders are reviewed for their relevance to facial massage and skin manipulations. Students also learn to analyze a number of available beauty products. Hands-on skills include: cleaning and deep-cleaning the skin, make-up application and removal, facial massage, eyebrow shaping, mask application and removal, cream application, waxing, manicure, pedicure, anti-wrinkle treatment, scalp treatment and colour analysis.
Tues. and Thurs. 6 to 9 p.m. Kensington Campus
90 hours Fee: $135.00 Materials: $20.00
September 20 to January 12 • **FASH 901**

Machine Knitting

Note: Students who complete all three courses (Basic, Intermediate and Advanced) would qualify for employment in the knitting industry.

Knitting by Machine (Basic)

Learn the basic techniques of operating a knitting machine and producing a garment. Other concepts dealt with include: lace; tuck; skip and flair-isle techniques; producing a personal measurement chart; and different finishing methods.
Tues. or Thurs. 6:30 to 9:30 p.m.
Kensington Campus
30 hours Fee: $45.00 Equipment Fee: $20.00
September 20 or 22 to November 22 or 24
• **CFT 900**

Knitting by Machine (Intermediate)

Prerequisite: CFT 900 — Knitting by Machine.
Learn new techniques and further develop skills on the knitting machine by charting a variety of skirt styles in half-size samples. Other topics include: techniques of weaving by machine, introduction to the knit-leader and ribber attachments, and some garment finishing methods.
Mon. 7 to 10 p.m. Kensington Campus
30 hours Fee: $45.00 Equipment Fee: $20.00
September 19 to November 28 • **CFT 901**

Knitting by Machine (Advanced)

Prerequisites: CFT 900 — Knitting by Machine (Basic) and CFT 901 — Knitting by Machine (Intermediate).
Further develop your skills, especially in constructing finished items. Projects range from simple knits to elaborate designs that combine yarn with other materials. This course qualifies students for employment in the knitting industry.
Wed. 6:30 to 9:30 p.m. Kensington Campus
30 hours Fee: $45.00 Equipment Fee: $20.00
September 21 to November 23 • **CFT 902**

Designing Machine Knitted Garments

Prerequisite: Knitting by Machine (Advanced) — CFT 902 or equivalent.
Learn the techniques of designing machine knitted garments and produce a design for an ensemble of your choice. The instructor demonstrates patterns for sweaters, skirts and pants to assist students with their design projects. Other topics include: selection and characteristics of yarn and fibre, planning and presentation, graphing curves, using knit leader, charting, basic formulae and the specific formulae for calculating gores, round yokes, sizing and grading knit patterns.
Sat. 9 a.m. to noon Kensington Campus
30 hours Fee: $45.00 Material Fee: $10.00
September 24 to November 26 • **CFT 903**

Leather

Leather Garment Manufacturing Techniques — Part 1

Prerequisite: Ability to operate an industrial sewing machine.
Learn the techniques for producing leather and suede garments. Specific topics include: pattern arranging to suit skins; cutting and assembly skills; finishing and lining garments. Students supply their own materials and produce a garment of their choice.
Tues. 7 to 10 p.m. Kensington Campus
36 hours Fee: $54.00
September 20 to December 6 • **FASH 910**

Industrial Sewing

Pre-Sew — Industrial Power Sewing NEW

This course is designed to train the students to operate a basic industrial lockstitch power sewing machine to the time standards required in the industry. Students are taught the basic maintenance and adjustments, how to select proper needles and thread for different fabrics and specific sewing requirements. They are required to perform sewing exercises such as circles, rectangles, back tack, triangle, irregular shapes, single and double scallops, darts, pockets, sleeves and collars.

This course can be taken either as a prerequisite for FT 101 and FT 540 programs, or as Advanced Operator Trainee program in the sewn products industry.
Mon. and Wed. 6 to 9 p.m. Kensington Campus
96 hours Fee: $144.00 Material Fee: $45.00
September 19 to January 23 • **SEW 901**

Serger Machine

A special module (25 hours) for students completing the work in SEW 141X/151 in less than 240 hours. This course on operating sergers as used in Ontario apparel plants is also available for part-time students during regular classes. Students supply their own fabric.
Kensington Campus
30 hours Fee: $45.00 Equipment Fee: $15.00
By arrangement with the coordinator.
• **SEW 542X**

Blind Stitch Machine

A special module like SEW 542X on how to use the blind stitch machine used in Ontario apparel plants. Students supply their own fabric.
Kensington Campus
30 hours Fee: $45.00 Equipment Fee: $15.00
By arrangement with the coordinator.
• **SEW 543X**

Button-Hole and Button Sewer Machine

Prerequisite: Good eyesight and manual dexterity.
In a production setting, students learn to use a button-hole and button sewer machine as used in Ontario apparel plants. The course focuses on the dexterity needed for efficient machine operation and preventive maintenance as well as instruction in threading and manipulating the garments.
Kensington Campus
30 hours Fee: $45.00 Equipment Fee: $15.00
By arrangement with the coordinator.
• **SEW 544X**

Upholstery Sewing Machine Repair

Prerequisite: Employment in upholstery industry. It will cover the characteristics, utilisation, fittings and drive, maintenance, lubrication and troubleshooting of the lockstitch-type upholstery sewing machine. Students will also learn to dismantle the major components, replace parts as needed and rebuild the machine to perform at its full capacity.
Tues. 6 to 9 p.m. Kensington Campus
45 hours Fee: $67.50 Material Fee: $35.00
September 20 to January 10 • **SEW 900**

Furniture

Furniture Upholstery

Develop skills in re-upholstering and recovering furniture and building new furniture, starting with a frame. Techniques studied include: stripping upholstery from old furniture; re-stripping and applying springs to new furniture; the use of stuffings, felt and polyfoam to create appropriate shapes; cutting, matching and fitting fabrics; the use of power sewing machines to sew cushions, welts, etc.; and applying covering fabrics and trim. Students supply own projects such as chairs, footstools and love seats.
Mon. and Wed. 6 to 9 p.m.
Kensington Campus
60 hours Fee: $90.00 Materials: $25.00
September 19 to November 28 • **FURN 104X**

Cabinet Making — Elementary

An introduction to common hand and power tools used in home crafts, along with simple joinery methods and other techniques used in furniture and cabinet making. Acquire a basic knowledge of finer woodworking that should encourage you to proceed on your own home projects.
Tues. or Thurs. 7 to 10 p.m. Kensington Campus
60 hours Fee: $130.00
September 20 or 22 to February 14 or 16
• **CAR 900**

Barbering

Barbering for Hairdressers

Prerequisite: Ontario Certificate of Qualification in hairdressing.
This course in men's haircutting emphasizes short hair and tapers and prepares the student to qualify for the government hairstyling test and hairstyling certificate. Techniques include: shaving, strapping, honing, facials, hairpieces and blow drying.
Tues. and Thurs. 6 to 9 p.m. Kensington Campus
60 hours Fee: $90.00 Materials: $20.00
September 20 to November 24 • **BARB 902**

Certificate in Ceramics Techniques

Due to the increasing popularity of ceramics courses, the Ceramics Department has developed a program of five courses leading to a certificate in Ceramics Techniques. Successful completion of the five certificate courses (CER 900, CER 101X, CER 151X, CER 201X and CER 251X) will indicate the student's competence in hand building, throwing, glazing, decorating techniques, kiln technology and different firing procedures.
Courses taken elsewhere can only be applied in lieu of CER 900.
All other courses must be taken at George Brown College.

Basic Ceramics

An introduction to ceramics including basic hand-building and forming, elementary wheel throwing techniques and basic wet clay decorations.
Specific topics and methods presented include: constructing with slab and coil, cylinder and box construction, clay jointing, centering, opening and throwing methods, elementary shaping of cylinders and bowl forms, trimming, turning, finishing, slip brushing, banding, scraffito and impressing, glaze application, preparing bisque ware for glaze work and kiln stacking.
Sat. 9 a.m. to noon Casa Loma Campus
30 hours Fee: $45.00 Materials: $35.00
September 24 to November 26 • **CER 900**

Ceramics 1

This course introduces the student to a number of basic ceramic techniques in hand-building, throwing, decorating and glazing. Instruction is given in slab construction and joining with basic clay decoration including impress, scraffito and slip painting surface enrichment. Basic throwing operations are taught by making simple cylinders, mugs with handles and vases. Preparation of bisque ware for glazing and the use of oxide stains, brushing, dipping and glaze overlapping techniques are also taught. Theory in the course includes demonstration in each class and visual slide presentations.
Required work for the completion of the course: 6 mugs with handles, 2 vases, 1 slab pot, all glazed.
Tues. and Thurs. 7 to 10 p.m. Casa Loma Campus
60 hours Fee: $90.00 Materials: $35.00
September 20 to November 24 • **CER 101X**

Ceramics 3

Introduction to more advanced working skills where instruction is given in slip and stencil decoration, surface enrichment by carving, glaze spraying, dipping and overlapping glaze coat patterns.
Also includes the theory and practice of loading and firing gas kilns.
Practical design work is taught through the forming of teapots, the design of lids, spouts and handles, plates rim and foot patterns, the trimming and finishing of forms. Theory is taught in conjunction with practical demonstrations and visual slide presentations.
Mon. and Wed. 7 to 10 p.m. Casa Loma Campus
60 hours Fee: $90.00 Materials: $25.00
September 19 to November 28 • **CER 201X**

Ceramic Special Studies

NEW

Prerequisite: Practicing Ceramist-Potter.
This course is designed to allow the student to work within a concentrated area of his/her choice. Students will determine the area of focus and set goals. The exploration and development of students aesthetic and technical style will be emphasized. Technical demonstrations such as throwing, hand building, decorating, glazing, and kiln basics will be accompanied by slide lectures, design and exercises and critiques of work.
Mon. and Wed. 3 to 6 p.m. Casa Loma Campus
78 hours Fee: $117.00 Material Fee: $35.00
September 12 to December 12, 1988
• **CER 905**

Jewellery Arts

The following courses can be taken for personal enjoyment or professional development. Credits from courses with code numbers in the one, two, three, or four hundred series can be used towards a two- or three-year diploma in specialized Jewellery Arts programs. Please contact the Fashion Division for details.

Jewellery (Introduction)

Prerequisite: Current employment in the industry or hobby.
Develop basic skills and techniques necessary in jewellery making while class projects familiarize you with the use of jewellery hand tools. Techniques covered include: cutting, filing, fitting, hand soldering, fitting parts to small tolerances, and finishing and polishing the completed project.
Mon. or Thurs. 7 to 10 p.m. Casa Loma Campus
60 hours Fee: $90.00 Equipment Fee: $20.00
September 19 or 22 to February 20 or 16
• **JWL 160A**

Basic Casting Techniques

Develop basic techniques in casting precious metals into jewellery objects. Topics include: an introduction to casting equipment and casting techniques, cuttlefish casting and centrifugal casting. Students cast projects approved by the instructor from materials they provide themselves.
Tues. or Thurs. 7 to 10 p.m. Casa Loma Campus
60 hours Fee: $90.00 Equipment Fee: $20.00
September 20 or 22 to February 14 or 16
• **JWL 160B**

Jewellery (Intermediate)

Prerequisite: JWL 160A — Jewellery (Introduction)
Develop bench techniques for making jewellery. Topics include: continuation of bench work; introduction to planishing, shaping and doming of metals, assembly of design components, and soldering and finishing techniques. Students supply their own materials.
Wed. 7 to 10 p.m. Casa Loma Campus
60 hours Fee: $90.00 Equipment Fee: $20.00
September 21 to February 15 • **JWL 160C**

Gem Setting

Prerequisite: JWL 160A — Jewellery (Introduction) or equivalent.
An introduction to all facets of gem setting. Topics include: selection and preparation of tools for setting; types of gemsettings including round, oval, square and octagonal, claw setting, securing the stone, finishing, and the preparation, execution and finishing of a star setting. Students supply their own tools and materials.
Thurs. 7 to 10 p.m. Casa Loma Campus
60 hours Fee: $90.00 Equipment Fee: $20.00
September 22 to February 16 • **JWL 162**

Gem Setting (Intermediate)

Prerequisite: Gem Setting — Basic JWL 162X. Covers more complex gem setting techniques, such as setting fancy shaped stones, cluster rings and channel settings. Students supply their own tools and materials.
Wed. 7 to 10 p.m. Casa Loma Campus
60 hours Fee: $90.00 Materials: $20.00
September 21 to February 15 • **JWL 162I**

Jewellery Making (Silversmithing)

Prerequisite: Employment in jewellery industry or hobby.
Develop basic silversmithing skills through work on projects in tableware, holloware or items other than jewellery. Subjects and techniques presented include: silversmithing tools and methods, creating various shapes using hammer and anvil, raising and planishing the metal, fitting, joining and soldering techniques. Students supply their own materials.
Tues. 7 to 10 p.m. Casa Loma Campus
60 hours Fee: $90.00 Equipment Fee: $20.00
September 20 to February 14 • **JWL 164X**

Jewellery Making (Enamelling)

An introduction to the theory and practical techniques of applying enamel to metal. Specific topics include: enamel compounds and colours, use of furnaces, design, and applying multiple colours to metal objects. Students supply their own materials.
Mon. 7 to 10 p.m. Casa Loma Campus
60 hours Fee: $90.00 Equipment Fee: $20.00
September 19 to February 20 • **ENA 170X**

Jewellery (Advanced)

Prerequisite: JWL 160A — Jewellery (Introduction) and JWL 160C — Jewellery (Intermediate).
Learn advanced techniques of manufacturing jewellery and develop skills in making gold jewellery. Topics include: gold alloys, alloying and working techniques used in producing gold jewellery, and plating techniques. Students supply their own materials and receive individual instruction according to their needs.
Tues. 7 to 10 p.m. Casa Loma Campus
60 hours Fee: $90.00 Equipment Fee: $20.00
September 20 to February 14 • **JWL 260A**

Jewellery Rendering

This course is designed for the serious students who want to lean how to illustrate their Jewellery Designs. It is equally applicable for people presently employed in the Jewellery Industry as for the novices interested in Jewellery Design as a career. The course covers sketching Earrings, Bracelets, Pins, and Rings, and Basic Stone Shapes. Students also learn how to draw, shade and paint with water colours.
Tues. 7 to 10 p.m. Casa Loma Campus
45 hours Fee: $67.50 Material Fee: $20.00
September 20 to January 10 • **JWL 906**

Jewellery Grinding & Polishing

Prerequisite: Employment in the Industry or Jewellery Arts Student.
This course has been developed to train employees of jewellery manufacturing companies in grinding and polishing jewellery. Students learn through theory and hands-on experience the operations of grinding, pre-polishing, splitlaping, grease buffing and brushing, and final finishing of jewellery items to manufacturing standards. Instruction is also given on the operation and prevention maintenance of the equipment, the types of buffs and abrasives used and the methods of finishing.
Mon. and Wed. 7 to 10 p.m. Casa Loma Campus
60 hours Fee: $90.00 Material Fee: $35.00
September 19 to January 11 • **JWL 907**

Jewellery Repair

Prerequisite: Employment in the industry or JWL 160A.
This course offers hands-on experience in basic jewellery repairs. Instruction is given in ring sizing, chain repairs, setting retipping, rebuilding of sides and underbezels of rings, specialized soldering and other basic repairs. Students supply their own materials and own jewellery for repair.
Wed. 7 to 10 p.m. Casa Loma Campus
60 hours Fee: $90.00 Material Fee: $20.00
September 21 to February 15 • **JWL 905**

Gemmology I

Prerequisite: Employment in the jewellery industry or hobby. Study the different physical characteristics of gemstones and the use of testing instruments. Topics discussed include: colours, crystal formation, natural shapes and cuts. This course leads to certification.
Mon. 7 to 10 p.m. Casa Loma Campus
60 hours Fee: $90.00 Equipment Fee: $15.00
September 19 to February 20 • **GEM 167X**

Gemmology II (Intermediate)

Prerequisite: GEM 167X — Gemmology I.
Further study of gemstones as used in the jewellery industry and their identification using gemmological instruments. The course also examines the physical properties and chemical composition of precious stones, minerals and organic substances.
Wed. 7 to 10 p.m. Casa Loma Campus
60 hours Fee: $90.00 Equipment Fee: $15.00
September 21 to February 15 • **GEM 267X**

Gemmology III (Advanced)

Prerequisite: GEM 267X — Gemmology II (Intermediate).
A more advanced study of gems and the use of gemmological instruments in preparation for an examination. Specific subjects studied include: the refractometer, luminescence, microscopy, spectroscopy, etc., and parameters for gem classification.
Thurs. 7 to 10 p.m. Casa Loma Campus
60 hours Fee: $90.00 Equipment Fee: $15.00
September 22 to February 16 • **GEM 367X**

Watchmaking

Clock Repairing Skills

Prerequisite: Employment in the clockmaking industry or hobby.
Teaches beginners basic clock repair skills, including the use of the watchmaker's lathe to make bushings and how to replace pivots. Other topics include: refinishing bearings and pivots, making screws and simple repairs.
Wed. 6:30 to 9:30 p.m. St. James Campus
60 hours Fee: $90.00 Material Fee: $20.00
September 21 to February 15 • **WACH 901**

Intermediate Clock Repairing

Prerequisite: WACH 901 or proof of equivalent competency.
Instruction in the general repair of mantel clocks with 1/2 hour striking, alarm mechanisms and 400 day clocks. Other topics discussed in both theory and their practical application include: escapements, the pendulum, the balance wheel, and rack and count wheel striking mechanisms.
Mon. or Tues. 6:30 to 9:30 p.m.
St. James Campus
90 hours Fee: $135.00 Material Fee: $20.00
September 19 or 20 to April 25 or May 1
• **WACH 904**

Certificate in Hospitality Management

The Hospitality/Tourism industry will be Canada's largest industry by the year 2000 and will require a large number of well-trained personnel. The following courses, each complete in itself, expose future industry leaders to different aspects of management. Successful completion of six of the following 10 courses qualifies the student for a Certificate in Hospitality Management studies. These courses may also be applied for credit towards the full-time diploma in Hotel or Food and Beverage Management or Culinary Management. For information concerning the specific requirements for the certificate, phone 967-1212, ext. 3447.
A textbook is required in most courses.

Food Service Facilities – Planning and Design

Explains the stages in the development of a food service facility and the roles, compensations for and responsibilities of the professionals on the planning team: owner, operator, architect, food service designer, equipment contractor etc. Assignments and case studies are used to present material.
Subjects covered include: management of conceptual and physical planning in the overall development of the facility, concept and program definition, principles of efficient design and layout, selection of equipment, interior design, capital costs, business practices of professional consultants and emerging trends in hospitality facilities.
Note: Enrolment is limited.
Mon. 6:30 to 9:30 p.m. St. James Campus
30 hours Fee: $45.00
Materials: $15.00 (includes price of text)
September 19 to November 28 • **FSF 900**

Purchasing for Hospitality

By learning the fundamental principles of food and beverage purchasing, you can avoid costly errors and build a more profitable operation. This basic course deals with purchasing needs as determined by function, delivery, quantity and price.
Further topics of discussion include: purchasing specifications, making quantity decisions, basic inventory control and purchasing, selecting suppliers, determining prices, other costs in purchasing, purchasing procedures, value analysis, buying outside Canada, make vs. buy decisions and evaluating purchasing effectiveness.
Thurs. 6:30 to 9:30 p.m. St. James Campus
30 hours Fee: $45.00
Materials: $25.00 (includes price of text)
September 22 to November 24 • **ACC 108X**

Food and Beverage Cost Control

Learn the food and beverage cost control techniques used by the hospitality industry from purchasing through receiving, storing, issuing, production to portion and revenue control. Topics emphasized include: yield testing, recipe pre-costing and interpreting cost control information. Pricing strategy and the relationship between sales volume and profitability are touched on.
Mon. 6:30 to 9:30 p.m. St. James Campus
30 hours Fee: $45.00
Materials: $15.00 (includes price of text)
September 19 to November 28 • **ACC 210X**

Front Office Operation

An in-depth study of Front Office procedures and analysis of the hotel-guest relationship from pre-arrival to departure. Specific topics include: hotel terminology, types of reservation controls, reception and credit procedures, operation of the NCR 4200 and 250, V.I.P. guests and the impact of travel agencies on the hospitality industry.
Thurs. 6:30 to 9:30 p.m. St. James Campus
30 hours Fee: $45.00 Materials: $5.00
September 22 to November 24 • **HIND 222X**

Hospitality Law and Insurance

Provides students with a general understanding of the Canadian legal system as it pertains to the hospitality industry. This information allows the student to avoid legal difficulties for employees, customers and the organization. Topics include: origins and principles of the law, legal procedures, and the specific details of the law relating to the hospitality industry.
Mon. 6:30 to 9:30 p.m. St. James Campus
30 hours Fee: $45.00
Materials: $30.00 (includes price of text)
September 19 to November 28 • **LAW 204X**

Hospitality Accounting

Develops a working knowledge of the various areas essential to profitable financial management. Students determine the basic accounting data required by hospitality and tourism related operations and learn to use this information to improve the efficiency and profitability of the business. Individual sessions include: accounting; the language of business, special journals, the worksheet, financial statement analysis, ratio analysis, break-even analysis, budgeting, cash management and internal control.
Wed. 6:30 to 9:30 p.m. St. James Campus
30 hours Fee: $45.00
Materials: $20.00 (includes price of text)
September 21 to November 23 • **ACC 207X**

Hospitality Personnel

Techniques for successfully managing the human resources of an organization and developing skills in manpower planning.
Topics include: theories of the management process; planning, staffing, organizing, directing and controlling the workforce; compensation, motivation, training and development; job design and standards of performance.
Tues. 6:30 to 9:30 p.m. St. James Campus
30 hours Fee: $45.00 Materials: $5.00
September 20 to November 22 • **PERS 202X**

Marketing for the Hospitality Industry

Learn the elements of a successful marketing program, as well as how to deal with marketing problems and avoid errors that waste time, money and create unhappy customers. Specific topics include: the marketing mix — product, place, price, promotion and their effect on the customer, the sales department, advertising, public relations, the marketing plan, food and beverage marketing and menus, press relations and promotional material.
Wed. 6:30 to 9:30 p.m. St. James Campus
30 hours Fee: $45.00
Materials: $30.00 (includes price of text)
September 21 to November 23 • **MARK 208X**

How to Start a Restaurant

An overview of the many areas of concern when planning and/or operating a new food service facility that are dealt with more specifically in the other courses in this series. The areas discussed include: developing a concept, defining the marketing strategy, menu planning, business organization, human resources, layout and design of the facility, financial planning, and controlling food, beverage and labour costs.
Thurs. 6 to 9 p.m. St. James Campus
30 hours Fee: $45.00
Materials: $15.00 (includes text)
September 22 to November 24 • **SBM 900**

Kitchen Management

Develop the skills needed to manage any type of kitchen. Students participate in the instructor's demonstrations of yield tests with a primal cut of beef and a multiple ingredient recipe. Other topics include: how to interpret simplified financial statements, classification of menus, culinary terminology, types of dining room services, pre-cost standardized recipes, how to calculate food costs, food sales, food cost percentage, and how to forecast annual sales and production requirements.
Tues. 6 to 9 p.m. St. James Campus
45 hours Fee: $67.50
Materials: $15.00 (includes text)
September 20 to January 10 • **PUR 104X**

Certificate in Haute Cuisine

This program is designed to meet the growing demand for people skilled in the preparation of fine food. Basic Small Quantity Food is the first of eight courses in the program and students learn to apply the principles of cooking to tested recipes under the guidance of professional chefs. Further courses, in sequence, are: Basic Baking, Advanced Small Quantity Food, Advanced Baking, Appreciation of Wines, Chinese Cuisine (Dim Sum) and Chinese Cuisine (Cantonese). Each student receives a certificate of competence on satisfactory completion of each course and on completion of five courses will be awarded a certificate in Haute Cuisine.

Cooking

Small Quantity Food (Basic)

This introduction to the basic principles of cooking shows you how to take the raw products and create the basic requirements for classical dishes. Topics include: sauteing, broiling, stewing, cooking lean and fat fish, seafoods, vegetables, salads, garnishes, dressings and the use of herbs, spices and wines.
Mon., Tues., Wed. or Thurs. 6 to 10 p.m.
St. James Campus
60 hours Fee: $90.00 Materials: $100.00
September 19, 20, 21 or 22 to January 10, 11, 12 or 16 • **FP 730X**

Small Quantity Food (Advanced)

Prerequisite: FP 730X — Small Quantity Food (Basic).
Apply your knowledge of cooking to the classical dishes of continental Europe. Learn to prepare a variety of famous dishes including: the French classics, Italian pastas, Spanish paellas, Russian coulibiacs, Scandinavian smorgasbords, German sauerbraten and beer soups, the shish kebabs of Turkey and Greece, the bouillabaisse of Marseilles, Indian curries, Japanese suki yaki and the nasi goreng of Indonesia.
Thurs. 6 to 10 p.m. St. James Campus
60 hours Fee: $90.00 Materials: $140.00
September 22 to January 12 • **FP 731X**

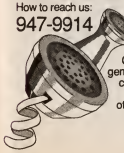
Vegetarian Cooking

An introduction to vegetarian cooking including identification and selection of raw food and the various cooking methods used eg. frying, steaming and grilling. Also learn the nutritional value of vegetarian products, how to plan menus and purchase in season.
Tues. 6 to 9 p.m. St. James Campus
30 hours Fee: $73.00 Materials: $44.00
September 20 to November 22 • **F 835**

Chinese Cuisine (Cantonese)

Learn to cook and prepare food Cantonese-style. Techniques introduced include: handling Chinese cleavers and knives, using different types of woks, the cooking temperature for various foods; the use of flour, starches, oil and spices; preparing popular Cantonese sauces such as Cantonese brown sauce, sweet and sour sauce, barbecue sauce; meals cooked with pork, beef and chicken as well as tofu and mushrooms. Students prepare about 17 different recipes after the instructor demonstrates the proper method.
Mon. 6 to 10 p.m. St. James Campus
40 hours Fee: $80.00 Materials: $85.00
September 19 to November 28 • **F 901**

How to reach us:
947-9914



Call this number for general information about continuing education courses, unless otherwise indicated in this directory.

Chinese Cuisine (Cantonese) — Level II

Prerequisite: Chinese Cuisine (Cantonese) – F901.
This course is intended for those who have experienced the art of Cantonese cooking and wish to further their skills by adding new recipes. The new dishes range from seafood to poultry and beef, supplemented with a number of vegetables, noodles and rice and the appropriate sauces, cooked in the style that best complements the main dish.
Wed. 6 to 10 p.m. St. James Campus
40 hours Fee: $80.00 Materials: $85.00
September 21 to November 23 • **F 838**

Chinese Cuisine (Dim-Sum)

Learn to prepare a number of Dim-Sum style Chinese snacks. Among the recipes prepared are: hargaw, sui my, fan kwou, sesame and lotus seed ball, barbeque pork buns and spring rolls. Each of the dishes is first demonstrated by the chef instructor and then prepared by students. A total of 20 recipes are prepared during the course.
Tues. 6 to 10 p.m. St. James Campus
40 hours Fee: $80.00 Materials: $85.00
September 20 to November 22 • **F 900**

Chinese Cuisine (Sichuan)

In this course the student is introduced to Sichuan style Chinese Cuisine. As with other styles, Sichuan Cuisine is unique in its treatments of chicken, pork, beef and seafood as well as a number of vegetables. Similarly, different ingredients and methods of preparation of Sichuan sauces will often change the flavour of a given recipe.
All food preparation is first demonstrated by the teacher and then prepared by students in the Chinese Cuisine Lab. Up to 20 different recipes are prepared during the 10-week course.
Thurs. 6 to 10 p.m. St. James Campus
40 hours Fee: $60.00 Materials: $85.00
September 22 to November 24 • **F 904**

Junior Gourmet Cooking

Prerequisite: 10-18 years old and a desire to learn gourmet cooking.
Basic cooking techniques are introduced through 20 or more varied recipes. Students cover: soups, boning and cooking poultry, cleaning and cooking fish, egg dishes, frying, sauteing, stewing, roasting, braising, salad work, cold desserts, baking etc.
Sat. 9 a.m. to noon St. James Campus
30 hours Fee: $62.00 Materials: $41.00
September 24 to November 26 • **F 815**

Sausage Making

NEW

This course is intended for small food retailers such as specialty delicatessen, small caterers restaurants and hotels who could benefit from offering fresh specialty items to their customers. It is also open to anyone interested in sausage making. Students learn to use the equipment, prepare ingredients, use different spices, select the type of casing and binding agents and other essential operations. Several different sausage types are prepared in class.
Tues. 7 to 10 p.m. Kensington Campus
30 hours Fee: $45.00 Material Fee: $85.00
September 20 to November 22 • **F 908**

The Language of Food

NEW

This course, intended for either students of hospitality or anyone with a passion for food and drink and a desire to tell the world about it, explores food communications in its broadest context, including electronic and print media, public relations and advertising, food styling and food photography, and simply good, clear business writing. Each session will feature guest speakers expert in a particular area of food communications, as well as practical demonstrations and exercises designed to improve individual food communication skills.
Maximum Enrollment: 50 (maximum)
Course Leaders: Andrew Douglas & David Kingsmill
Length: Eight 3-hour sessions.
Wed. 7 to 10 p.m. St. James Campus
24 hours Fee: $36.00
September 21 to November 9 • **F 907**

Baking

Baking (Basic)

Gain a practical knowledge of pastry doughs, choux paste, yeast dough, sponge goods, quick bread, custards, puddings and other types of desserts. Learn to prepare fresh apple pie, creamy desserts, fruit type desserts, yeast dough products, puff paste, cake (pastry), cheese pie, cookies and black forest cake.
Mon. or Thurs. 6 to 10 p.m. St. James Campus
40 hours Fee: $90.00 Materials: $63.00
September 19 or 22 to November 28 or 24 • **BK 610X**

Baking (Advanced)

Prerequisite: BK 610X — Basic Baking.
Develop advanced techniques of preparing pastry and desserts.
Students are taught the true art of French pastries and their presentation and learn to create patisserie masterpieces, flamboyant desserts, ice cream bombes, souffles, tortes and gateau.
Wed. 6 to 10 p.m. St. James Campus
40 hours Fee: $60.00 Materials: $73.00
September 21 to November 23 • **BK 634X**

Baking Bread and Rolls

A hands-on course that quickly develops bread and roll making techniques. Learn to bake both pan and hearth-type bread loaves using wheat or rye flour as well as prepare the following: three kinds of buttermilk bread, raisin bread, whole wheat bread, a variety of cheese breads, chop suey and Italian style loaves; soft, hard and Parker House rolls, and three types of French bread. Demonstrations precede practical lessons.
Thurs. 6 to 10 p.m. St. James Campus
80 hours Fee: $120.00 Materials: $78.00
September 22 to February 16 • **BK 900**

Cake Decorating

Learn the art of cake decoration and design and the practical techniques of cake and pastry decorating. Lectures, demonstrations and hands-on experience introduce the following techniques: piping, icing, modelling, preparing various decorator icings, free-hand piping, pattern tracing string work, ornaments, inscriptions, flowers, border designs, and working with marzipan, chocolate and rolled fondant.
Tues. or Wed. 7 to 10 p.m. St. James Campus
30 hours Fee: $75.00 Materials: $25.00
September 20 or 21 to November 22 or 23
• **BK 639X**

Bread and Rolls Craft for the Professional Baker

Prerequisites: Minimum Grade 8 equivalent in mathematics and English.
Learn the theory and practice of using various kinds of flour and other ingredients to produce fermented goods such as: soft rolls, straight doughs, whole wheat products, sponge doughs, no-time doughs, sweet dough and rye bread products.
Theory is taught from 4 to 6 p.m. and includes: sanitary requirements, the 12 major ingredients and the fermentation process for each type of bread or roll. This course is one of eight modules of the Professional Baking program developed by the Industrial Training Branch of the Ministry of Colleges and Universities.
Tues. 4 to 6 p.m. and 7 to 11 p.m.
St. James Campus
114 hours Fee: $171.00 Materials: $162.00
September 20 to February 7 • **BK 901**

Quick Breads Craft for the Professional Baker

Prerequisite: Grade 8 or equivalent in English and mathematics.
Learn to produce a variety of quick breads including biscuits, scones, muffins, cakes, yeast and combination doughnuts, cup-cakes, metropolitans, loaf-type quick breads and different French items.
Theory is taught from 4 to 6 p.m. followed by practical work in the baking lab. Topics studied include: theory of baking, baking temperatures, batter separation, mixing ingredients, deep fat frying and flat icing finishing. This course is one of eight modules of the Professional Baking program developed by the Industrial Training Branch of the Ministry of Colleges and Universities.
Thurs. 4 to 6 p.m. and 7 to 11 p.m.
St. James Campus
114 hours Fee: $171.00 Materials: $162.00
September 22 to February 9 • **BK 902**

Patissier

This part-time program provides advanced training for bakers and pastry cooks in all aspects of cakes, pastries, decorating and specialty items required in the trade. This two-part program is divided into 10 units according to the patissier training profile developed by the Apprenticeship Branch of the Ontario Ministry of Colleges and Universities as an extension of the Junior Baker and Baker programs.

Patissier II (Baker, Branch 3, Apprentice)

Prerequisite: Certified journeyman baker or cook.
The following subjects are covered in Part II: gum paste, chocolate and couverture, specialty cookies and wedding cakes.
Tues. 6 to 11 p.m. St. James Campus
65 hours Fee: $97.50 Materials: $115.50
September 20 to December 13 • **F 650**

Wines and Spirits

Appreciation of Wines

Prerequisite: Over 19 years of age.
Develop a greater knowledge of wines from the different types and vintages to the selection of the correct wine for the menu. Students also discuss wine prices, handling, storage, glassware and serving temperatures. Taste evaluations of the more distinctive wines will be conducted by guest lecturers.
Tues. or Thurs. 6:30 to 9:30 p.m.
St. James Campus
30 hours Fee: $45.00 Materials: $95.00.
September 20 or 22 to November 22 or 24
• **F 902**

Advanced Wine Appreciation

Prerequisite: Appreciation of Wines F 902 and over 19 years of age.
Course Content: This course has been designed to familiarize students who already have a sense of wine appreciation, with "Grand Crus" from some of the world's vineyards such as France, Germany, Portugal, Spain and the U.S.A. Tasting and sampling will be the main part of the course.
Mon. or Wed. 6:30 to 9:30 p.m.
St. James Campus
30 hours Fee: $45.00 Materials: $155.00
September 19 or 21 to November 28 or 23
• **F 903**

Mixology (Cocktail Bartending)

Learn to prepare the 30 most popular shaken, stirred and built drinks for use at home or as an introduction to the bartending profession. Each student works in a fully equipped individual bar.
Mon., Tues., Wed. or Thurs. 7 to 10 p.m.
St. James Campus

Lois Smith · Founding Artistic Director

Complete ballet programs for both pre-professional and recreational students.
Fall Term September 12, 1988 to January 28, 1989
Audition Junior and Senior Divisions
September 8 and 9, 1988 (by appointment)

Under the direction of Elisabeth Leyds-Holmes, the School of Dance provides a comprehensive dance training to its professional, pre-professional and non-professional students. Although classes in other dance idioms are provided, the School is primarily ballet oriented.
The Continuing Education wing of the school encompasses our Children's (pre-professional), Adults' (non-professional) and Summer Schools.

Junior Division
For students aged 6 to 13, the Junior Division provides creative movement classes for its very youngest children. More formal ballet training begins by age 9, when students attend classes 2 or more times per week. Ballet classes are taught in a carefully graded curriculum drawing on Cecchetti, Royal Academy of Dance, Bournonville and Russian techniques.

Senior Division
Designed for more advanced students, aged 14 to 18 years, this division encompasses all the pre-professional levels. Pre-professional students attend classes up to six days per week and in addition to their daily ballet classes, study other dance forms such as modern, jazz or character, depending on their level.

Adult Divisions
These courses are designed for adults and non-professionals who wish to combine meaningful exercise with a deeper understanding of the technical aspects of ballet.

Classes are offered in the evening at various times throughout the week at the beginner through advanced level.

For more information about George Brown's School of Dance, Please Call 363-9945.

Counselling
Educational, vocational and personal counselling services are available at each campus on a drop-in basis or by appointment.
Normal office hours are 8:30 a.m. to 4 p.m.
Counselling services are available at St. James Campus on Thursdays until 6:30 p.m.
Please contact the counselling services listed below to make an appointment
Casa-Loma: 967-1212, ext. 2274 or 2414
Kensington: 967-1212, ext. 4330
St. James : 967-1212, ext. 3310 or 3311

Certification
Many of the courses in this calendar can lead to college diplomas or certificates. Others may lead to certification or accreditation by external professional or licensing bodies.
In both cases, requirements will be clearly outlined in the course information. For further information, contact the Counselling Department at your campus or the Chairperson of the department offering your course. It is the student's responsibility to request certification.
Certificates will be prepared by the Student Records Department upon authorization by the Chairperson or Program Co-ordinator.

Advanced Standing
If you have credits from another college or educational institution, and/or related work experience, you may be eligible for advanced standing in certificate and diploma programs. Contact the Program Chairperson for details.

Grades/Credits
Graduates will receive a grade report including a short description of the course approximately one month after the course has ended.

Transfers
Requests for course transfer will be accepted only if made before the third scheduled class and if space is available. Requests for transfer must be made in person or in writing and must be accompanied by the registration receipt.
Transfers will be considered as a withdrawal from the first course and a registration in the second. Full fees will apply to the second course chosen. A fee of $5 is charged for this service.

Withdrawal and Refund
If you withdraw before the third scheduled class, you are entitled to a partial refund of tuition fees. This policy doe not apply to: one-day seminars, courses of three sessions or less, or the Harbourfront Sailing courses.
Apply in person or by mail to your Campus Admissions Office. A registration receipt must be presented before any refund will be made.
Non-attendance at classes does not constitute an automatic notice of withdrawal.
Fees will be refunded except for a service charge of $5 and a charge of $5 per scheduled class to a maximum of $10, depending on how many classes have passed at the time of the refund request, regardless of whether or not the student attended classes.
Where a material fee has been paid, refunds will depend upon the amount of materials already used by the student during classes. No refund is permitted on or after the start date of courses lasting one or two days.
Please allow six weeks for the processing and mail delivery of College refund cheques or credit to charge card accounts.

Course Cancellation/ Changes
George Brown College reserves the right to cancel or suspend courses, combine classes, change instructors or limit enrolment. Courses will be cancelled if there is insufficient enrolment or if the instructor cannot be suitably replaced. Every effort will be made to notify students by phone.
A full refund will be made if a course is cancelled. Please allow six weeks for processing and mail delivery.
Transferees may have their original payment credited to the new course. Overpayment will be refunded by mail, or credited to charge card accounts.
Should the start of a course be postponed, registrations will be notified by telephone of their revised start dates.
Statutory holidays are not considered when advertising course termination dates. This may result in your course running a night longer if a holiday occurs during your course. The same can occur if a class is cancelled.

Financial Assistance
Financial aid is available to some part-time students taking post-secondary credit courses. To find out if you are eligible for assistance, please call or visit the Financial Aid office. Normal office hours are Monday, Wednesday, Thursday, and Friday, 10 a.m. to 4 p.m.
Casa Loma Campus: 967-1212, ext. 2281
(500 Macpherson Ave.)

Books and Supplies
You can buy books and supplies at Campus Bookstores. Your instructor will tell you which books you will need for the course during the first class.
For your convenience, the bookstores at the Casa Loma Campus and the St. James Campus will be open evenings, Monday to Thursday, from September 8 to November 30; Extended hours:
Casa Loma: 5:30 to 7:30 p.m.
St. James: 4:30 to 7:30 p.m.

Foreign Students
Students who are not Canadian citizens or permanent residents may need permission to register from Employment and Immigration Canada. For more information, call 967-1212 and ask for the part-time Admissions Office at the campus where your course is offered.

Senior Citizens
If you are 65 or older, you may register in most of the courses in this directory for $5.00 plus any applicable material fee, except where noted. Please be prepared to supply proof of age.

Parking
All George Brown campuses are in downtown Toronto and parking may be difficult. We suggest you leave your car at home and take the TTC instead. Call TTC information for routes to our campuses: 393-4636.

This directory is prepared several months ahead of the semester. Every effort is made to ensure that the information provided is accurate; however, some changes may take place from the time of publication.

How to reach us:
947-9914

Call this number for general information about continuing education courses, unless otherwise indicated in this directory.

George Brown College makes it easy for you to register by offering two convenient methods of registration. Register as soon as possible because enrolment is limited and registrations are accepted on a first-come, first-served basis.

In Person

For courses offered at Nightingale Campus and Casa Loma Campus, register at Casa Loma Admissions Office.
For courses offered at Kensington Campus, register at Kensington Admissions Office.
For courses offered at St. James Campus, register at the St. James Admissions Office.
Check the back cover of this directory for the campus' office hours.
Bring along your social insurance number.
You can pay by cash, money order, personal cheque or VISA.
Post-dated cheques are not accepted.
Full payment is due at the time of registration.

Mail Registration

Mail-in registrations must be received by the College at least three weeks before the course starts.
Avoid registration line-ups through George Brown's easy and convenient mail-in registration process:

- Please use the registration form on page 85.
- Include full payment (tuition *and* any applicable materials fees) by money order, personal cheque, or VISA.
- Write the name of the campus where the course will be held on both the registration form *and* the envelope.
- Print your name, course title and course code on the back of the cheque or money order.

Mail the completed form to:
_____ Campus
(insert campus for your course here)
Part-Time Courses
George Brown College
P.O. Box 1015, Station B
Toronto, Ontario
M5T 2T9

Admission Requirements

You must be 19 years old by the day your course starts. Exceptions are the special courses offered for children.
Foreign students who are not Canadian Citizens or Permanent Residents must obtain permission to register from Employment and Immigration Canada and present a Student Authorization from at the time of registration.

Confirmation of Registration

Registrations are accepted on a first-come, first-served basis. Receipt of registration form by the College does not guarantee enrolment. Students registering in person will receive confirmation when they register.
If you register by mail, your registration will be confirmed by mail, time permitting.
If the course you wanted is cancelled or full, you will be telephoned or notified by mail before classes begin.
You should go to the first evening of class unless you hear otherwise.

Fee Receipts

A registration receipt bearing a cash register imprint is your official income tax receipt and must be presented for admission into class, and for transfers or withdrawals.
Mail-in registrants will receive their receipts at the first scheduled class of their course, or through the mail if time permits.
Duplicate or replacement receipts will not be issued.
Materials fees are not eligible for tax deduction purposes.

Room Location

Class room numbers will be printed on registration forms for most in-person registrants. Others should check the main lobby on the first night of class at the campus where their course is offered.
If you need help finding a room, go to the Campus Supervisor's Office.

MAIL-IN REGISTRATION APPLICATION

Please complete **all** blocks and mail the completed registration application and payment to:

_____ Campus
(insert campus for your course here)
Part Time Courses: George Brown College,
P.O. Box 1015 Station "B", Toronto, Ontario M5T 2T9

For instruction on how to register by mail, see page 84.

Mail-in registrations should be received by the College at least three weeks before the course starts.

Enjoy your Summer

and give some thought to the Fall

Summer's a time to take it easy, enjoy sunny days and relax.

But once September comes, those lazy days are over. Now is the time to plan what you want to do after Labour Day. And George Brown's job-oriented training programs can get you started on the career you've been dreaming about all summer.

Although some of our full-time day programs are already filled, you can still apply for these one-, two- and three-year programs that start this September.
